STATEMENT OF OBSERVER

I, William F. Van Steenburgh, 1st Lieutenant USAF AO 2101826, 146th Fighter-Bomber Group, make the following statement concerning a certain unidentified object observed by me on 11 August 1952:

My observation took place at 1045 hours PST on the date indicated. At the time I was driving southeast on Main Street on George Air Force Base.

The bright object appeared almost directly in my line of travel at about 20,000 feet, and seemingly well away and over the range of mountains to the south and southeast of the station. It did not seem to have any noticeable motion.

I had intentions of going through the main gate and parking out of traffic where I could better observe the object with field glasses. Before I could get to the gate, the object had disappeared.

The object was visible to me for 3 or 4 minutes. It is possible that the object was round but the brightness could have given it that illusion.

SUMMARY: (Enter concise summary of report. Give significance in final one sentence paragraph. List inclosures at bottom left. Begin text of report on AF Form 112-Part II.)

Reference Air Force Letter 200-5, Subject: "(Unclassified) Unidentified Flying Objects Reporting (Short Title: FLYOBRPT)", dated 29 April 1952, Department of the Air Force, Washington, D.C.

a. The following information is submitted:

- (1) Sighted bright and shiny object, round, larger than large airplane. No exhaust, vapor trail or means of propulsion observed. Was hovering or in slight climb away from observer. No maneuvers.
- (2) Time of sighting 0801 PST 11 August 1952. Observed for approximately 1 minute.
- (3) Visual observation from F-51, altitude 6,000 ft., speed approximately 215. Observer was number 2 man in flight formation. Observer lost sight of object during turn in formation.
- (4) Location of observer was 34° 50' N, 117° 20' W. Object was approximately 45° at 15,000 to 20,000 feet at about 10 miles distance.
- (5) Observer was Amos F. Riha, Colonel, Commanding Officer 146th Fighter-Bomber Group, George Air Force Base, California. Colonel Riha is experienced, rated pilot. Considered very reliable.
- (6) Weather CAVU. Winds at 6,000 feet, 70° at 15 knots.
- (7) None
- (8) None
- (9) Colonel Riha led flight of F-51s to the area where object was last seen. Climbed to 14,000 ft. Nothing more observed.
- (10) Several flights of F-51s in area.

13 August 1952

STATEMENT OF OBSERVER

I, Amos F. Rife, Colonel USAF 4593A, 146th Fighter-Bomber Group, make the following statement concerning a certain unidentified object observed by me on 11 August 1952:

I sighted the object while flying as number 2 man in a formation of F-51s. The time was 0801 hours PST on the date indicated.

The object was bright and shiny and appeared to be hovering or in a slight climb away from me. It was about 10 miles away at about 15 to 20,000 feet in altitude.

I observed it for about a minute until I lost sight of it while making a turn in formation. I led the formation to where I had last seen the object but did not see it again.
