4 Teachers from Dwight School noticed the phenomenon. One of them remarked "They look as flying saucers are described". I was not with them.

30. Please add here any further comments which you believe are important.
Use additional sheets of the same size paper, if necessary.

A young girl & her Mother saw the dumbbell lights at 9:15 the same night & watched them ~~for some time~~ ~~some time~~.

249 Sunset Rd. Tenafly.

The most skeptical of my friends saw on the nights of May 7th & 8th, other phenomena of a different type - All of these were moonlight lights & the aerial phenomena

were all seen near the moon in all cases. By this I do not mean far away in the sky for they were undoubtedly in our atmosphere, but as we all saw them, they appeared in that part of the sky where the moon was - 15 Wight Pl. Tenafly -

The description of the recent Florida affair, sounds much like what I saw, only the dumbbell balls of fire went south, not the sky, at a terrific rate of speed.
