Answers, or Insert Answer

1. Date of your observation: 24 1 1960
Day Month Year
2. Date you reported the observation: 25 1 1960
Day Month Year
3. What time was it when you sighted the object: 2030
Hours Minutes
- A.M. P.M. Daylight Standard
- Zone: Eastern, Central, Mountain, Pacific, _____
Other
4. Length of time object was observed. Estimate: _____
Hours Minutes Seconds
5. Where observed: (OBJECTS OVER CARSWELL AFB)
ORLANDO Fort Worth TEXAS USA
Postal Address City or Town State Country
6. Where were you at time of observation:
Inside building, In Car, Outdoors, _____
Other
7. Were you moving at any time during this sighting: No
Yes or No
8. Did you stop at any time during this sighting: _____
Yes or No
9. If you were moving - give _____ and _____ miles per hour.
Direction Speed
10. How was object observed: (Naked eye)
Eye glasses
Other glass (Window or Windshield)
Binoculars, Telescope, Theodolite
Other _____
11. How did you happen to notice the object: NOTED ALPHACENT
ON LIGHT IN SKY

12. Describe what you saw as briefly as possible in the following spaces:

a. Sound None

b. Shape None

c. Color None WHITE

d. Size None

e. Number SEVEN (7)

f. Light brightness None

g. Light color BLuish, WHITE

h. Motion SEVERAL SMALL TYPING

i. Speed 1000 MPH

j. Other None

13. How did object disappear from view: Suddenly or (Gradually)
Circle One

14. At any time did the object:

a. Change direction. b. Change speed. c. Move behind something; Cloud,
House, Tree, Other d. Blend with background. e. Decrease

in size. f. Decrease in brightness. g. Move in front of something.

h. Other

15. When you first looked at the object, what direction were you facing? None

16. When you last saw the object, what direction were you facing? None

17. In the following Sketch A, draw lines
from the observer's eye to the circular
arc to show the apparent elevation of the
object in the sky.

A. When first seen, label a.

B. When last seen, label b.

STATEMENT

On 24 July 1949 at approximately 2030 hours, my wife called to my attention a flight of several objects flying almost directly over our heads at a phenomenal rate of speed. They were approximately seven in number and were emitting a bluish-white light. I watched their flight from South to North until they disappeared.

I certify that the above statement is true and correct to the best of my knowledge:

Captain, USAF

NARRATIVE SUMMARY:

On 24 July 1949 at approximately 2030 hours, my wife called to my attention a flight of several objects flying almost directly over our heads at a phenomenal rate of speed. They were approximately seven in number and were emitting a bluish-white light. I watched their flight from South to North until they disappeared.

/s/ [REDACTED] Captain, USAF

On 24 July 1949 at approximately 2030 hours, I saw what appeared to be seven dully lighted objects in a type "V" formation slightly to the West moving very rapidly from South to North. The distance between lights apparently did not change during the time they were visible, which indicated that they might have all been on a single object. This formation of lights was visible for only four or five seconds and finally faded away into the Northern sky.

/s/ [REDACTED] Major, USAF

UNIDENTIFIED AERIAL OBJECTS

Incident No. 1

1. Date of Observation 24 Jul 49 Date of Interview 25 Jul 49
2. Exact time of Observation (local) approximately 2030 CST
3. Place of Observation: Over Carswell Air Force Base, Fort Worth, Texas,
(Map Coordinates) 32°47' North, 97°27' West.
4. Position of observer (air, car, bldg, location of - give details):
Backyard of home located at [REDACTED] Arlington Heights, Fort Worth, Texas.
5. What attracted attention to object: Movement of lights in the sky.
6. Number of objects and sketch of formation or grouping: Seven (7) objects in a 30° "V".
7. Apparent size (compare to known object, i.e., sun, moon, thumb or fist at arms length): The entire formation was as large as the fist at arm's length.
8. Color of object: Dull white (like a fluorescent dial on a clock).
9. Shape (give graphic description - compare with known object):
Unknown.
10. Altitude (angle of elevation above horizon - 0° at horizon, 90° overhead):
First seen at 70° moving to 15° almost due North.
11. Direction from observer (angle clockwise from North):
When first seen? 9 o'clock When last seen? 11 o'clock
12. Distance from observer (distant to town, bldg, etc., over which object appeared to be): 5 miles.
13. Direction of flight of object (s): From South to North (direction 360°)
14. Time in sight: 4 seconds.
15. Velocity (time to cover given angular distance): 1000 MPH.
16. Sound and odor: None.

Incident No. 1

17. Trail (color, length, width, persistence, etc.) None.
18. Luminosity (visible by reflection, incandescence, other - degree of brilliance): Incandescent.
19. Projections (fins, wings, rods, antennae, canopies, etc.):
Not observed.
20. Maneuvers (turns, climbs, dives, etc. - sketch of flight path):
None, straight level flying.
21. Manner of disappearance: Faded out gradually.
22. Effect on clouds: No clouds visible.
23. Additional information concerning object: None.
24. Weather conditions and light at time of sighting:
Clear, starlight only.

Name and address of observer: Major [redacted] Hq & Hq Squadron, Eighth Air Force, Carswell AFB, Ft Worth; Capt [redacted], same address, and Occupation and hobbies: [redacted] residence [redacted] Fort Worth, Texas. Capt [redacted], Pilot; Major [redacted] Radar Observer; Mrs. [redacted] Housewife.

Comments of Interrogator relative to intelligence and character of observer (check neighbors, police dept., FBI records, employer, etc.): (See page 4).

Major [redacted] has an interim AEC Clearance; he is a Regular Air Force officer and is considered very reliable.

Capt [redacted] has a clearance and a position of unusual trust, is a pilot and is considered very reliable. He is also a Regular Air Force officer.

Mrs. [redacted] is considered very reliable.

Did observer wear glasses, especially polaroid glasses at time of sighting, or was object viewed through canopy, window, or other transparent material?

No glasses. Observers were in the open.

Relative to Radar Sightings

1. Re radars now operating on ground No radar sightings.
 - a. Observations of direction, range, speed, altitude and size of target.
 - b. Did target execute any turns? If so, what angle (180°), etc, and what radius of turn. If radius of turn was not observable, how long did the target stay in the turn and what was its speed?
 - c. Note particularly any separation of distant target into several targets upon approach:
 - d. Was radar blip on cathode ray tube well defined and consistent with size of object; faint; fading, pulsating at regular rate:
 - e. Did radar echo signal disappear suddenly or gradually?
2. If airborne, when object was sighted
 - a. Were there any radar indications or extra noise on radio circuits:
 - b. Give estimates of size, speed, maneuvers, etc:

GENERAL

1. Teletype sequences of local weather conditions: None.
2. Winds aloft report: None

Incident No. 1

3. Local flight schedules of commercial, private and military aircraft flying in vicinity at the time;

(Check Canadian activity if close to border)

None.

4. Possible releases of testing devices in vicinity sent aloft by Ordnance, Navy, Air Force, Army, Weather Units, Research Organizations or any other; obtain computed or observed trajectory of device (theodolite, radar readings, etc.) Carswell Air Force Base Weather at 0857 released one balloon, sounding type, 6 feet in diameter, natural color, string 100 feet long with a radio instrument at the end.

5. If object contacted earth, obtain soil samples within and without depression or spot where object landed for purposes of making comparison of soils.

No contact observed.

6. Obtain photographs (or original negatives) where available; if not, secure sketches of: None obtained.

- a. Object
- b. Surrounding terrain where object was observed
- c. Place where object contacted earth (if this happened)
- d. Maneuvers
- e. Formation (if more than two)

7. Secure signed statements. Attached.

8. Obtain fragments or physical evidence where possible.
None

Comments of Interrogator:

Report coincides with newspaper wire service story of observation by pilot of seven objects in V Formation flying over Boise, Idaho, the night of 24 July 1949.
