Officers [redacted] & [redacted] were talking with me in front of our school bldg. at about the same time both shouted "What the hell is that?" They were facing west, I was facing east. I turned and seen a circular shadow sailing through the air not far above our buildings (3 stories) we ran to the corner of the school bldg. and watched the object until it got over the Kitchen bldg. (located directly in the rear of school bldg. about 60 feet. Then it seemed to pick up great speed and go straight up in the air, The night was dark but the object seemed darker. It made no noise, to me the night seemed to get quieter as I watched the object.

Air Force Intelligence;

Dear Sirs:

I want to report a strange object I saw at 11:00 p.m. on the night of July 23-52. Also I have a rough sketch of the object and will enclose with this letter. Below is how I saw it.

After listening to the Democratic Conv. at 11:00 p.m. of 7-23-52 I went outside about the sky, for I had read in the past week of Flying Saucers reportedly seen over Louisville, and after that I begin looking for them, for I had previously saw them in 1948 & 1949. I live in Russel Co. which is located in the S. Eastern part of Ky. At time I saw object it was S. West of me, at a range I would say of from 50 miles to 150 miles, and at a height of around 5,000 ft. Its movement was West North West while I viewed it, It moved in a bouncing line to the North for what I thought to be 5 to 10 miles, then it seemed to make a xxx slight swinging motion, and then it begin a dive toward the earth for what seemed to be 500 ft. and it looked as if it just stopped, but as I watched on it begin to fade into the distance.

There was no sound, and the distance I was from it, It looked about 2 to 3 ft. across it.

What I have said above and the sketch I have submitted resembles what I saw. I am a business man here in

Russel Springs, and I have read quite a lot about Flying Saucers, and so I felt it my duty to report this

Sincerely,
