AIR INTELLIGENCE INFORMATION REPORT

SUBJECT Unidentified Flying Objects (Short Title: FLYOBRPT)

AREA REPORTED ON Central California

FROM (Agency) Dir. of Intel. 28 AD, Hamilton AFB, Calif.

DATE OF REPORT 6 August 1952

DATE OF INFORMATION 3 August 1952

EVALUATION C-4

PREPARED BY (Officer) 2d. Lt. James W. Westbrook, Ass. Dir. of Intel.

SOURCE Ground Observer

REFERENCE (Control number, directory, previous report, etc., as applicable) TWX 28th CID 265 FLYOBRPT, 4 August 1952

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)

An unidentified object was observed visually at 0130 Pacific Daylight Time, 3 August 1952 for a period of 1½ minutes. It was described as large in shape and red in color. The object appeared to be hanging in the air. The object looked like a flare. No audible sounds were reported. Altitude was estimated between 3,000 - 4,000 feet. Speed was estimated as slow. The observers lost sight of the object very suddenly.

The observers were located at a G.O.C. Post in the Western States Life Building, Sacramento, California. The object appeared to be approximately 4 miles east of Sacramento, moving towards the observer.

The observers were Mr. and Mrs. [redacted], [redacted] Street, Sacramento, California.

The weather officer reports the area as clear with winds at 180° at 10 knots at 10,000 feet; at 20,000 foot winds were 190° at 24 knots.

Meteorological activity, physical evidence of the sighting, identification action taken and aircraft in the area were reported as negative.

Comments of Preparing Officer:

1. Observers' description of the unidentified object covered by this report indicates the object was probably a flare.

15. Did the object give off a light? (Circle One): Yes No Don't know

15.1 IF you answered YES, what was the color of the light? RED

16. Tell in a few words the following things about the object?

16.1 Sound NO SOUND

16.2 Color CHANGED FROM FAINT RED TO BRILLIANT RED

17. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction they were traveling.

SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon when you first saw it. Place a "B" to show where it was when you last saw it.

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

29. Was anyone else with you at the time you saw the object?

(Circle One): Yes or No

29.1 IF you answered YES, did they see the object too?

(Circle One): Yes or No

29.2 Please list their names and addresses:

MRS. [REDACTED] — WIFE
[REDACTED]
SACTO - CALIF

30. Please add here any further comments which you believe are important.
Use additional sheets of the same size paper if necessary.

We served as aircraft spotters all during the last war and were called back when the post was reactivated this July.

We served at this same location for all those years so are fairly familiar with the surrounding terrain, which makes it easy to notice something unusual.

On this particular night we noticed a red light high on the mountain side. Like it might have just come over the summit of the Sierra. It first looked more like a red flare of a plane in distress. As you already know we are supposed to report any unusual lights, flares etc.

We decided to wait until it went down & report it as such. Instead of going down it kept coming closer all the time. So then we decided to wait until it went down & report it as such.

25. Draw a picture that will show the shape of the object. Label and include in your sketch any details of the object that you saw, and place an arrow beside the drawing to show the direction the object was moving.

SECTION E

26. Was this the first time that you have seen an object like this?
(Circle One): Yes No

26.1 If you answered NO, then when, where, and under what conditions did you see other ones? _____

27. In your opinion what do you think the object was and what might have caused it?

WHEN WE FIRST SAW IT WE THOUGHT IT MIGHT BE A PLANE IN DISTRESS UP IN THE SKY AND THAT THEY DROPPED A FLARE BEFORE BAILING OUT. IT LOOKED SMALL FROM THAT DIST. BUT IT DID NOT GO DOWN LIKE A FLARE. INSTEAD IT KEPT COMING TOWARDS US AND GETTING LARGER AND LARGER AND THEN DISAPPEARED.

28. Give the following information about yourself:

was & then turn it in after we had heard it & had a better look at it. The closer it got the larger it got & changed from the dull red color at first to a brilliant, very brilliant red ball of fire. In between the dull red & the brilliant red at the finish, it sort of changed to dull to bright orange color. As we were waiting for it to come over the head, it got larger & more brilliant than anything I had ever seen, then as quick as a flash it disappeared & was never seen again, nor did it ever come over the post so we couldn't ~~hear~~ hear it.

On that same night we also noticed brilliant white lights traveling in a north-south direction. They were traveling also at high speed but were much lower. We did not report them as we thought they were jets taking off & landing at McClellan Field which is to the north-east of the post about 8 miles.

The next day we read in the paper where spotters up & down the valley had spotted white lights in the sky at high speed. Whether it tops in ~~with~~ with what we saw that night I don't know but thought we had better let you know anyway.

I hope this questionnaire helps in some way your investigation.
