Comments of Interrogator relative to intelligence and character of observer(s):

NARRATIVE SUMMARY:

Between approximately 0800 and 0900 on the morning of 18 July 1949 I was called to the door (Bldg T-516) by Pvt Clemmensen who exclaimed, "Hey, you guys, come and see these 'flying saucers'!" He sounded rather serious about the matter, so I went to the door and he pointed "it" out to me. I saw an object which appeared to be moving at a great rate of speed in an easterly direction. It was visible only for four or five seconds and seemed to disappear. A C-82 was flying by at the time and the object appeared to be beyond the C-82 and at an altitude of approximately 5,000 to 8,000 feet. It seemed to pass on by the C-82 very fast.

Its shape was more or less round and not particularly flashy in a white color. No exhaust trails, weather very clear, no audible combustion sound.

/s/ [REDACTED] S/Sgt, USAF, [REDACTED]

On the morning of 18 July 1949, between the hours of 0800 and 0900, an object was called to my attention by Pvt [REDACTED]. Its shape was round and its color was dull white. It was traveling in the air in an easterly direction at a high rate of speed. Soon after seeing it, I lost sight of it. The ceiling was unlimited. A C-82 was flying much lower. The object seemed to be in the stratosphere.

/s/ [REDACTED] Cpl, USAF

I was looking out of the Supply building (T-516) when, first, I saw a C-82. While looking, I saw two other objects that I first thought were jet planes. They were traveling just as fast or faster than the C-82. I called the other men, telling them there were two flying saucers. They saw them too and the objects then disappeared. Speed was very fast and altitude was about the same as the C-82, which was not very high. The color was a bright silver.
