'Saucers' Sighted By Shelby Residents

Shelby, April 10.—(AP)—Five Shelby residents aren't Doubting Thomases when it comes to tales of flying saucers. They say they saw one high over Shelby Saturday.

Paul Limerick, the commander of Shelby's Veterans of Foreign Wars, gave the report on the whatzit of the air. He said he and Doane Mulick, an employe of an auto parts firm, and three children watched it for at least two minutes.

Limerick described it as aluminum colored but not in the shape of an airplane. Apparently round, it followed a horizontal southwesterly course without making any noise or giving out any smoke or flame, he reported. Limerick said it "wobbled" along its course for about two minutes and then shot straight upward before disappearing.
