Important - Please Rush! Book
is still in existence, but I
do not think there is active
work being done on the subject
of UFO's. I am greatly interested,
and am doing much work on
the subject.

To get to the point, could
you send me photocopies of
the pictures taken by Mrs
~~_____~~ at Mc Menmille,
Oregon, May 11, 1950 at 7:30 in
the evening of a gently rocking,
circular thing about 100 feet
above the ground. I do not
know if this has been classified
as an "unknown". If it is not
possible to send me these
pictures, please send me in-
formation concerning where I

can obtain these pictures. Also could you tell me what this is classified as.

Could you also send me verification of the incident between a so called "saucer man" and a tourist in the American desert. I have seen pictures of the crash of his footprints and the picture of the case in which the "saucer man" developed the film. I would like to know if this is garbage or is classified as unknown.

I would be deeply gratified if you could send me what I asked for or any information concerning the subject of unidentified flying objects.

Yours gratefully,

Washington D.C.
Dept. of science

I have recently acquired some information concerning the sighting and taking of two, (2), photographs of one, (1), unidentified object by Mr. and Mrs. [REDACTED] of McMinnville, Oregon.

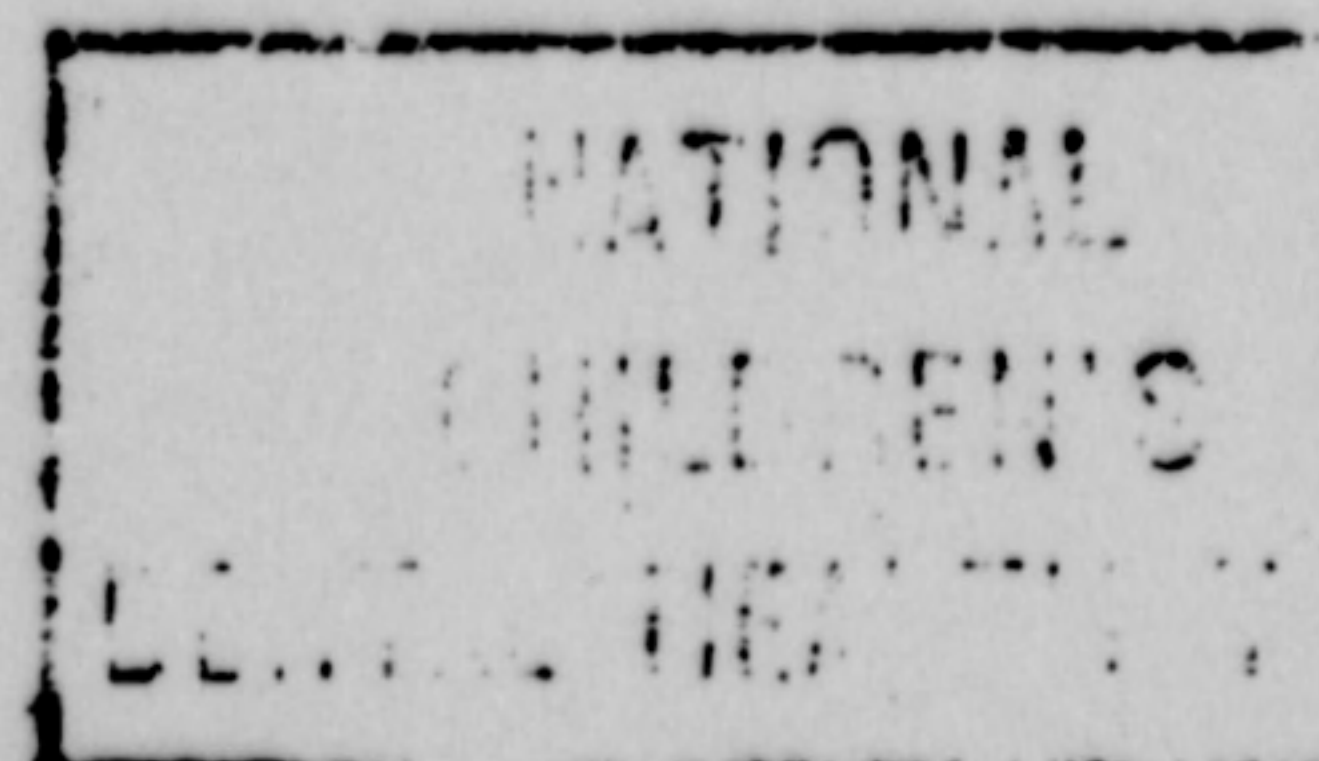

The Photographs were taken on May 11, 1950 at the [REDACTED] farm just outside McMinnville, Oregon.

I would appreciate it very much if you would obtain and send to the address listed below information and photographs of other and this such incidents

NO CASE (INFORMATION ONLY)

11 MAY 1 1965
McMINNVILLE, Oregon

10 March 1965

Dear Mr. Case:

Your letter to the Department of Science has been referred to this office as a matter pertaining to the Air Force.

The Air Force has no information on photographs of an unidentified flying object taken by Mr. & Mrs. [REDACTED] of McMinnville, Oregon.

In this regard, it should be noted that all photographs submitted in conjunction with UFO reports have been a misinterpretation of natural or conventional objects. The object in these photographs have a positive identification.

Sincerely,

JOHN P. SPAULDING
