AUG 28 1952

Mrs. [REDACTED]

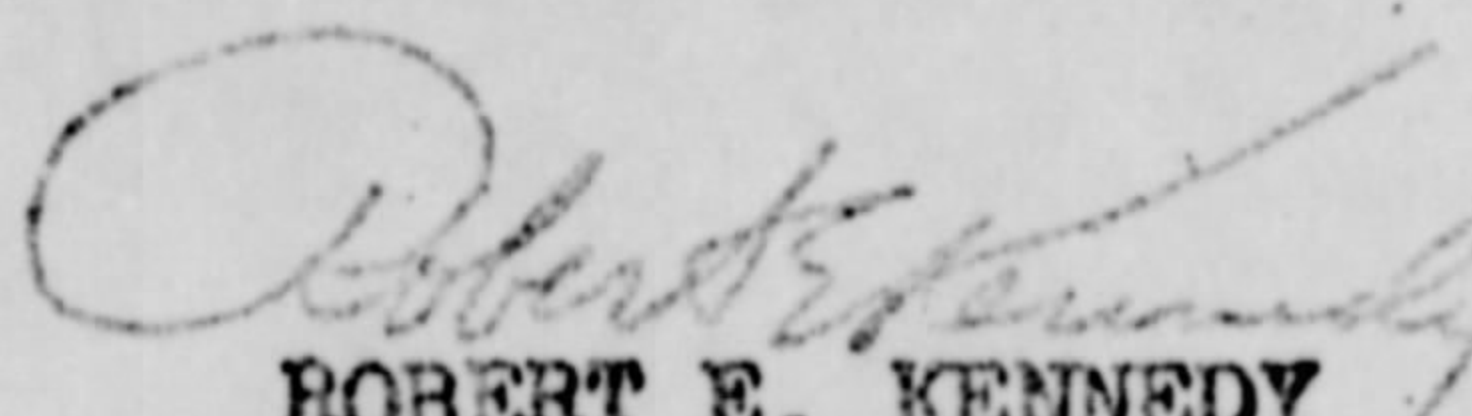

Chicago, Illinois

Dear Mrs. [REDACTED]

Your recent report of unidentified aerial phenomena has been received by the Air Technical Intelligence Center. Inclosed is a questionnaire, which, when completed by you and returned in the inclosed, self-addressed envelope, will aid in standardizing the data and will provide a complete record of the occurrence.

Your interest in reporting the matter and your public spirited desire to be of service are greatly appreciated.

Sincerely yours,

ROBERT E. KENNEDY
Major, USAF
Air Adjutant General

TENTATIVE
OBSERVERS QUESTIONNAIRE

SECTION A

1. When did you see the object:

1.1 Date: 17 July 1952
Day Month Year

1.2 Time of Day: 6:30 - 6:45 A.M. or (P.M.) (Circle One)
Hrs. Min.

1.3 Time Zone: (Circle One):

- a. Eastern
- b. Central
- c. Mountain

- d. Pacific
- e. Other 1 hr. ahead of Boston time

- (Circle One):
- a. Daylight Saving
 - b. Standard

1.4 Circle one of the following to indicate how certain you are of your answer to the above question 1.2:

- a. Certain
- b. Fairly certain
- c. Not very sure
- d. Just a guess

2. Where were you when you saw the object:

Postal Address City or Town State Canada
Country

Additional Remarks: On boat deck pulling away from dock at Yarmouth, Nova Scotia, Canada

3. Where were you located when you saw the object:

- (Circle One):
- a. Inside a building
 - b. In a car
 - c. Outdoors
 - d. In an airplane
 - e. At sea
 - f. Other on boat deck - forward

3.1 Were you:

- (Circle One):
- a. In the business section of a city?
 - b. In the residential section of a city?
 - c. In open countryside?
 - d. Flying near an airfield?
 - e. Flying over a city?
 - f. Flying over open country?
 - g. Other on water - leaving dock

4. How did you happen to notice the object?

Watching men pulling
in ropes from the dock - at forward end of
boat on shore side and glancing up saw discs

5. When did you report to some official that you had seen the object?

23 or 24
Day

July
Month

1952
Year

(Chicago F.B.I.)

SECTION B

6. What were you doing at the time you saw the object?

standing on deck
of ship watching ropes being hauled on large wheels
from dock.

6.1 What had you been doing for the 30 minutes before you saw the object?
Try to list the activity or activities and the approximate amount
of time spent on each.

Walking along main street of Yarmouth
and then making arrangements to
board boat with custom officers

7. Were you moving at any time while you saw the object? (Circle One):

Yes

or

No

boat was moving slowly

IF you answered YES, then complete the following questions:

7.1 What direction were you moving?

(Circle One):

a. North

e. South

b. Northeast

f. Southwest

c. East

g. West

d. Southeast

h. Northwest

7.2 How fast were you moving?

? miles per hour. slow

7.3 Did you stop at any time while you were looking at the object?

(Circle One): Yes

or

No

8. What direction were you looking when you first saw the object?

(Circle One):

a. North

e. South

b. Northeast

f. Southwest

c. East

g. West

d. Southeast

h. Northwest

8.1 What direction were you looking when the object disappeared?

- (Circle One):
- | | |
|--------------|--------------|
| a. North | e. South |
| b. Northeast | f. Southwest |
| c. East | g. West |
| d. Southeast | h. Northwest |

*Looking from
windows of boat
toward the front
do not know
exact direction but
do know
sun was
on starboard
side at
an angle*

8.2 Circle one of the following to indicate how certain you are of your answer to the above question and preceding question (8 and 8.1).

- | | |
|-------------------|------------------|
| a. Certain | c. Not very sure |
| b. Fairly certain | d. Just a guess |

9. Were you wearing eye glasses when you saw the object? (Circle One):

Yes or No

10. How was the object seen?

- (Circle One):
- | | |
|-------------------------|---|
| a. Through window glass | e. Through theodolite |
| b. Through windshield | f. Through sunglasses |
| c. Through binoculars | g. Through open space |
| d. Through telescope | h. Other <i>through open window on deck</i> |

11. What do you remember about the weather conditions at the time you saw the object?

11.1 CLOUDS (Circle One)

- a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds
e. Don't remember

11.3 WEATHER (Circle One)

- a. Dry
b. Fog, Mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

11.2 WIND (Circle One)

- a. No wind
b. Slight breeze
c. Strong wind
d. Don't remember

11.4 TEMPERATURE (Circle One)

- a. Cold
b. Cool
c. Warm
d. Hot
e. Don't remember

SECTION C

12. Estimate how long you saw the object?

*about a
minute*

Hours	Minutes	Seconds
-------	---------	---------

12.1 Circle one of the following to indicate how certain you are of your answer to Question 12:

- a. Certain
b. Fairly sure

- c. Not very sure
d. Just a guess

13. Did the object look: (Circle One) Solid or Transparent

14. Did the object at any time:

(Circle One for each question)

14.1	Change direction?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.2	Change speed?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.3	Change size?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.4	Change color?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.5	Break up into parts or explode?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.6	Give off smoke?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.7	Change brightness?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.8	Flicker, throb, or pulsate?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.9	Remain motionless?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>

15. Did the object give off a light? (Circle One): Yes No Don't know

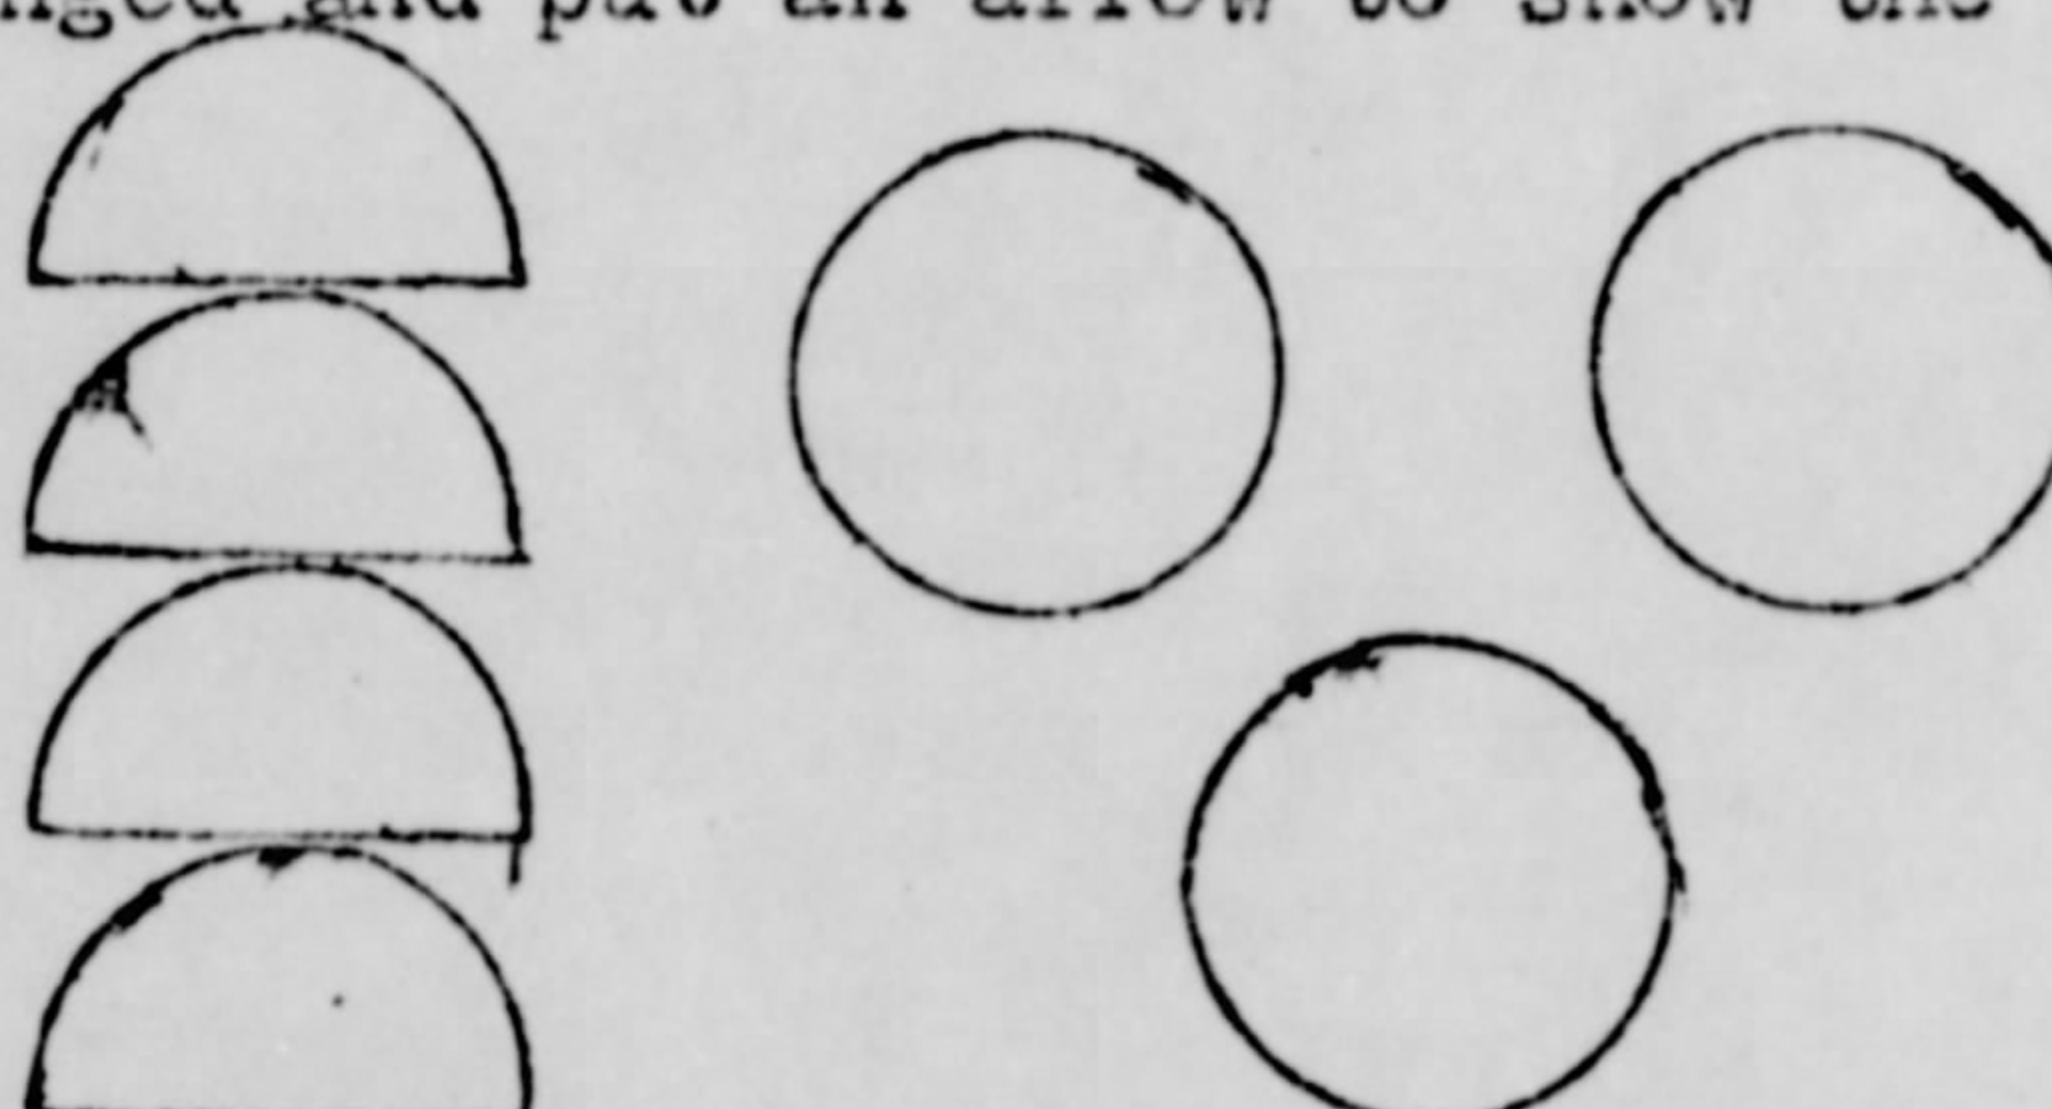

15.1 IF you answered YES, what was the color of the light? _____

16. Tell in a few words the following things about the object?

16.1 Sound None

16.2 Color Silver with sun shining on same

17. IF there was MORE THAN ONE object, then how many were there? 7
Draw a picture of how they were arranged and put an arrow to show the direction they were traveling.

18. Did the object at any time:

18.1 Move behind something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved behind.

18.2 Move in front of something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved in front of.

18.3 Blend with the background? (Circle One) Yes No Don't know

19. Which of the following objects is about the same actual size as the object you saw? (Circle One):

- | | |
|-------------------------|-------------------|
| a. Pea | f. Automobile |
| b. Baseball | g. Small airplane |
| c. Basketball | h. Large airplane |
| <u>d.</u> Bicycle wheel | i. Dirigible |
| e. Office desk | j. Other _____ |

19.1 Circle one of the following to indicate how certain you are of your answer to Question 19.

- | | |
|--------------------------|------------------|
| a. Certain | c. Not very sure |
| <u>b.</u> Fairly certain | d. Uncertain |

20. Try to tell the following things about the object:

20.1 How high above the earth was it? ? feet.

20.2 How far was it from you? ? feet or _____ miles.

20.3 How fast was it going? slowly miles per hour.

20.4 Circle one of the following to indicate how certain you are of your answer to the above questions:

- | | |
|-------------------|------------------|
| a. Certain | c. Not very sure |
| b. Fairly certain | d. Just a guess |

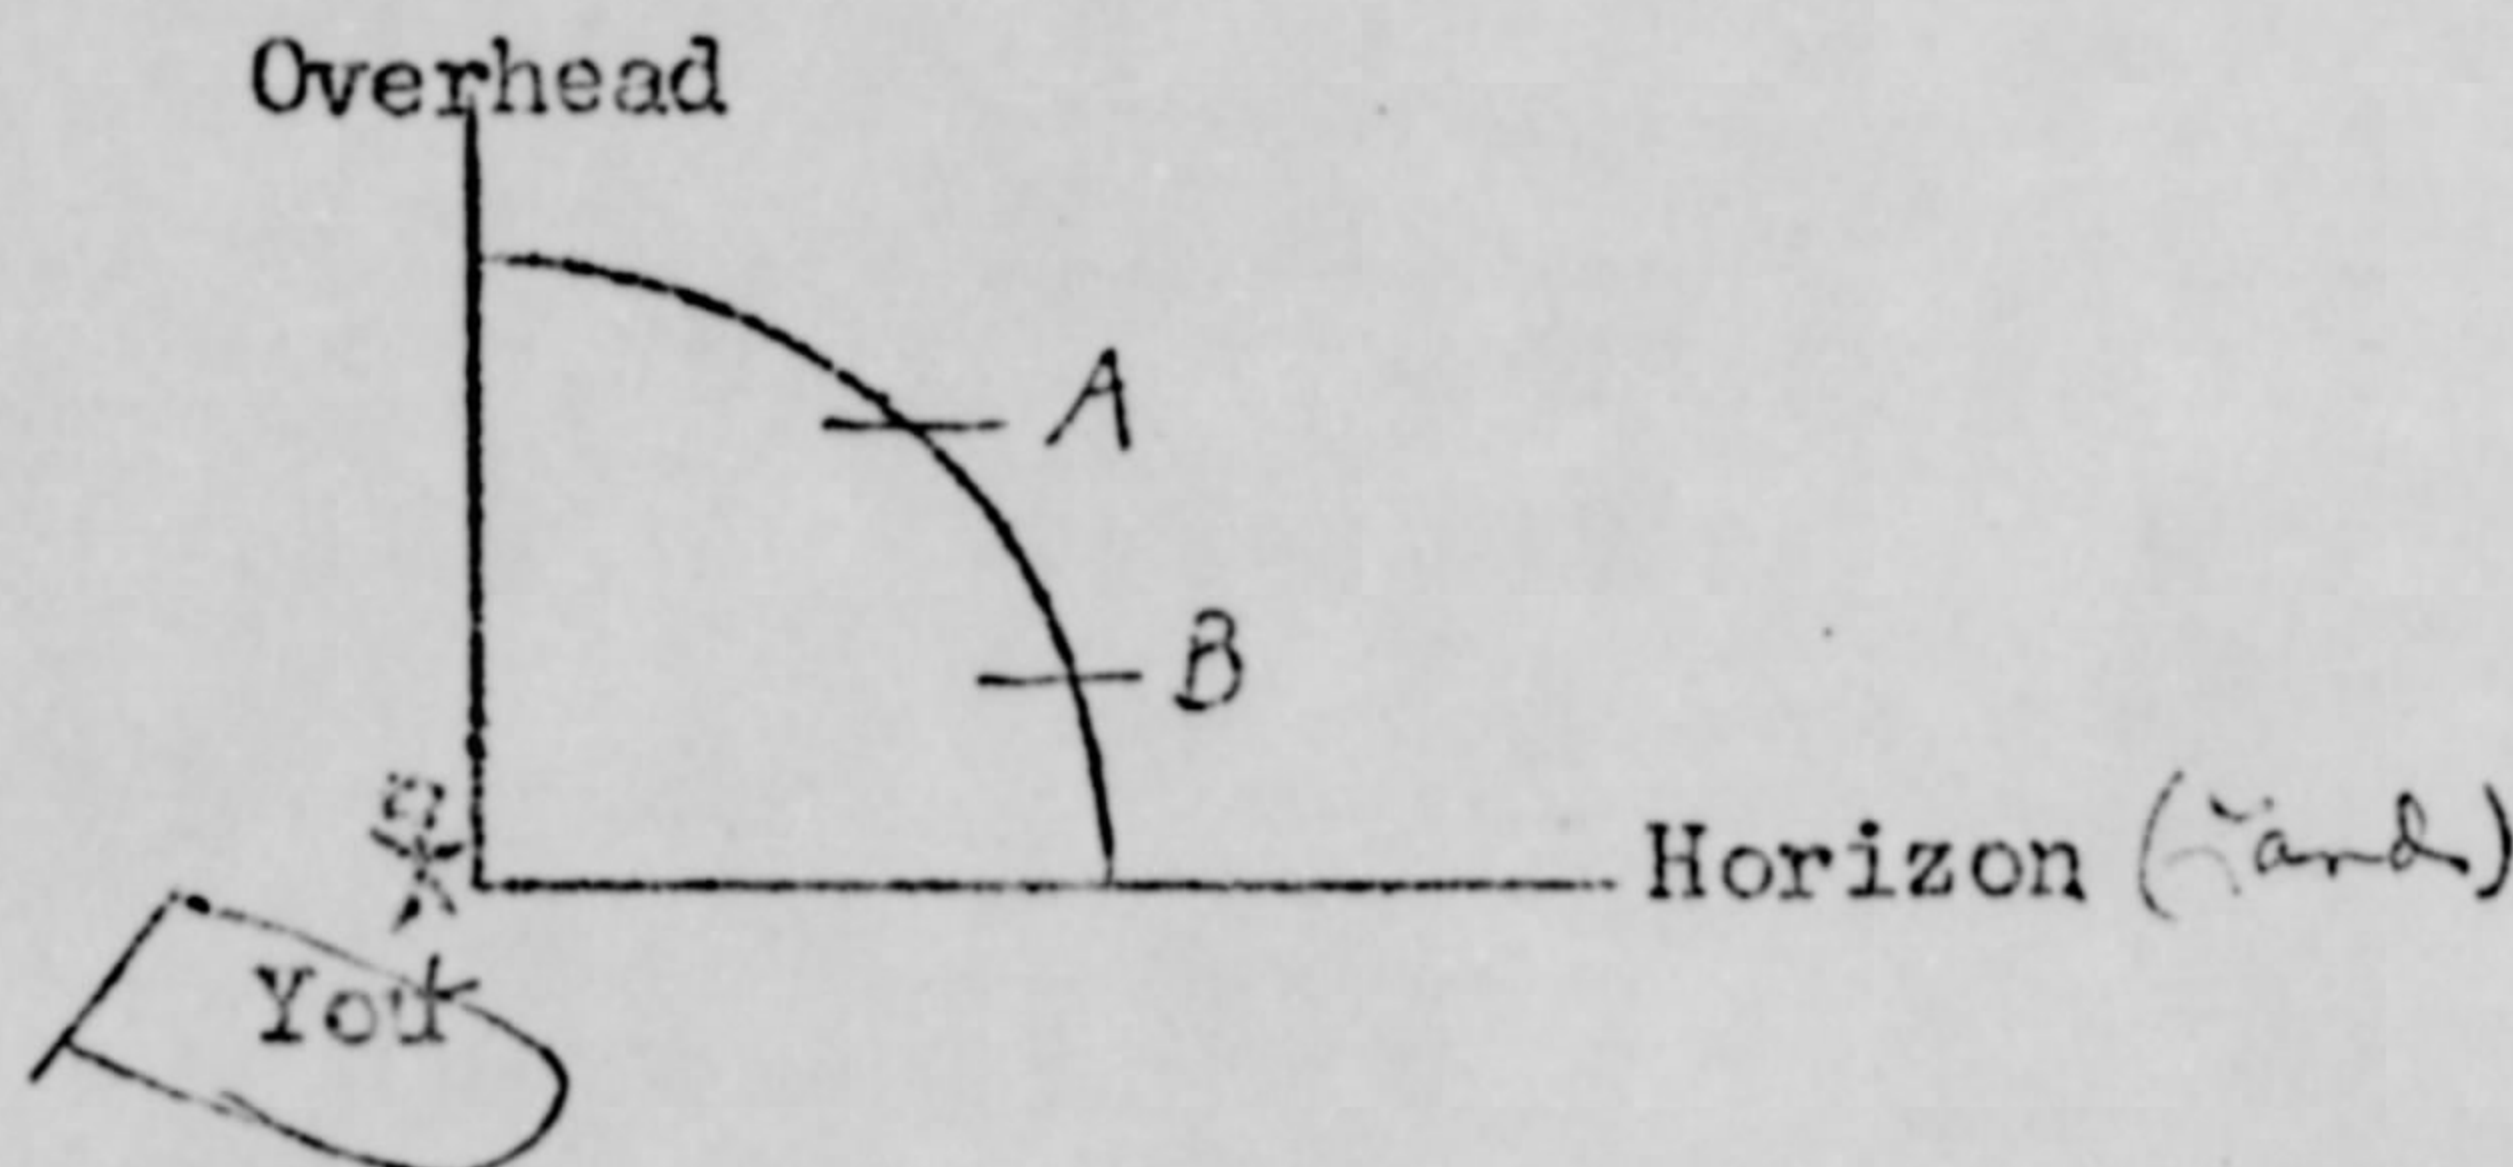

21. How did the object disappear from view?

(Circle One): a. Suddenly
b. Gradually

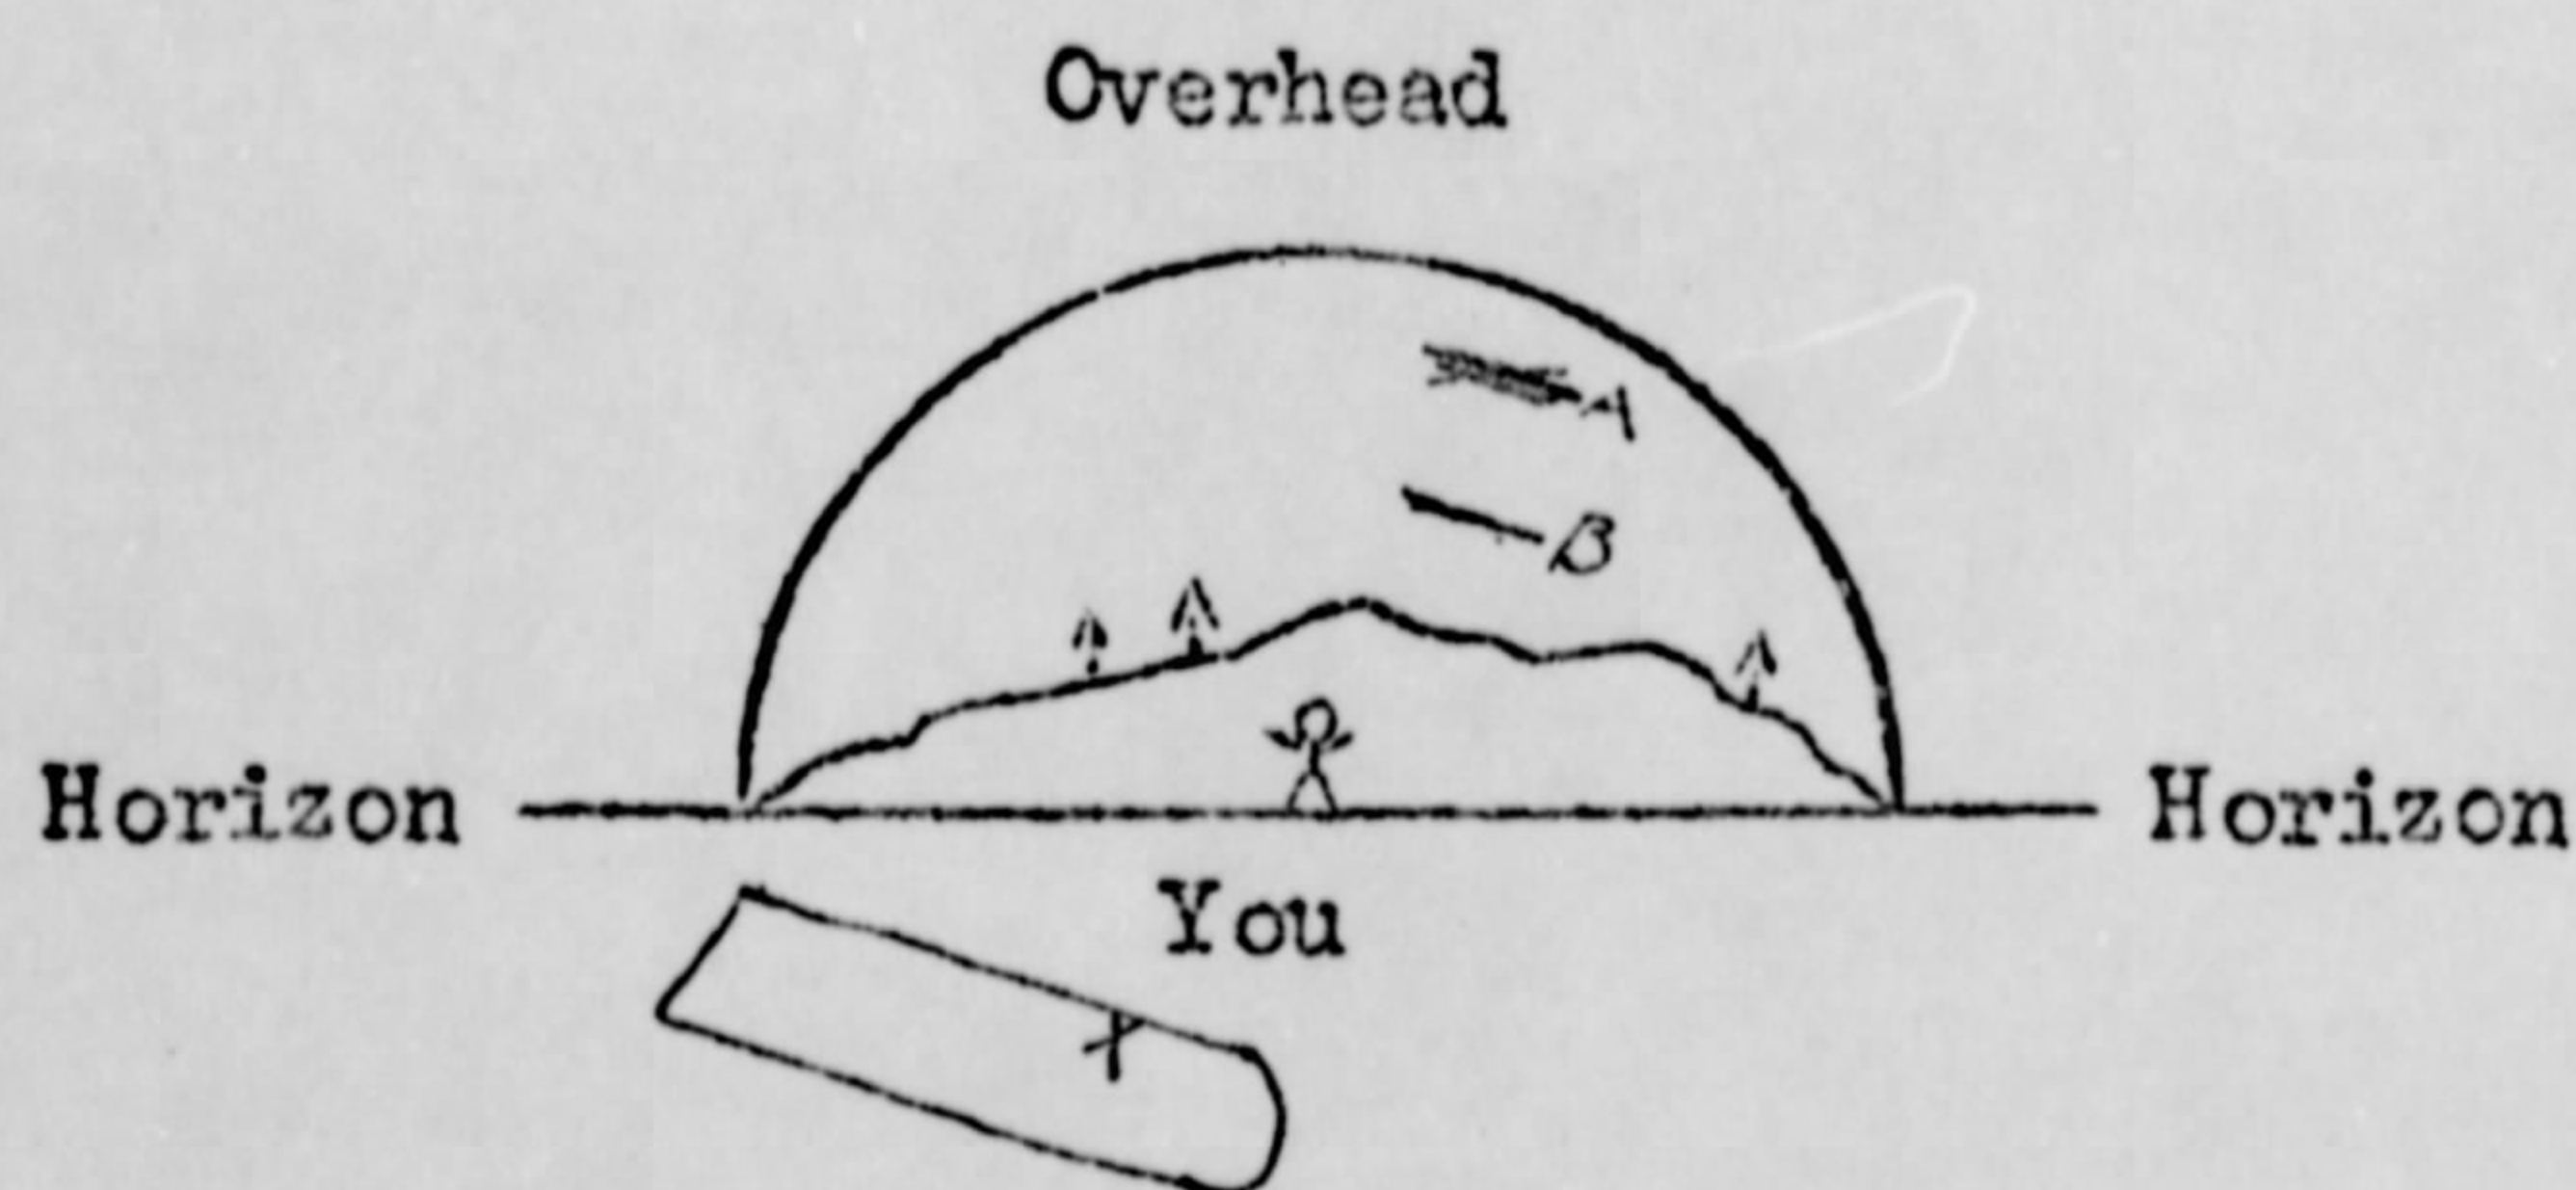

c. Other after object travelled a certain distance it disappeared
d. Don't remember

SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" to show where it was when you last saw it.

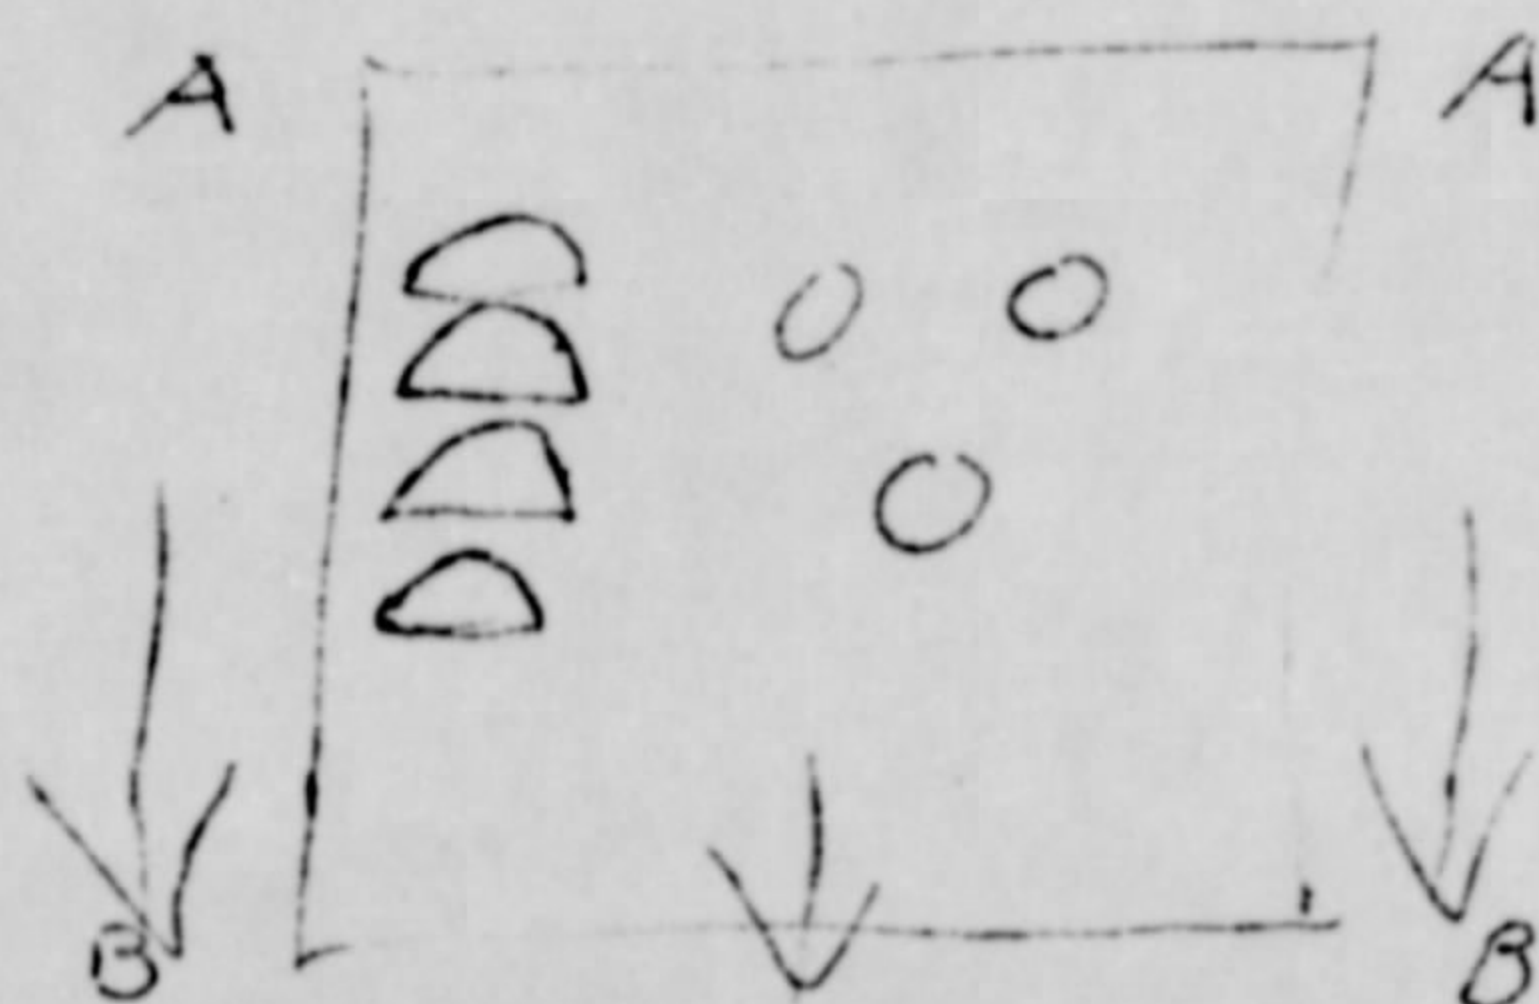

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

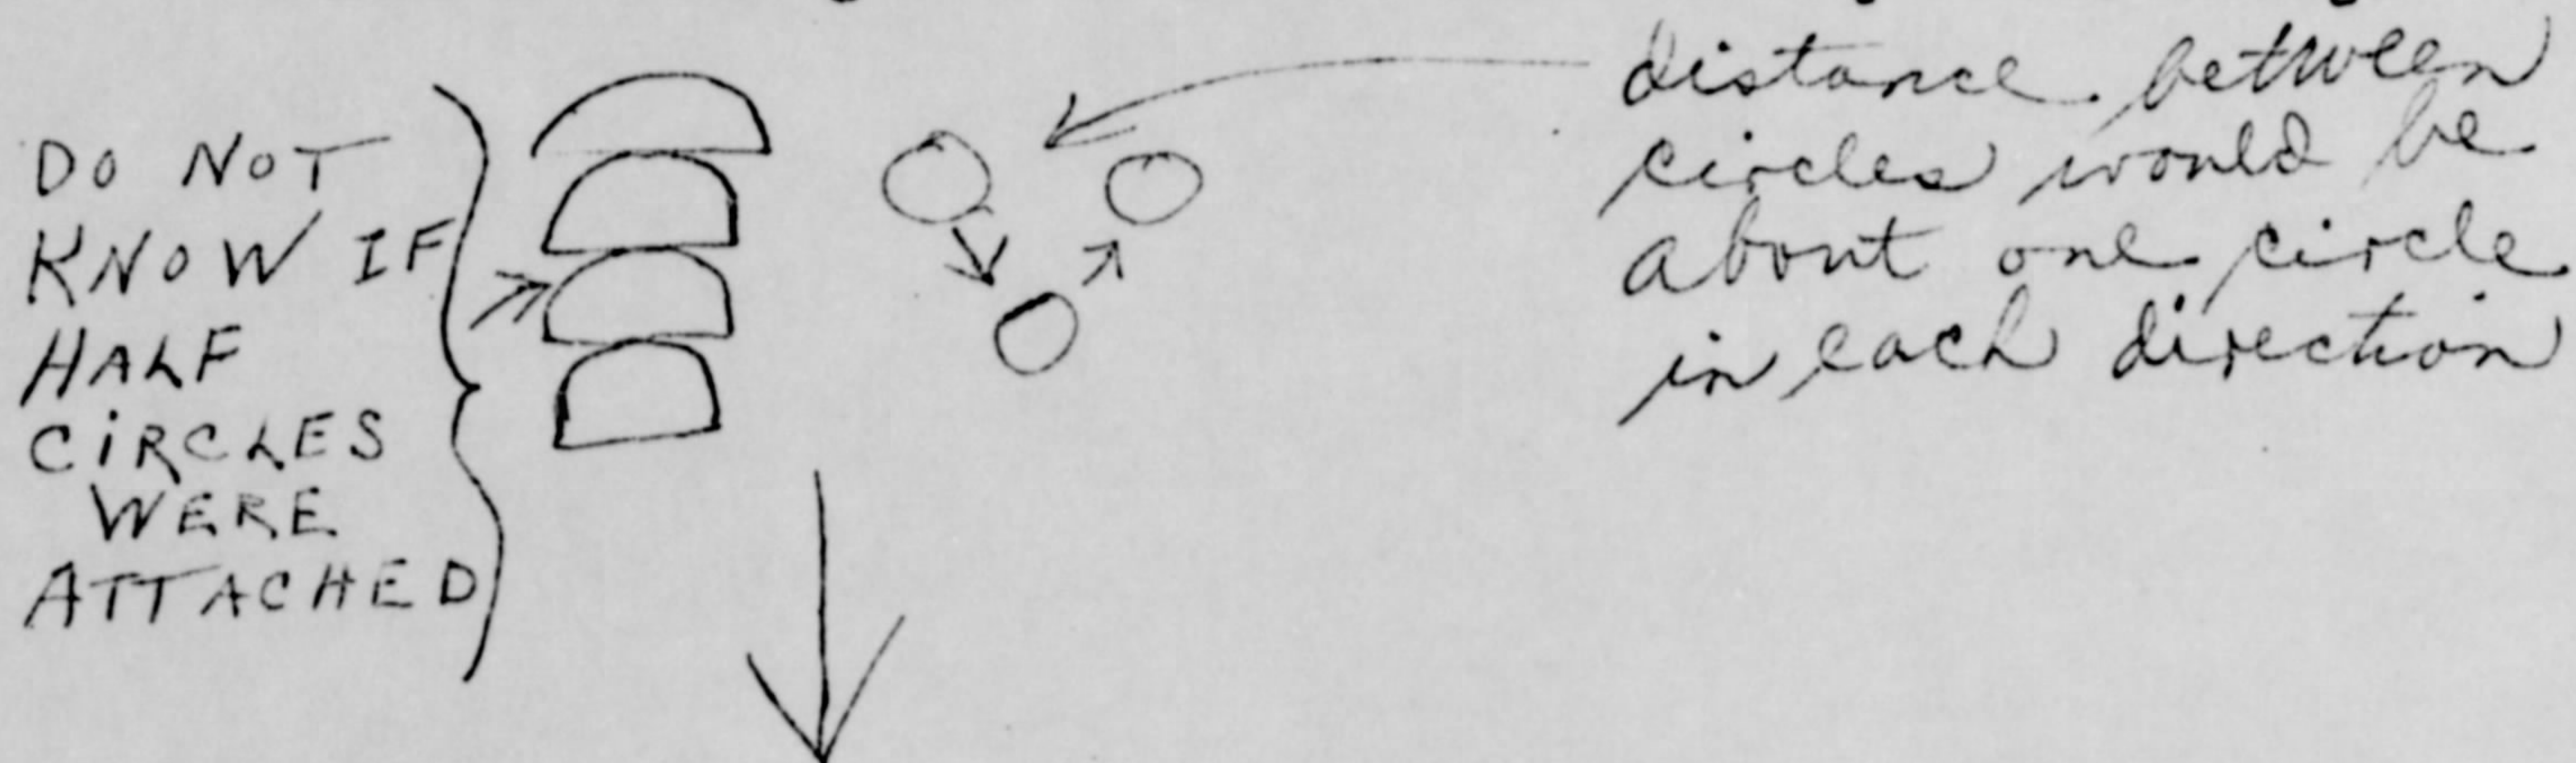

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

The object moved as one solid mass, downwards slowly, just as if projected by a camera and then disappeared as if the end of a picture on a screen.

25. Draw a picture that will show the shape of the object. Label and include in your sketch any details of the object that you saw and place an arrow beside the drawing to show the direction the object was moving.

SECTION E

26. Was this the first time that you have seen an object like this?

(Circle One): Yes or No

26.1 IF you answered NO, then when, where, and under what conditions did you see other ones? _____

27. In your opinion what do you think the object was and what might have caused it?

Believe it is being projected by high camera, as our aragon ballroom has clouds falling in ceiling, which move very much like the object moved in sky. At time I saw object move in sky, thought how much it was like the movement of the clouds in the ballroom in Chicago which, I understand is done by projector.

28. Give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]
 (Miss) Last Name First Name Middle Name
 ADDRESS [REDACTED] 18. Chicago 13 Illinois
 Street City Zone State
 TELEPHONE NUMBER [REDACTED]

What is your present job? Bookkeeper for Hosiery Co.

Age 45

Sex Female

29. Was anyone else with you at the time you saw the object?

(Circle One): Yes or No

29.1 IF you answered YES, did they see the object too?

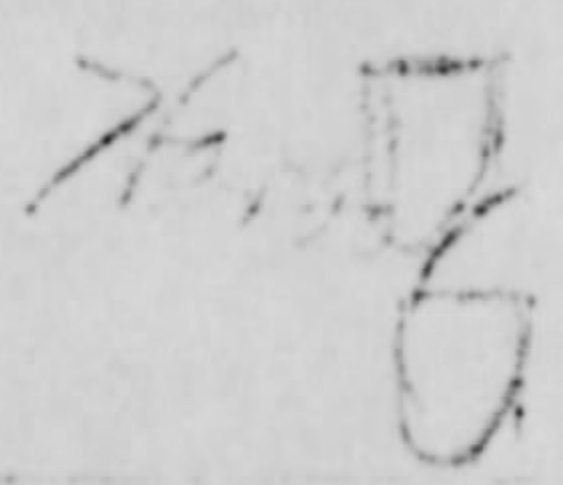

(Circle One): Yes or No

29.2 Please list their names and addresses:

30. Please add here any further comments which you believe are important.
Use additional sheets of the same size paper, if necessary.

There were at least six men, plus an officer, on forward deck. The men were all working with ropes which were being hauled up on the boat and wound on wheels. However, the officer, as well as the man at steering wheel, must have seen object as they would have to look in that direction in order to have boat going in proper direction. The boat was scheduled to leave Yarmouth dock at 6:30 P.M. so it was observed shortly after that time. I am sure the Steamship Co. (at Boston) could supply direction, time and how fast boat was moving away from dock, and also whether or not any of the men saw the object. Most of the people on the boat were to the rear, watching ropes being cast off, and that is the reason why no one was around the section where I was standing.

AIR INTELLIGENCE INFORMATION REPORT				
SUBJECT (UNCLASSIFIED) Unidentified Flying Objects Reporting (Short Title: FLYCORPT).				
AREA REPORTED ON Middletown Air Materiel Area		FROM (Agency) Intelligence Office Olmsted Air Force Base, Middletown, Pa.		
DATE OF REPORT 22 July 1952	DATE OF INFORMATION 19 July 1952	EVALUATION		
PREPARED BY (Officer) John L. Spiegel, 2d Lt, USAF		SOURCE Civilian Observer		
REFERENCES (Control number, directive, previous report, etc., as applicable) Air Force Letter No. 200-5, 29 Apr 52				
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)				
Harrisburg Pa. 19/0404Z Mrs. [REDACTED] Street, Oberlin Gardens, Pa., reported observing an unidentified flying object at 1104 EST, 19 July 1952. This is the third reported sighting by this observer. Air Intelligence Information Report, AF Form 112, dated 17 July 1952, includes the summary of the previous observations. Mrs. [REDACTED] was unable to give any additional information on the recent sighting other than the fact that the object appeared to be moving at a much slower rate than during previous observation of the 14th and 15th of July. Its general appearance and behavior were reported to be the same as on 15 July. Total length of this observation was approximately ten minutes. This observation was witnessed by several other people. Weather at the time of sighting was 7000 feet overcast and five-mile visibility. Although no estimate of altitude could be given by the observer, the 7000 feet overcast fixes the maximum altitude of the object. As indicated on previous reports the time of these sightings corresponds to that of a regularly scheduled airliner. There is more than a strong possibility that this object is in reality a New York-bound Martin 202 Aircraft departing from Harrisburg at 1104.

1. Attached hereto for your information and any action deemed appropriate are two copies of the report of investigation by Special Agent ADELBERT C. von MAUCHER, 17th OSI District, file 24-8-33, dated 22 July 1952, subject as above.

2. Investigation was initiated at the direction of the District Commander, 17th OSI District (IG), predicated upon information furnished by Mr. [REDACTED] who reported seeing an unidentified aerial object between 2155 and 2200 hours, 18 July 1952.

3. In an interview, Mr. [REDACTED] described the unidentified object, and stated that it was not a star or meteor.

4. No further investigative action is contemplated, and the files of the Office of Special Investigations are considered closed in instant case.

5. Attention is invited to par 7, AFR 205-1, which prohibits disclosure of classified information to unauthorized personnel.

UNCLASSIFIED

DETAILS:

1. This investigation opened at the direction of the District Commander, 17th District OSI, predicated upon the reported sighting of an unidentified aerial object by W. [REDACTED] Road, Placitas, New Mexico.

AT ALBUQUERQUE, NEW MEXICO

2. On 21 July 1952, Mr. [REDACTED], [REDACTED] a Road, Placitas, New Mexico, was interviewed in the Hilton Hotel, Albuquerque, New Mexico, and stated substantially as follows:

About 2155 hours, last Friday night, 18 July 1952, my daughter and I were lying in the front yard of my home at Placitas, New Mexico, observing the Constellation Corona Borealis. About in the center of this Constellation, there appeared a yellowish-orange glowing object which was moving at a tremendous rate of speed. From our place of observation Corona Borealis was almost directly overhead and this object moved directly to the East for about 15 or 20 seconds, made a 90° turn South for about 5 seconds, turned 90° West and remained on that course for 2 or 3 seconds, when it again turned 90° South and stayed on that course till out of sight. The object did not appear to flame out, nor did it make any sound that was audible to us. I have no idea as to its size or shape; however, it appeared more brilliant than a star and to be flying on the same level as the stars. Its altitude appeared to remain constant. My daughter and I had been out observing the stars for about one half ($\frac{1}{2}$) hour prior to sighting this object, and our eyes were accustomed to the dark. The entire period of our observation of this object was about one (1) minute. It was not a star or meteor, as we see falling stars and meteors almost every night there. I have not seen this object since, although I have been watching for a similar occurrence.

Mr. [REDACTED] advised that during the war he was a Navigation, Meteorology and Trigonometry Instructor for the Army Air Corps at Long Beach, California, and was familiar with the Constellations and their positions in the sky, and also the action of meteors, constellations and falling stars.

3. An Aeronautical Chart was furnished Mr. [REDACTED], which he used to locate his residence at Placitas, New Mexico. [REDACTED] made a mark at Longitude 106° 28' West; Latitude 35° 18' North; which point is approximately 5 miles due East of Bernalillo, New Mexico.

19 July 1952
SPECIAL INQUIRY

TO: Commanding Officer
Headquarters Command USAF
Bolling Air Force Base
Washington 25, D. C.
ATTN: Director of Intelligence

1. This is to confirm the telephone call made to the Director of Intelligence, Headquarters Command, USAF, by an agent of this office on 23 July 1952. In this telephone call, information was relayed which was received from Special Agent FRANCIS B. MCGIVERN of the Federal Bureau of Investigation.

2. According to Special Agent MCGIVERN, two (2) former Air Force military personnel, [REDACTED], Alexandria, Virginia, [REDACTED], and [REDACTED], Arlington, Virginia, were traveling on Highway #211 near Centerville, Virginia, early in the morning of 19 July 1952. While traveling, their automobile (which is owned by [REDACTED]) was struck by an object which apparently fell from the sky. This object left powder marks on the automobile and then fell to the road. [REDACTED] and [REDACTED] did not place any particular significance on this incident at the time and left the object on the side of the road where it fell. Upon arriving in Washington, they heard about the unconventional type of aircraft sighted in the Washington vicinity and wondered whether the object which hit their car had fallen from such aircraft. They thereupon referred this matter to the Federal Bureau of Investigation. They are keeping their automobile in such a location as that it can be readily accessible for examination.

3. This office is referring this matter to you for whatever action you might deem appropriate. The Office of Special Investigations is not taking any further action.

1. Mrs [REDACTED] reported that on the night of 27 July 1952, at 2012 HST, while sitting in a darkened room in her second story apartment she observed an unidentified object of aqua marine color. Object, when first sighted, was oblong in shape similar to a cigar. Immediately after sighting, the object changed to a round shape and then back to an oblong shape. At first sighting the oblong shape seemed to be wavering, similar to an air current disturbance from a radiator heating unit in a room. The object, in its oblong form, had a misty aqua marine halo around it but upon changing to a round form, the halo disappeared and the object became clearly defined. The halo around the object reappeared upon changing back to its oblong shape. Object in its round form was compared to the size of a child's Yo-Yo. No noise was heard at any time of the observation which was of 3 seconds duration. Source stated the object appeared to be lower than the airplanes she had noted flying over the coast line south of her apartment, and was flying over the city. She also stated that it was traveling at a much greater speed than the jet aircraft that she had seen flying over the island.

2. Following is the weather at time of observation: Wind, light and variable at all altitudes; Cloud coverage, 3/8 coverage at 3500 ft. and at 5500 ft.; Visibility, 20 miles.

COMMENT BY PREPARING OFFICER:

1. Source was questioned over the telephone the same evening of the sighting and was interrogated personally the next morning. She appeared to have a good education and was rational, composed, and lucid. She was born in Pennsylvania and had lived in different parts of the United States until coming to Hawaii in 1947. She stated that while living in Michigan she had observed numerous falling stars and northern lights and emphasized the fact that the object sighted was not similar to any of these.
