AIR INTELLIGENCE INFORMATION REPORT

SUBJECT: (UNCLASSIFIED) Unidentified Flying Objects Report (Short Title: FLYOBRPT)
AREA REPORTED ON: Middletown Air Materiel Area
FROM (Agency) Intelligence Office: Olmsted Air Force Base, Middletown, Pa.
DATE OF REPORT: 16 July 1952
DATE OF INFORMATION: 15 July 1952
EVALUATION:
PREPARED BY (Officer): John L. Spicard, 2d Lt, USAF
SOURCE: Civilian observers
REFERENCES (Control number, directive, previous report, etc., as applicable): Air Force Letter No. 200-5, 29 Apr 52.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

Mr. [REDACTED], Mauch Chunk, Pa., reported the observation of an unidentified flying object on 14 July 1952, 2340 EDT.

150340Z

Mr. [REDACTED] first observed the object while at a drive-in theater South of Lehigh, Pa. He described the object as being plainly visible and reported it to be illuminated by an intense yellow light. He claimed that what appeared to be the main body of the object was being circumnavigated by a red glow the orbit of which was at a 45° angle to the horizon. This observer described the light to have been flickering intermittently.

Mr. [REDACTED] estimated the position of the object as being approximately 25 miles Southwest of his position at Lehigh. He could not accurately estimate its altitude, however, he did judge it to be approximately 20° above the horizon. Although the object was reported to have remained in a relatively local area for some time, the observer believes that it was moving slowly to the Southeast. Mr. [REDACTED] reported that he heard no sound. He could give no information on the object's aerodynamic characteristics. He described the object to be moving in an elliptical orbit making sudden changes in altitude.

During his observation three aircraft were in the vicinity—two commercial and one military. Mr. [REDACTED] claimed that the object was easily distinguished from the aircraft. Other people witnessing his first observation were his wife, his sister-in-law, and another unidentified man. None of these was able to elaborate any further on the observation.

At approximately 0015 hours, EDT, while Mr. [REDACTED] was parking his car in East Mauch Chunk, Pa., five miles distant from the first sighting, he again noticed the object. At this time he was joined by a Mr. [REDACTED], East Mauch Chunk, Pa. Although the object was easily visible, Mr. Benscoter used his field glasses for a better observation. Mr. [REDACTED] physical description of the object was similar to that of Mr. [REDACTED] with the exception that he witnessed a constant variation in the color of light which he described as a change from bright red to blue-green.

Mr. [REDACTED] wasn't able to give any description of the object's aerodynamic

features. He didn't observe anything that might be described as an exhaust.

He reported the object to have been traveling Southeast and indicated that the object was in his view for approximately an hour and thirty-five minutes. No estimate of speed or altitude could be given.

In describing the maneuvers of the object, Mr. [REDACTED] remarked that it intermittently seemed to hover and then made sharp variations in altitude. This object was confined to a local area all during the observation.

Mr. [REDACTED] did add that he saw what he believed to be definitely a shooting star at approximately 0200 hours; however, he insisted that the object seen earlier didn't have the same characteristics.

Other witnesses to this second observation included Mr. Wenscoter's father-Mr. [REDACTED] and his mother-Mrs. [REDACTED].

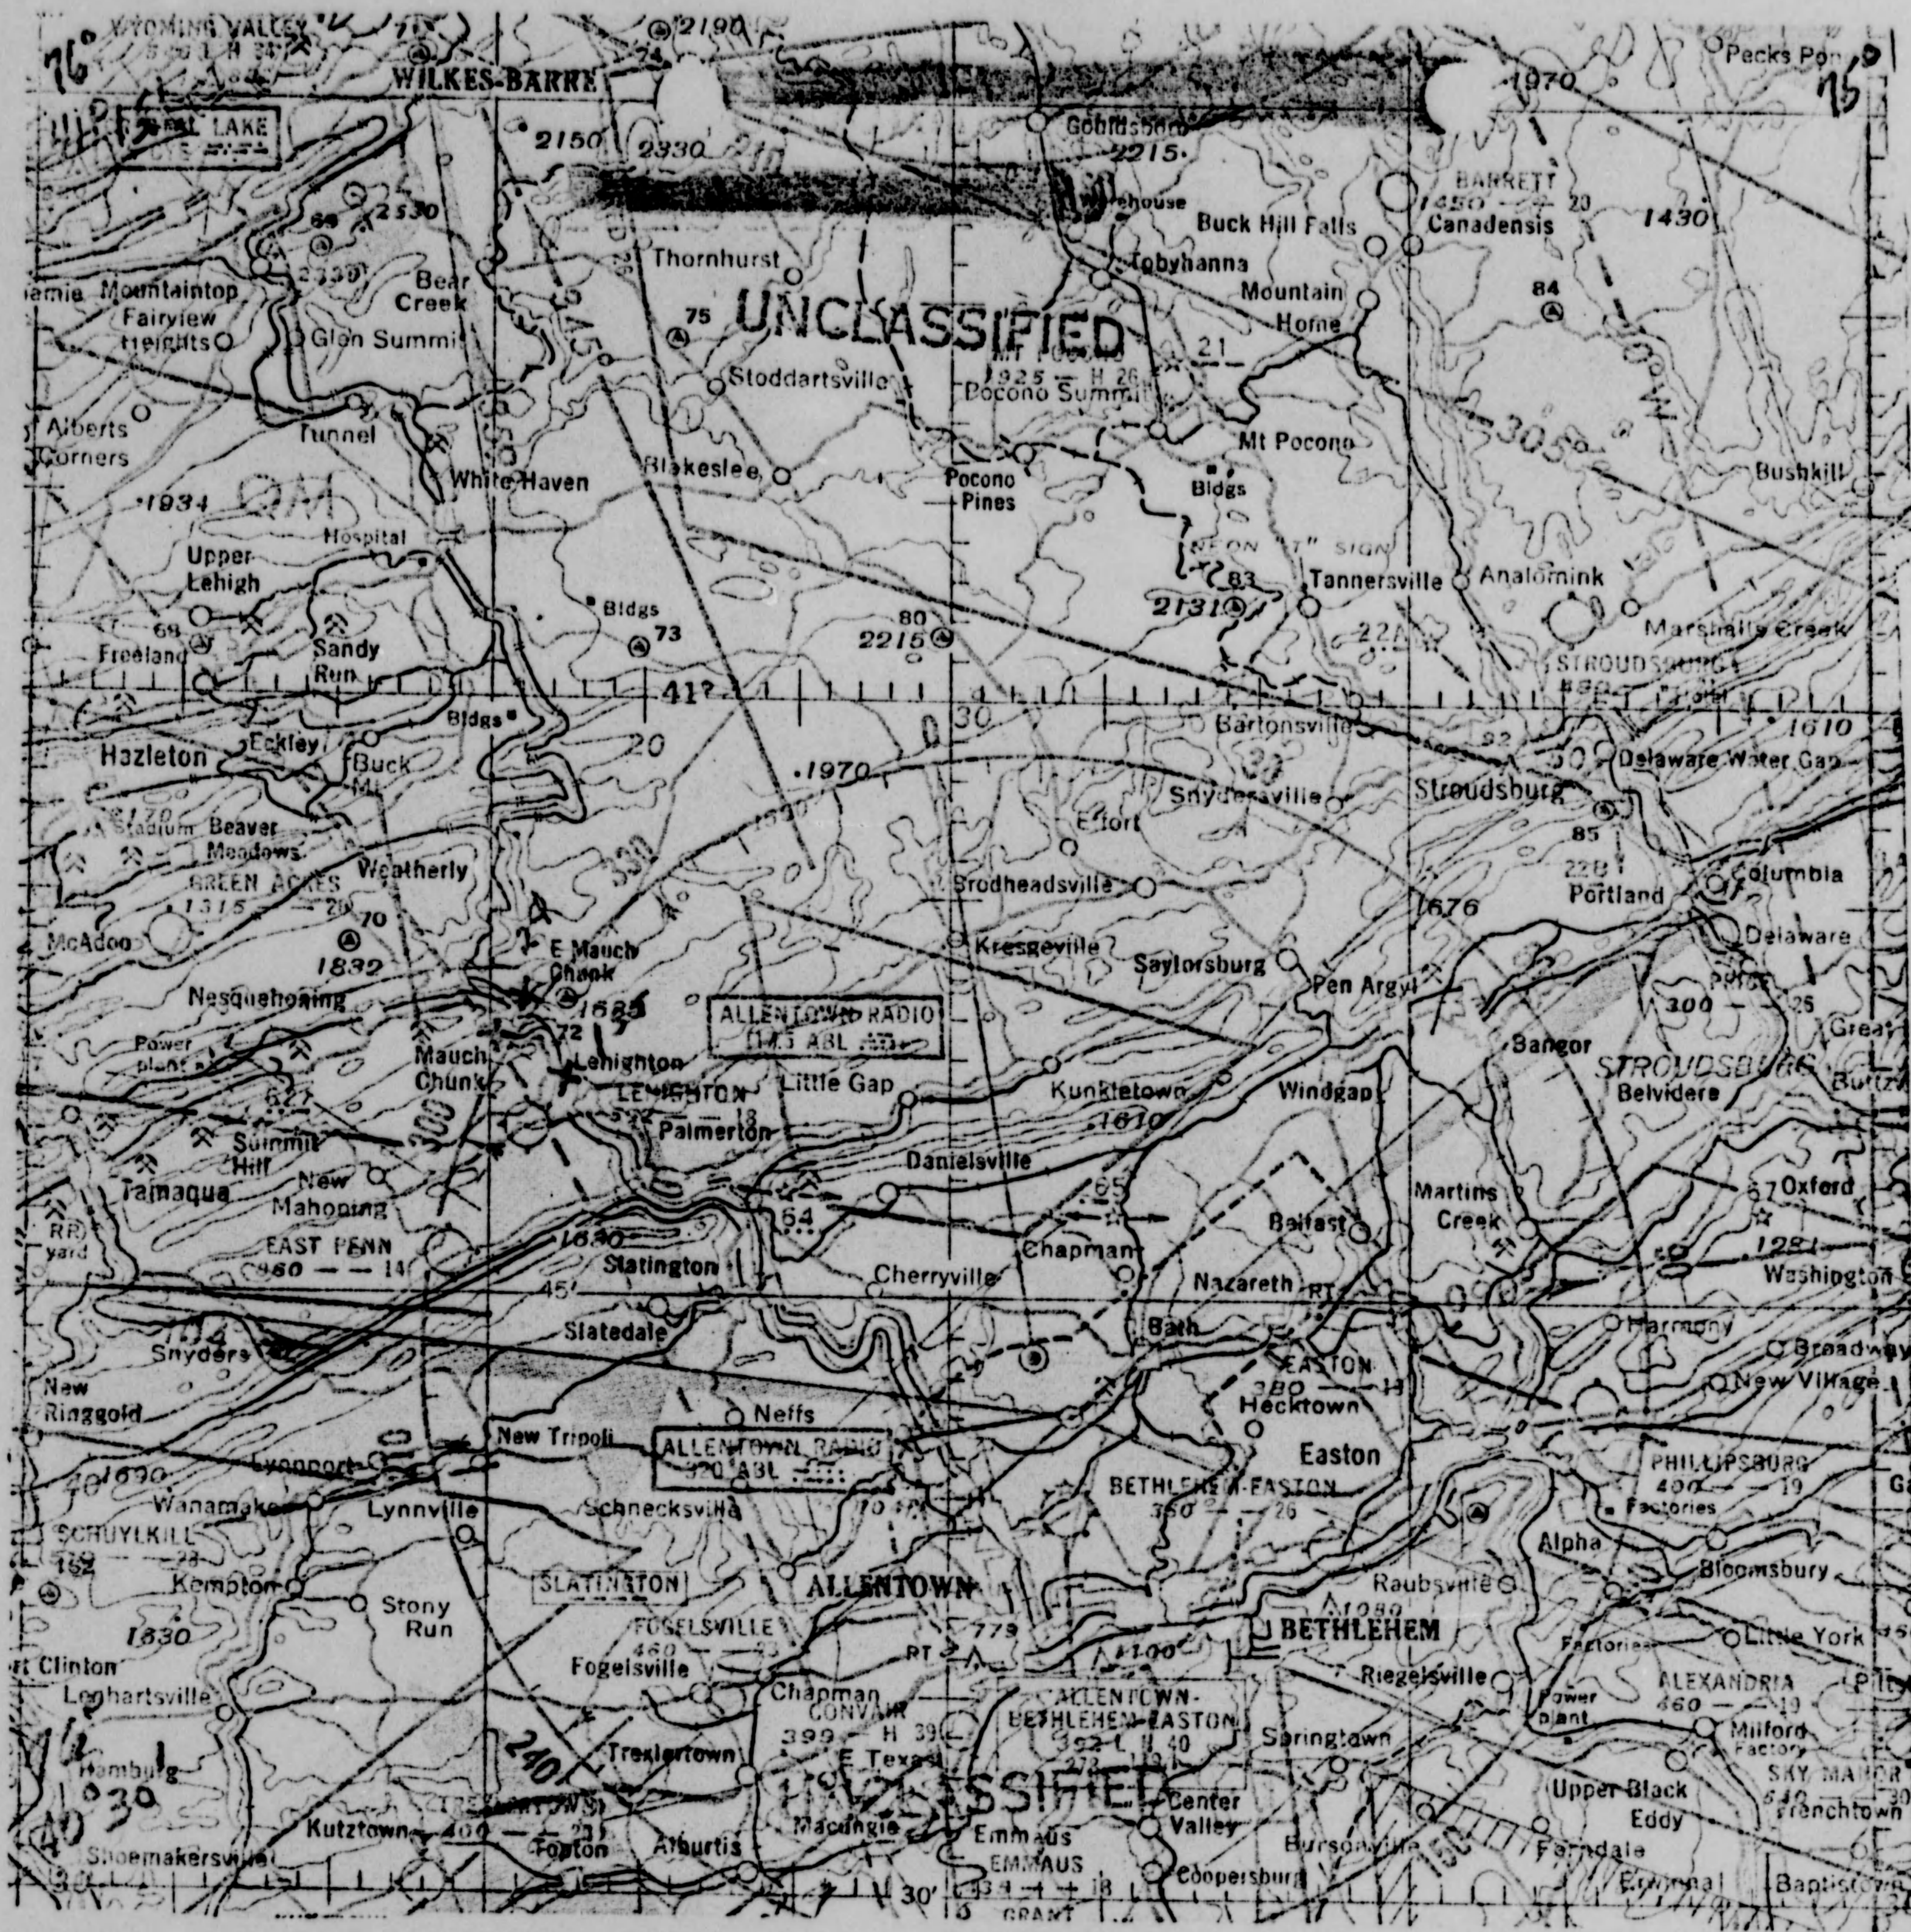

It should be noted that there had been NO local publicity preceding this observation and, therefore, there is no reason to believe that local hysteria "prompted" the sightings.

Visibility on the night of 15 July at the time of the sighting was reported by local weather station to be approximately twelve miles. The weather therefore was ideal for such an observation.

In evaluating the reliability of the reports it should be noted that both Mr. [REDACTED] and Mr. [REDACTED] are both ex-air crew members, the former a radio operator and the latter a bombardier. Both have had experience with aircraft and probably with aerial phenomena.

This office is unable to give any explanation for the sighting and remains non-committal.

To whom it may concern;

I, [REDACTED], on the evening of July 14, 1952 sighted a strange object in the sky, south east of Leighton, Pa.

While attending a drive in theatre, south of Leighton, I observed first a military aircraft pass overhead flying north-east, shortly thereafter, I observed two commercial aircraft flying south-east veering mostly east, about five minutes apart. While watching the first of these commercial planes, I took note of this strange object.

The object was situated in the south-east sky, & had a yellow glow. At first, I took it to be a planet, but then it seemed to twinkle, so my first thought was a star. However the yellow glow had me puzzled, & as I watched & wondered, I saw it move in small circles up and down. Calling attention to the object to the other occupants of the car, I asked if they thought it moved, & they verified my observation.

Upon returning home to March Creek, Pa., & crossing the river to East March Creek, to discharge my sister-in-law at her home, I again located the object in the south-western sky, & approximated its distance at twenty-five

miles, & it'll performing in typical manner,
or maneuvers.

Thereupon a friend of mine [redacted]
[redacted] appeared on the scene to place his car
in a nearby garage, he having been a contractor
in the same wing of the Fifth Air Force, and I
mentioned the object to him at that time, &
after placing his auto in the garage he observed
the same object & verified its movements. He then
went to his home nearby & obtained a pair of
binoculars, with which we again observed it, but
the most I could determine was that the color
red seemed to circumnavigate the object at
about forty-five degrees from the position
of the horizon, & it was moving away.

I then, returned home & notified Middletown
Air Depot of this strange sight, last seeing the
object at approximately 12³⁰ P.M. Eastern Daylight
Saving Time.

I FIRST SAW THE STRANGE OBJECT WHILE ATTENDING A MOTION PICTURE AT A DRIVE-IN THEATRE IN MAHONING VALLEY OUTSIDE OF LEHIGHTON, PA., AT APPROXIMATELY 11:30 P. EASTERN D.S.T.

WHILE OBSERVING ONE MILITARY AIRCRAFT & TWO COMMERCIAL AIRCRAFT PASS OVER THE AREA, THE BRILLIANCE OF THIS OBJECT, & ITS PECULIAR BEHAVIOR ATTRACTED MY ATTENTION.

IT WAS WHILE WATCHING THE FIRST OF TWO COMMERCIAL PLANES FLYING TOWARD THE STRANGE OBJECT THAT I FIRST SAW IT MOVE UP & DOWN IN SMALL CIRCLES LIKE A BALLOON CAUGHT IN AIR CURRENTS, AS IT ASCENDS. THEN, AS THE AIRCRAFT WAS GETTING CLOSER IT REMAINED MOTIONLESS IN THE SKY, BUT FLICKERED LIKE A STAR AFTER THE PLANE PASSED. IT WAS THEN, I ASKED MY WIFE, [REDACTED], & [REDACTED] IF THEY EVER SAW A BRIGHT YELLOW STAR BEFORE & POINTED IT OUT TO THEM, & ASKED THEM TO WATCH IT, & TELL ME IF THEY THOUGHT IT MIGHT BE MOVING IN ANY WAY. THEY CONFIRMED BOTH COLOR & MOVEMENT, & THE OBJECT BEHAVED IN THE SAME MANNER AT THE APPROACH OF THE NEXT PLANE, & SEEMED (SO I OBSERVED) TO BE HIGHER THAN THE ALTITUDE OF THE SECOND PLANE.

WE LEFT THE DRIVE-IN & MOTORED TO EAST MAJCH CHUNK, PA., & OBSERVED THE OBJECT WHILE DRIVING INTO MAJCH CHUNK, PA. ENROUTE TO EAST MAJCH CHUNK, PA.

STOPPING IN EAST MAJCH CHUNK TO DISCHARGE MISS [REDACTED]

+ MR. [REDACTED], ON A RATHER DARK STREET, AT MISS [REDACTED] RESIDENCE, I SUGGESTED WE LOOK TO SEE IF THE STRANGE OBJECT WAS STILL VISIBLE, WHICH WE DID. THE OBJECT WAS STILL THERE BEHAVING IN THE SAME MANNER, THIS BEING AROUND 1 AM EASTERN DAYLIGHT SAVING TIME.

AROUND THE SAME TIME, [REDACTED], A FRIEND, + ALSO A MEMBER OF THE SAME CIRCLE WITH ME, IN WARDEN ST. HE PULLED UP TO PUT HIS CAR AWAY. I TOLD HIM TO PUT IT IN HIS GARAGE, TURNING HIS LIGHTS OUT, + COME BACK TO US TILL, I SHOW HIM SOMETHING. UPON PLACING HIS CAR IN HIS GARAGE I ASKED HIM TO OBSERVE THIS OBJECT, + UPON DOING SO, I ASKED HIM IF HE THOUGHT IT MOVED. WHEREUPON HE HELD THE KEY TO HIS CAR BETWEEN HIS EYE + THE OBJECT, + AGREED IT WENT UP + DOWN IN SMALL CIRCLES. IT WAS THEN HE RUSHED TO HIS HOME A FEW DOORS AWAY + OBTAINED A PAIR OF BINOCULARS, WITH WHICH WE OBSERVED THE OBJECT, + AGREED IT WAS A BRIGHT YELLOW, CHANGING TO AN ORANGE COLOR, AT TIMES FLICKERING LIKE A STAR, + AT OTHER TIMES NOT FLICKERING LIKE A PLANET, BUT THAT A REDDISH COLOR SEEMED TO PASS THRU IT AT TIMES, AROUND A 45° ANGLE FROM THE EARTH, THAT MIGHT BE MISTAKEN BY THE NAKED EYE AS FLICKERING OR CHANGING COLOR. AT THAT TIME ALSO WE DECIDED IT WAS IN THE SOUTHWEST, CONSIDERING THE LIP OF THE CUP OF THE BIG DIPPER TO POINT NORTH.

I LEFT MR. [REDACTED] + WENT HOME, WITH THE INTENTION OF REPORTING THIS STRANGE OBJECT, AROUND 1³⁰ AM E.D.S.T., + CALLED MIDDLETOWN AIR DEPOT, REPORTING WHAT I SAW.

I MIGHT ADD THE OBJECT MIGHT HAVE BEEN A LITTLE LARGER THAN A PEA, BUT NOT AS LARGE AS A BASEBALL, + I WOULD JUDGE IT TO BE AROUND 20° OFF THE HORIZON, + WHILE I WATCHED THE OBJECT DID NOT DISAPPEAR BUT SEEMED TO BE GRADUALLY MOVING AWAY.

The object was called to my attention by Mr. [REDACTED] as I was putting my car in the garage. It was located in the SW near Mt. Pisgah and was an orange red in color. Its movement was erratic by confined to a small area. I am certain of its moving as I checked its position in relation to stationary objects. I viewed it with the naked eye and with binoculars.

I pointed it out to my father and sister on reaching home about 150 feet from where I first sighted it. During a telephone call to [REDACTED] about a half hour after leaving him the object moved some distance east of its original location and at this point began to change color from a bright red to a bright green, blinking constantly. [REDACTED] informed me he intended to notify the military authorities. I decided to call the nearest air base myself. After making the call my father pointed out the object had moved westerly and was now on the other side of Mt. Pisgah. All three of us viewed the object from my bedroom window and in checking our observations agreed that it was changing ~~xxxxxx~~ colors. No stars or ~~planets~~ planets visible were behaving in a like manner but that it was impossible to estimate size, shape or distance of the object. I viewed the object from about 1:50 a.m. to 2:32 a.m. during which time it gradually moved west and sank toward the horizon growing gradually smaller until lost from view.

The object was very easy to find in the sky even after moving to other positions to study it.
