Mr. [REDACTED]
San Antonio, Texas

Dear Mr. [REDACTED]

Your recent report of unidentified aerial phenomena has been received by the Air Technical Intelligence Center. Inclosed is a questionnaire, which, when completed by you and returned in the inclosed, self-addressed envelope, will aid in standardizing the data and will provide a complete record of the occurrence.

Your interest in reporting the matter and your public spirited desire to be of service are greatly appreciated.

Sincerely yours,

Robert E. Kennedy

N. Y. Daily News. Sept. 14, 1952

The Thing, 10 Feet Tall, Terrifies Party of 7

Sutton, W. Va., Sept. 14 (U.P.).—A housewife swore today that she and six boys saw "an evil-smelling fire-breathing monster, 10 feet tall, with a bright green body and blood-red face" on a hillside near here.

Mrs. Kathleen May of Flatwood, scared and sick from her experience, said she and the boys, including a 17-year-old National Guardsman, made the find Friday night while investigating reports that a flying saucer had landed.

She said she and Gene Lemon, the guardsman, her sons, Eddie, 13, and Fred, 12, and Neil Nunley, 14, Ronnie Shaver, 10, and Tommy Hyer, also 10, all went to the hilltop on the C. B. Fisher farm near here Friday night.

Lemon, who was leading the party, said he saw something move in a tree, and when he shone a flashlight on it saw the 10-foot "thing" with the flushed face and

green body that "seemed to glow."

Mrs. May said Lemon screamed in terror and fell backward as the monster duckwalked toward them, and the whole party turned and ran. She said the monster exuded an overpowering odor that so sickened them they vomited for hours afterward.

[REDACTED], HQ Sq 106th TFWg this sta. Object seen at 0440 zebra 1 Sep 52 in north-easterly direction from March AFB Calif above Big Bear Mountain. Shape and size not discerned. Object fell in vertical direction exhibiting bright intense green light terminating in bright red splatter. No sound or maneuvers observed. Unestimated but brief number of seconds with naked eye. Altitude and distance unestimated. Witness rated very credible. Weather conditions clear and bright, no wind. Observer had previously noted three or four falling stars, but this object was different. Believe it crashed in mountain area. Possibility of fire works considered but not likely explanation. Similar report made by civilian [REDACTED] to Air Defense Filter Center Santa Ana Calif. E-17 No. 9374 in general but not proximate area at time of sighting. Observed nothing and dropped no flares. Air Sea Rescue service plane presently in area. Observations negative.

COUNTRY United States	REPORT NO.	(LEAVE BLANK)
AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT (UNCLASSIFIED) Unidentified Flying Objects Reporting (Short Title: FLTOBPT)		
AREA REPORTED ON Middletown Air Materiel Area	FROM (Agency) Intelligence Office Olmsted Air Force Base, Middletown, Pa.	
DATE OF REPORT 12 September 1952	DATE OF INFORMATION 11 September 1952	EVALUATION
PREPARED BY (Officer) John L. Spiesol, 2d Lt, USAF	SOURCE Civilian Observer	
REFERENCES (Control number, directive, previous report, etc., as applicable) Air Force Letter No. 200-5, 29 Apr 52		
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)		

Mrs. [REDACTED], Shamokin, Pa., [REDACTED] reported seeing two unidentified flying objects at approximately 2000Z, one on 6 September, the other on 8 September 1952.

Mrs. [REDACTED] said the two objects appeared to be the same or at least very similar, and described them as cigar-shaped with an "orange glow at the base." The object on 6 September was observed for only a few seconds sometime between 2000 and 2100Z at a point East of her position. It was reported to have moved in a straight line toward the South and disappeared.

The second object sighted at 1950Z on 8 September was observed for two or three minutes. It also appeared in the East and moved toward the South, but reversed its course after traveling a "fairly short distance" and retraced the same path back toward the East where it "went up" and disappeared. Mrs. Lehman claimed the speed of the object was "very fast", but her description of the distance it traveled indicates either that its speed was slower than she thought or that the time of the observation was shorter than she believed.

The weather at the time of both observations was clear.

The observations were verified by Mrs. [REDACTED] grandmother who originally called Mrs. [REDACTED] attention to both objects.

Mrs. [REDACTED] inability to give this Office more precise descriptions makes it impossible to determine the exact nature of these objects, but jet aircraft and astronomical phenomena remain strong possibilities.

NO CARD

Brantwood, Wis.
April 6, 1953

Washington, D. C.

Dear Sir:

I am writing to you tell what I saw last Fall about 1st days of September one night when visiting to my friends when returning home. About 10:30 p.m. a flying object or they call a flying discs. This flying object came down within 50 feet from the car on the road, about 25 feet height of the ground. It had a light and it stood about 60 seconds in one place and it move away and it turns its light off when it took off, This object was big and round with a nikel plated rim around edge of the object. I should of wrote you this before but I never did get around to do, but as I writing you now, I came to think about it. If the Army wants more explaining about this object, I be willing to do so.

Yours truly,

Washington, DC

MAY 1 8 1953

Dear Mr. O'Konski:

Thank you for your personal expression of interest in behalf of Mr. Sylvester Angus, Brantwood, Wisconsin, concerning "Flying Saucers."

For Mr. [REDACTED] convenience, I am enclosing a report so that he will have the full picture of our activities in this matter to date.

As may be noted from this report, the Air Force has received a number of reports from credible observers which cannot be explained at this time. However, our investigations of unusual aerial phenomena have produced nothing which we believe cannot be explained and understood as more is known about occurrences in the upper atmosphere.

The Air Force appreciates Mr. [REDACTED] interest in reporting his observation. You will want to know that his report has been made a matter of record and is being evaluated by the Air Force. In the event additional information on this matter is required, an Air Force representative will communicate with Mr. Angus to obtain the desired information.

Your personal interest is appreciated.

Dear Mr. [REDACTED]

971923
Your letter to Representative Alvin L. O'Konski dated 6 April 1953 has been referred to this Center. The Air Technical Intelligence Center would appreciate your filling out the inclosed questionnaire so that Project Blue Book will have more detailed information pertaining to the unidentified object that you observed in September 1952. Also, we are sending you a press release that will give you considerable information regarding "Flying Saucers".

Your interest in reporting this matter and your public spirited desire to be of service are greatly appreciated by the Air Force.

Sincerely,

LUMINOUS OBJECT SEEN OVER MALLORCA -- Tangier, Espana, 4 Sep 52

REFER TO CASE; 16 JUL 52, RABAT, FR. MOC.

7

On 3 September 1952, late at night, four professors of the Seraphic Seminary in Palma, Mallorca Island, noticed a luminous disk in the sky, traveling from west to east. They said that it could not have been a shooting star and that they were giving the report as objectively as possible in its barest details to provide another item for the study of the flying saucer phenomenon.

TWO METEOROLOGISTS SEE SAUCERS IN UNION OF SOUTH AFRICA -- Oran, L'Echo d'Oran,
8 Sep 52

REFER TO CASE-16 JUL 52- RABAT, FTR, 14072.

8. On the morning of 6 September 1952, a meteorologist was taking weather observations in Durban, Union of South Africa, when he saw a white object moving smoothly across his field of vision. After two more had appeared and passed in the same manner, he called a co-worker, with whom he observed three more saucers. He was able to follow one of them with a theodolite, which indicated that the object was at a high altitude. It had about the same shape as a weather balloon which was then at an altitude of only 3,500 meters. The spherical objects appeared to be at an altitude above 6,500 meters.

Both men have been meteorologists for some time (the second man is the director of the weather bureau at Natal). Their information was written into the records of the local meteorological office.
