UNCLASSIFIED 12 Apr 11 1953

I. DESCRIPTION

At 1510 hours PST, ten round flat metallic colored objects changing formation traveled at an estimated high rate of speed on a heading of 110° at an estimated altitude of 7,500 ft. No trail, sound, or exhaust were noted. Objects passed under the right nacelle of the observers' C-47 type aircraft, and were observed by the co-pilot. He took control of the C-47, and turned to the right in a tight 300° turn for a better view of the objects. Objects were then picked up unassisted by two more members of the crew. The objects were observed in a right turn of greater radius than that of the C-47, and at a lower altitude. The objects were observed for approximately 120° of their turn, and disappeared on a heading of 300°. Observers were unable to estimate the speed of the objects because of the distance and the objects' large radius of turn.

II. DISCUSSION

No aircraft were observed in the area and the pilot reported no radio facilities at Sweetwater Airport. No report was made until landing at Stead AFB, Nevada. Weather at the time of sighting was slightly hazy, visibility 30 miles. Although the observers reported seeing no aircraft in the area, it is believed that the objects were aircraft (probably trainers) because of the color, maneuvers, and distance at which they were observed.

III. CONCLUSION

Possibly aircraft.

UNCLASSIFIED

Reurmag ID 2272 regarding visual sighting of ten (10) unidentified aerial objects by three (3) Air Force pilots on 12 Apr 53 at 1510 PST in the vicinity of Sweetwater, Nevada. Project Blue Book requests you submit an Air Force Form 112 as prescribed in Air Force Letter 200-5, with special attention to the following items: 1) Were there any aircraft in the area at the time of the sighting? 2) Did the winds aloft coincide with the movement of the objects? 3) Were there any unusual conditions or phenomena which could have caused such a sighting? 4) Did the sources check with the Sweetwater Airport for any evidence of phenomena in the air?

In reply cite Project Blue Book.

1. Crew of C-47 Aircraft #3183 on DVFR flight from Long Beach, California to Stead AFB, Reno, Nevada 12 April 1953 flying at 10,500 feet heading 300 degrees at 140 miles per hour, visually observed approximately ten (10) unidentified objects directly over Sweetwater Airport (39°31N-119°12W) heading approximately 110 degrees at about 7500 feet MSL (composite estimate). Time of sighting 1510 Pacific Time. Observers were Major Fred G. Padelford, 2nd Lt Frank E. White, and 2nd Lt John Gripe, all assigned to 8th Air Rescue Squadron, Stead Air Force Base, Reno, Nevada.

2. Objects passed under right nacelle of C-47 and were observed by Major Padelford. He took over control of C-47 and turned to right in tight 300 degrees turn to enable better observation of objects. Objects were then picked up unassisted by two other observers. Objects were observed to be making a right turn of considerably greater radius than that of the C-47 and were lower than when first observed. Objects were observed for approximately 120 degrees of their turn and disappeared on heading approximately 300 degrees.

3. Objects were round and flat, estimated size of a flying T-6 aircraft, metallic in color and in a loose, changing formation. No trail or exhaust was observed; no sound was heard. Observers were unable to estimate extremely high speed of objects because of distance and objects large radius of turn.

4. No aircraft were observed in the area and pilot reports no radio facilities at Sweetwater Airport. No report was made until landing at Stead AFB, Reno, Nevada.

5. Weather in the area was slightly hazy with scattered clouds and visibility 30 miles. Winds at 10,500 feet were WSW at 20 knots—turbulence mild.

COMMENTS:

1. Major Padelford is Flight CO of "A" Flight, 8th ARS and has 13 years' service.

2. It is the opinion of the crew that there were no unusual atmospheric conditions which could have caused such a sighting.

Dear Sir:

Your recent report of unidentified aerial phenomena has been received by the Air Technical Intelligence Center. Inclosed is a questionnaire, which, when completed by you and returned in the inclosed, self-addressed envelope, will aid in standardizing the data and will provide a complete record of the occurrence.

Your interest in reporting the matter and your public spirited desire to be of service are greatly appreciated.

Sincerely yours,

Barbara P. Hanawalt

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 APRIL 1953
Day Month Year

2. Time of day: 15 10
Hour Minutes

(Circle One): A.M. or P.M.

3. Time zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object? OVER SWEETWATER AIRPORT, NEVADA.

Nearest Postal Address

City or Town

State or Country

Additional remarks: IN A C-47 ENROUTE FROM LONG BEACH CALIF TO
STEAD AFB RENO, NEVADA.

5. Estimate how long you saw the object. _____
Hours Minutes Seconds

5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

6. What was the condition of the sky?

(Circle One): a. Bright daylight d. Just a trace of daylight
b. Dull daylight e. No trace of daylight
c. Bright twilight (SLIGHTLY HAZY) f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
b. In back of you + TO THE RIGHT e. Overhead
c. To your right f. Don't remember

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

N/A

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

GROUND CONSTITUTED THE
BACKGROUND.

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?:

(Circle One) a. A mile or more away (a distant car)?

b. Several blocks away?

c. A block away?

d. Several yards away?

e. Other _____

N/A.

11. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?

Yes

☒ No

Don't Know

b. Suddenly speed up and rush away at any time?

Yes

☒ No

Don't Know

c. Break up into parts or explode?

Yes

☒ No

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

SEE 17

OBJECTS WERE IN A ~~HA~~ DESCENDING TURN.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
15 TO 25 feet.

22. How large did the object or objects appear as compared with one of the following objects *held in the hand* and at about arm's length?

(Circle One):

a. Head of a pin

g. Silver dollar

b. Pea

h. Baseball

c. Dime

i. Grapefruit

d. Nickel

j. Basketball

e. Quarter

k. Other _____

f. Half dollar

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

a. Certain

c. Not very sure

b. Fairly certain

d. Uncertain

23. How did the object or objects disappear from view? FADED AWAY BY BLENDING
INTO THE BACKGROUND OF HILLY TERRAIN.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

METAL, 15 FEET DIAMETER, ELLIPTICAL,

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

LOOKING OUT THE RIGHT SIDE WINDOW OF THE COCKPIT OF
A C-47. OBJECTS FLASHED BY BELOW BETWEEN THE NOSE
SECTION AND RIGHT ENGINE NACELLE.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|---------------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. <u>Northwest</u> |

28.2 How fast were you moving? 140 miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|---------------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. <u>Northeast</u> | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|---------------------|--------------|--------------|---------------------|
| a. North | c. East | e. South | g. West |
| b. <u>Northeast</u> | d. Southeast | f. Southwest | h. <u>Northwest</u> |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North 30 degrees.
- b. From horizon 10-20 degrees. DOWN.

31.2 When it disappeared:

- a. From true North 30 degrees.
- b. From horizon 30-40 degrees. DOWN.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

N/A

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

N/A

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds, HIGH THIN
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

12 APRIL 1953
Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

2/LT [REDACTED], STEAD AFB, RENO, NEVADA.
2/LT [REDACTED], STEAD AFB, RENO, NEVADA.

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

_____.

38. In your opinion what do you think the object was and what might have caused it?

UNKNOWN.

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

500

KNOTS
m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

DISTANCE VARIED FROM
1 - 5 MILES

IF you answered YES, then how far away would you say it was?

feet.

CODE:

DATE 12 June 1953

Flying a C-47 at 10,500 feet MSL, I was seated in the right seat looking out the side window. Something flashed by between the nose section and right engine below the ship. I took over control and made a steep turn to the right. I picked up the objects after approximately 90° of turn. They were in a large sweeping right turn and descending. There were approximately 10 of the objects and were in the air in a loose, changing formation.

They appeared roundish in shape and dark in color. As the distance became greater between us and the objects, they turned darker. As we ^{continued} turning to the right, the objects were between us and the sun and the sun's rays were reflected off for a few seconds.

The estimate of the speed of the objects was arrived at by our ^{radius & speed} ~~speed~~ in a steep turn at 140 miles per hour and the radius of turn of the objects.

The two other observers were Lt. John Cripe, pilot, flying in the left seat and Lt. Frank White, navigator, standing between Lt. Cripe & myself. They picked up the objects without my pointing them out.

At all times during the observation, the objects were at a less altitude than we were and were between us and the ground.

As we completed our turn of approximately 360° and resumed our course, the objects blended into the background of hilly country and disappeared from sight. on approximately the same heading as we were flying.

THE OHIO STATE UNIVERSITY

HOWARD L. BEVIS, President

COLUMBUS 10

EMERSON McMILLIN OBSERVATORY

19 May 53

1st Lt. Robert Olsson
Wright-Patterson AFB.

Dear Lt. Olsson;

This is a belated report on the last batch which I received at the end of April.

Just as soon as our plans for employing Miss [redacted] officially go through, I shall be able to send you a sheet with comments on each individual case, so that you will have my comments on each folder. The letter method ~~is~~ has obvious drawbacks. But until that time comes and she can handle my typing and completion of forms, I had better stick to this letter method.

In this latest batch we have only 4 really interesting cases. I might mention a 5th, 28 March 53, Scott AFB, which is the 1st report I've seen of an honest to goodness mirage. 6 Cases have only one observer and I'm following my usual rule of discounting those.

8 April was a meteor.

The Great Falls 3 April case was Venus if reported times was in error.

28 March Albroom AFB was probably Venus.

31 March Honshu, and 30 March Lyle, Wash., are puzzling but could possibly have been balloons.

~~The 8 April~~ Greenland case was an obvious meteor.

This brings us to the interesting cases:

25 March San Antonio could hardly have been a mirage and I'm surprised there was no radar pickup. Was there any aircraft like helicopters that might explain this. Anything more come in on this one? Don't think this is good enough for a pinch-bottle but it should be listed as Nocturnal meandering light.

29 March Spooner, Wisc: Duration times needs checking here. Hard to believe that object could have done all that in 15 seconds. An interesting case and one of the regular questionnaires should be sent to Mr. Gillette.

Next is the 12 April Stead AFB. I think this is the most interesting case of the batch, and I hope you receive more dope on it. Questionnaires should be sent. I'd like to see Menzel explain this one! Is there any possibility that these could have been aircraft? Apparently ducks have been eliminated.

As for the 26 March, Equasseur AFB although NML, the data are contradictory and insufficient. Perhaps this was a helicopter? We ought to have much more information on this one. Has this been received?

Sincerely,

Allen Hyatt
