

PROJECT 10073 RECORD

1. DATE - TIME GROUP 2 August 19 02/2000Z	2. LOCATION San Francisco, California
3. SOURCE Civilian	10. CONCLUSION Other (KITES)
4. NUMBER OF OBJECTS Two to Eight	Radar testing devices known as "kites" were released from the AF Radar Installation at Treasure Island and Fort Baker twice each day at 1000 and 1600 PST.
5. LENGTH OF OBSERVATION 35 - 40 Seconds	11. BRIEF SUMMARY AND ANALYSIS Objects appeared to be in formation and traveling at a speed greater than jet aircraft. Objects were described as being oval in shape some were like a box kite. The objects made no tactics or maneuvers. There was no exhaust, or trails and no sound observed. Objects disappeared behind a fog bank. The second time these objects were sighted they were described as being silver in color, construction seemed to be solid, the shape was square like a box kite, and the size was about 12 inches square. The direction of flight was SSE and climbing.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE N to SSE	
8. PHOTOS D Yes	
9. PHYSICAL EVIDENCE D Yes

DETAILS

AT SAN FRANCISCO, CALIFORNIA

UNCLASSIFIED

1. On 10 October 1949 information received from the San Francisco, California Office, Civil Aeronautics Authority (CAA) revealed that there are one hundred sixty-one (161) listed air carriers in the Bay Area, San Francisco, California. Fourteen (14) of the listed air carriers operate on regular schedules and less than one (1) percent of the remaining carriers file any type of flight plan or clearance, consequently it is impossible to determine the existence of any known aircraft in the area 44° x 15'N, 132°-57'W on 2 August 1949.

2. On 10 October 1949 a check of the San Francisco and Oakland, California Municipal Airports revealed that less than one (1) percent of the aircraft normally using these airports file any type of flight plan or clearance, consequently it is impossible to determine the existence of any known aircraft in the area 44° x 15'N, 132°-57'W on 2 August 1949.

3. On 10 October 1949 a check of the records maintained by G-2, Sixth Army and ONI, Twelfth Naval District, San Francisco, California revealed that these commands do not possess a radar installation which is powerful enough to reach the area 44° 15'N, 132° 57'W

DETAILS:

1. This investigation was requested by the District Commander, DO # 19, Fairfield-Suisun AFB, California, upon receipt of report from Mr. [REDACTED], Office of Naval Intelligence, 12th Naval District, Federal Building, San Francisco, California, dated 2 September 1949.

AT SAN FRANCISCO, CALIFORNIA

2. On 2 September 1949, in an interview with Mr. [REDACTED] sales clerk, [REDACTED] [REDACTED] t, San Francisco, California, the following information was ascertained: On Monday, 1 August 1949, at approximately 1400 hours, PST, Mr. [REDACTED], while riding on a commercial passenger fishing boat approaching the Golden Gate, sighted two (2) objects appearing to be in formation and traveling at a speed greater than that of jet aircraft. These objects were oval in shape, from 10,000 to 25,000 feet in altitude, at a distance laterally of approximately eight (8) miles, and at an angle of elevation from the horizon of approximately 55°. Sighting time was approximately 35 to 40 seconds and the objects appeared to be silvery in color, having oval shapes, and apparently of solid construction. Size of these objects, as they appeared from [REDACTED] view, were approximately the size of a penny, and the estimated size was approximately 40 feet in diameter. The objects were going due North, and made no tactics or maneuvers. There was no evidence of exhaust, no effect on clouds, no visible lights, and other than the shape of the objects, there was no means of aero dynamic support. There was no sound, no fins or stabilizers were visible, and nothing was seen of any means of propulsion. No slots or duct openings were noticed and the speed of objects was estimated at from one to one and one-half times faster than jet aircraft. Mr. [REDACTED] stated that objects disappeared behind fog bank. Mr. [REDACTED] called the attention of the other members of the boat to these objects which appeared to be in formation, and after they had disappeared from view, Mr. [REDACTED], several minutes later, spotted approximately seven (7) more of these objects in trail formation at the same altitude, traveling in the same direction and being identical with the original objects.

DETAILS (cont'd)

3. On 6 September 1949, in an interview with Captain [REDACTED], San Francisco, California, Captain of a commercial passenger fishing boat for Jerry's Bait Shop, the following information was ascertained: On Monday, 1 August 1949, at approximately 1430 hours, PST, [REDACTED], who was a passenger on the boat and was known to Captain [REDACTED] as being a [REDACTED] in [REDACTED], San Francisco, California, called his attention to several objects (four or more) in the sky. At this time the fishing boat was approaching San Francisco in the main ship channel of the Golden Gate, was approximately 200 yards South of No. 2 Buoy, and was due East of the San Francisco Light Ship. At this time the objects were approximately nine (9) miles away, laterally, at an angle of elevation from the horizon of 45°, at an approximate altitude of 1000 feet. Sighting time was less than a minute. Objects were described as being silver in color, and having a square shape, approximating that of a box kite. Construction seemed to be solid, and the size, as it appeared from Captain [REDACTED]'s view, was twelve (12) inches square. The direction of flight was approximated as SSE and appeared to be climbing. There was no evidence of exhaust, no effect on clouds, no lights were noticed, either reflected or attached, no aero dynamic support was visible other than shape of object. There was no evidence of any means of propulsion, either propeller or jet, no fins or stabilizers were noticed and no slots or duct openings were visible. No sound was heard, and the speed was estimated as at jet speed or better. These objects faded from view.

NOTE: Discrepancies in the shape, altitude, and direction of flight, between Mr. [REDACTED]'s version and Captain [REDACTED]'s version were noted and questioned. Both were convinced of the accuracy of their own statements.

4. On 6 September 1949, Mr. [REDACTED], [REDACTED] Street, Jerry's Bait Shop, San Francisco, California, stated that Mr. [REDACTED] had worked for him for approximately ten (10) years, as a sales clerk and that Captain [REDACTED] had been employed by him as Captain of his commercial passenger

AT OAKLAND, CALIFORNIA

1. On 12 September 1949, in an interview with Reverend [REDACTED], [REDACTED], Oakland, California, the following information was ascertained: On Monday, 1 August 1949, at approximately 1430 hours, PST, Reverend [REDACTED], while riding on a commercial passenger fishing boat approaching the Golden Gate, sighted six (6) or more objects appearing to be in formation and traveling at a speed slower than that of a jet aircraft. These objects were oval in shape, at an undetermined altitude, at a distance laterally of approximately ten (10) miles, and at an angle of elevation from the horizon of approximately 55°. Sighting time was estimated as from three (3) to four (4) seconds. Color was expressed as silvery, and objects apparently were of solid construction. Estimated size, as they appeared from Rev. [REDACTED]'s view, was like a "half dollar", and estimated size was 20 feet in diameter. The objects were going ENE and made no tactics or maneuvers. There was no evidence of exhaust, no effect on clouds, no visible lights, and other than the shape of objects there was no means of aerodynamic support. There was no sound; no fins or stabilizers were visible; and nothing was seen of any means of propulsion. No slots or duct openings were noticed and the speed of objects was estimated at "slower than jet aircraft." Objects faded from view. Rev. [REDACTED]'s attention was drawn to these objects by Mr. [REDACTED].

NOTE: Rev. [REDACTED] is Colored, and his religious sect is "[REDACTED]". His wife is considered a "Prophetess". Rev. [REDACTED] impressed this agent as being a "religious fanatic" and as not particularly responsible or reliable. [REDACTED] lives in an extremely low class Colored neighborhood and attempts to interview neighbors to establish [REDACTED]'s reliability were not successful.

DETAILS (cont'd)

5. (cont'd)

surface winds at SW at 15 knots, temperature 61°. Weather report from the Coast Guard, Fort Point Station, San Francisco, California, on 1 August 1949, at 1400 hours, PST, showed barometric pressure 30.22, temperature 62°, westerly wind at 12 to 15 miles per hour. Sea calm, scattered clouds, 6 to 8 mile visibility. Weather report from San Francisco Light Ship, for 1 August 1949, 1300 hours, PST, showed barometric pressure 30.19, temperature 70°, westerly wind 8 to 12 miles per hour; light sea; visibility 15 to 20 miles. Scattered clouds.

6. On 7 September 1949, it was learned from the San Francisco Civil Aeronautics Authority (CAA) that there were 161 listed air carriers in the Bay Area. Only 14 of these have regularly scheduled flights and less than one percent of the remaining file any kind of plan or clearance for their flights. A check with the Oakland Air Port and the San Francisco Air Port revealed that less than one percent of the planes normally using those fields file any type of schedule or clearance. A check with the Hamilton Air Force Base and a check at the Navy Alameda Air Station disclosed that on 1 August 1949, there were numerous flights made by military aircraft in and around the Bay Area.

7. On 7 September 1949, Air Force Radar Installations at Treasure Island and Fort Baker, both at San Francisco, California, revealed that they send aloft radar testing devices known as "kites" twice each day at approximately 1000 and 1600 hours, PST. These devices are of aluminum sheet, approximately five (5) feet on a side, roughly diamond shaped and containing double sets of triangular fins on the top side. These are carried aloft by gas filled balloons and when these devices reach a high enough altitude, the expanding gases cause the balloons to burst and the "kites" drift earthward.
