STATEMENT

Personally appeared before me, the undersigned, authorized to administer oaths in cases of this nature, Mr. [REDACTED] Biloxi, Mississippi, and upon being duly sworn according to law, made the following voluntarily sworn statement:

"At approximately four-fifteen (0415), 26 August 1952, I, [REDACTED], sighted an unidentified flying object in the sky East Southeast of my home at [REDACTED], Biloxi, Mississippi. The object appeared to be round and flat in shape and reddish-orange, comparable to the color of a burning patch seen from a distance, in color. I could not accurately determine the size of the object but a rough estimate would be somewhere around nine (9) feet by fifteen (15) feet.

"The object was following an East Southeast course and would veer from its course to the right, come back on course, and then veer to the left. The object appeared to be at a great distance from me and traveling at a fairly high rate of speed. I observed two (2) trails, similar to the trails of jets seen at night, coming from each end of the object, uniting toward the rear of the object. I could hear no sounds coming from the object and noticed no aerodynamic features.

"From the time I first saw the object until sunrise, I took twenty-three (23) pictures of the object. Upon development of the film, however, all frames were underexposed."

1. At approximately 2000, 25 August 1952, Staff Sergeant <u>1121121</u> observed an unidentified flying object in the sky southeast of his present position at approximately 30°23'N/105°57'W. The object was reported as being round in shape with no clearly definable edges, and white in color. The size of the object was estimated by observer as being twice that of a full moon as seen from his current position; the distance from the observer to the object was estimated as being approximately two (2) miles. No characteristic features were observed. 2. The period of observation was estimated as being approximately forty-six (46) seconds. The object, hanging in the sky in a stationary position for approximately forty (40) seconds, veered off and disappeared from sight in an upward movement in an approximately six (6) seconds. No definite sound was distinguished by the observer; a trail comparable to that of a shooting star was observed as the object disappeared. APPROVED: <i>Eli S. Fisher Jr.</i> ELI S. FISHER, JR. EXCERPT

Information Pertinent to Object Sighted:

1. Shape

The shape of the object was reported as being round with no clearly definable edge.

2. Size:

Observer estimated the size of object as being twice that of a full moon as seen from an earth position.

3. Color:

The object was observed as being white.

4. Number:

One (1).

5. Formation:

Not applicable.

6. Aerodynamic features:

No aerodynamic features were observed by observer.

7. Trail or exhaust:

A definite trail, comparable to that of a shooting star was noted by observer. No smoke or other exhaust was observed.

8. Propulsion system:

None observed.

9. Speed:

No estimation of speed other than "a high rate of speed" was given by observer.

10. Sound:

Negative.

11. Maneuvers:

When first seen, the object was observed to be "hanging" in a stationary position. After a period of time, the object veered off and disappeared from sight in an upwards movement.

24. COMMENTS:			
Time element rule out balloon from Mobile or Tallahassee. Wind direction & velocity indicate remote possibility of balloon from Pensacola or Eglin, provided balloons for some reason remained below 8,000' for over three hours. Exhaust trail is unexplainable.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112- Part II.)

1. At approximately 1015Z, 26 August 1952, Mr. [REDACTED], sighted an unidentified flying object in the sky East Southeast of his approximate geographical position of 30°24'N/88°53'W. The object was reported as being round and flat in shape and reddish-orange in color. The size of the object was not accurately determined but observer estimated that it would have been approximately nine (9) feet by fifteen (15) feet. No estimate of speed or altitude were given. The observer noted two (2) trails, similar to those of jet engines. The trails were located on opposite ends of the object on the outer perimeter. The trails were seen to emit a short distance to the rear of the object.

2. The period of observation was estimated as being seventy-five (75) minutes, during which time, twenty-three photographs were taken of the object. Upon development, however, the film was discovered to have been underexposed.

EXTRACT

Information Pertinent to Object Sighted:

1. Shape:
The shape of the object was reported as being round and flat.
2. Size:
The observer estimated the size of the object as approximating nine (9) feet by fifteen (15) feet.
3. Color:
The color of the object was described by the observer as being reddish-orange, comparable to the color of a burning match as seen from a distance.
4. Number:
One (1).
5. Formation:
Not applicable.
6. Aerodynamic Features:
No aerodynamic features were observed by observer.
7. Trail or exhaust:
Two (2) trails "similar to the trails of jets seen at night" were observed. The trails were located on opposite ends of the object on the outer perimeter and were seen as emitting a short distance to the rear of the object.
8. Propulsion system:
None observed.
9. Speed:
No estimation of speed other than "a fairly high rate of speed" was given by observer.
10. Sound:
Negative.
11. Maneuvers:
The object was following an East Southeast course and would veer from its course to the right, return to its course, and then veer

to the left.

12. Manner of disappearance:
The object remained in sight until sunrise (1130Z) when the object became non-distinguishable.

13. Time Sighted:
Approximately 1015Z, 26 August 1952. The length of time object was observed approximated seventy-five (75) minutes.

14. Manner of observation:
Visual observation from a surface location.

15. Location of observer and object, respectively:
Observer:
Location: Approximately 30°24'N/88°53'W.
Object:
Distance: No estimation of distance other than "great distance" was advanced by the observer.
Direction: East Southeast from observer's ground position.
Altitude: No estimation of altitude was made by observer.

16. Information on Observer:
Name: Mr. [REDACTED],
Mississippi
Occupation: Assistant Manager, Romy Theater, Biloxi, Mississippi
Estimate of reliability: Observer appeared to be serious, conscientious, helpful, and aware of the significance of his statements.
Information on Witness:
Name: Mrs. [REDACTED], Biloxi,
Mississippi
Occupation: Housewife
Estimate of reliability: Not determined.

17. Weather and winds aloft conditions:
See Inclosure 1 hereto.
