AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT FLYOBJPT		
AREA REPORTED ON Shawnee, Kansas	FROM (Agency) Hq Central Air Defense Force	
DATE OF REPORT 23 June 1953	DATE OF INFORMATION 20 June 1953	EVALUATION
PREPARED BY (Officer) 2nd Lt Stanley J. Kail, Jr		SOURCE Mrs. [REDACTED]
REFERENCES (Control number, direction, previous report, etc., as applicable)		

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

On 23 June 1953, an investigation was made of a reported flying object. The source, Mrs. [REDACTED], [REDACTED] Street, Shawnee, Kansas, gave the report as it appears in Part II and attachments. Mrs. [REDACTED] seemed to be thoroughly sincere in her report. She had never before seen or experienced anything of that nature before, but appeared to have a very clear picture in her mind of the object as she saw it. Mrs. [REDACTED] was firmly convinced of the shape and appearance of the object, but could not advance any knowledge as to what she thought it might have been or the actual size of the object.

Answers to U. S. Air Force Technical Information Sheet (Form B)

Name: **[REDACTED]**
Date: 23 June 1953

The objects were round and flat. One seemed to be slightly in back of the other, as I could only see about 3/4 of the one. There seemed to be something connecting the two together. As an example, it would be like 2 wagon wheels with the back one not on line with the other in the manner shown.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 June 1953
Day Month Year

2. Time of day:

6 45
Hour Minutes

(Circle One): A.M. or P.M.

3. Time zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[Redacted] Lawrence Kansas
Nearest Postal Address City or Town State or Country

Additional remarks: On front porch - house facing South

5. Estimate how long you saw the object.

Hours Minutes 1 to 1 1/2 Seconds

5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.

a. Certain c. Not very sure
b. Fairly certain d. Just a guess

6. What was the condition of the sky?

(Circle One): a. Bright daylight
b. Dull daylight
c. Bright twilight

d. Just a trace of daylight
e. No trace of daylight
f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
b. Dull moonlight
c. No moonlight — pitch dark
d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?: *No*

(Circle One) a. A mile or more away (a distant car)?

b. Several blocks away?

c. A block away?

d. Several yards away?

e. Other *not a headlight*

11. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?

Yes

No

Don't Know

b. Suddenly speed up and rush away at any time?

Yes

No

Don't Know

c. Break up into parts or explode?

Yes

No

Don't Know

d. Give off smoke?

Yes

No

Don't Know

e. Change brightness?

Yes

No

Don't Know

f. Change shape?

Yes

No

Don't Know

g. Flicker, throb, or pulsate?

Yes

No

Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved in front of: _____

14. Did the object appear: (Circle One):

a. Solid?

b. Transparent?

c. Don't Know.

15. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other _____

16. Tell in a few words the following things about the object.

a. Sound no sound

b. Color Bright silver

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? Two solid wheels connected.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

This picture would be the same as the one above.
When Sergeant Latman interviewed me, I asked him to make the drawings on his papers, which he did. Therefore his drawing may differ from mine, but the above picture is as I saw it, as nearly correct as I can draw it.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

B ————— A

The object moved in a straight line. no change in its course, shape, color, or size.

N

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.

_____ feet. *in the sky it appeared to be the size of a large wagon wheel.*

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar

- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball

k. Other: *large solid wagon wheel*

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.)

- a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

while watching it it just vanished. Did not grow smaller. No change in shape. It was just there.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

I would make it aluminum foil. It would be the size of a farm wagon wheel. The shape would be round, like a solid silver wheel.

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other On front porch

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

I was sitting on my front porch visiting with a lady friend. The Williamses off the sun shined in that silver object caused me to look up directly at it.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South *just a little east*
- f. Southwest
- g. West
- h. Northwest

30. What direction were you looking when you last saw the object? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South *just a little east*
- f. Southwest
- g. West
- h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

31.2 When it disappeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

Sergeant Tatman estimated this for me. I believe he said 45 degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

20 June 1953
Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

Mrs. [REDACTED]
[REDACTED]
Monrovia, Delaware

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

I do not know.

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

*I believe that Sergeant
Jatman arrived at some
conclusion about this.*

IF you answered YES, then what speed would you estimate?

_____ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

Same as above.

IF you answered YES, then how far away would you say it was?

_____ feet.

41. Please give the following information about yourself:

DATE June 25, 1953

On Saturday afternoon, June 20th 1953
I was sitting on our front porch (house
faces south). A friend had just stopped
by to visit a few minutes and was
sitting to my right about four feet.
Suddenly something caused me to
look up (it seemed to be a brilliant
ray of light from the sun shining on
that silver object in the sky). I was
so amazed, awed by what I saw:
the bluest of skies, the beautiful
silver of the object and the glorious
sunshine against the object. The
light must have been just right,
because every detail of the object stood
out clearly. It seemed to stand still,
but it did not because while I
watched, it crossed a narrow upright

on our screened in porch, line and
the East. and I measured that
distance on the screen and the porch
and it would be about $1\frac{1}{2}$ to 2 feet.
The moving seemed to be in a
straight line. and while it did not
change its shape or color or size
and while we were looking right
at it it was gone just as though
it had never been there at all.

When I first saw it I said aloud
"It looks like beer silver" and that
attracted Mrs. Mason's attention and
she stepped outside the door to look
at it. But it was gone. She saw it
while she was on the porch but she
stepped outside thinking she could
see it better.

It looked like two large silver
wagon wheels, but solid, one wheel
partly obscuring the other and
the two combined by what I describe
as an axle. I am sure silver is the
way I can best describe the wheels.
and slightly concave. at that distance
they looked the size of large wagon
wheels. farm wagon wheels. As to the
lightning speed, I left that up to
Sergeant Gorman who interviewed me
on Tuesday of this week. as I know
nothing about such things.

I hope I have been able to make this
clear to you. Sincerely,
