SYNOPSIS [REDACTED] On 6 September 1949, at approximately 2340 hours, Mrs. [REDACTED], Practical Nurse, who resides at [REDACTED], Alexandria, Louisiana, observed, at an angle of approximately 30° from the horizon, through the windshield of the automobile in which she was a passenger, a brilliant red and orchid colored, turnip-shaped object, describing at a speed faster than that of an airplane, a slightly descending flight path, wavering up and down from a west south-westerly, to a southerly direction, where it seemed to vanish behind a cloud. This phenomenon was observed from the vicinity of [REDACTED] and emitted no exhaust, made no sound, and was not propelled or supported by any discernable means, and remained in view approximately five (5) seconds.
