3. SOURCE Civilian	10. CONCLUSION BIRDS
4. NUMBER OF OBJECTS 2 Objects	
5. LENGTH OF OBSERVATION 3 Seconds	
6. TYPE OF OBSERVATION Ground-Visual	11. BRIEF SUMMARY AND ANALYSIS 1 luminescent object pale gold. One sighting at 2:35, one at 4:07 AM. Sound like soft breeze. Second object was quite low, 1st far away. Objects came directly overhead. 11-15 objects in formation at 1st sighting. Flight North to South. Flight in straight line. Witness 62 year old lady. Reported the objects to UOC. Letter to USAF in 1965. No investigation. Sighting to old. Observation is characteristic of a flight of birds at night reflecting light from the ground. Duration, formation sound degrees of arc through which the objects passed all consistent with this analysis. Also directions to South tends to add to theory of migratory birds such as ducks or geese being in formation.

which I jotted down the day after I saw the "U.F.O's" then I put the book aside and forgot to send in my notes. Today something led me to that book and there were my notes so this time I am sending them in as others saw these objects in this area at the same time and they may have reported their sightings in Laguna Beach and Long Beach, Calif. Even my notes may be helpful.

At the time I saw these objects I was an observer for "G.O.C." for U.S.A.F.

Gentlemen:- I am not
sure that your office
is the proper place to
send my report but that
address is all I have. I
got appendix III from the
back of a book written
by Donald E. Keyhoe in 1953,
also got your address
from Appendix #1, same book.
When I finished reading this
book "Flying Saucers from
Outer Space", I filled in the
sheets in the back of
the book, from my notes

Dear Mrs. Axtater:

SEP - 7 1965

This is in reply to your report of an aerial object which you could not identify.

Due to the time lapse involved, it is not possible for us to investigate your report. We received no other reports from the California area for 23 September 1952.

The books by Donald Keyhoe are considered to be science fiction by the Air Force.

I am enclosing the report on Project Blue Book, the Air Force UFO project. I hope this information will be of interest to you.

Sincerely,

JOHN F. SPaulding

This office is in receipt of a letter from Mrs [redacted] reporting an unidentified flying object which she observed on 23 Sep 52. The following is a suggested reply:

a. Dear Mrs [redacted]

Your observation of an unidentified object in 1952 is too old to warrant an investigation by the Air Force. There were no reports from the California area for 23 Sep 52.

Since you reported this object to the Filter Center at Santa Anna, California, we can assume that an evaluation was made locally at that time and resolved as a known or conventional object/phenomena.

The books on flying saucers by Donald E Keyhoe are considered as science fiction by the Air Force.

The attached brochure explains the unidentified flying object program to date. The Air Force appreciates your interest in this program.
