A large, empty rectangular box with a thin black border, intended for a drawing or sketch. The box occupies the majority of the page area below the header. The paper has a slightly textured, off-white appearance with some minor discoloration and faint horizontal lines visible in the background.

7 September 1953, Lewisdale, Maryland

On the nights of 30 Aug, 1 Sep, 2 Sep, 3 Sep, 4 Sep, 7 Sep, a Mrs. [REDACTED] reported seeing a round white light appearing slightly larger than a star, something like an airplane's landing light, although no beam was seen. When she observed the obj, it was moving from the NE to the SW and then beared slightly to the left and disappeared over the city of Washington, D.C. The light would alternately go fast and slow, at times appeared to hover. The elapsed time from when the light was first observed in the NE until it disappeared to the S was from 20-30 minutes. There were 2 more witnesses to the sighting. Mrs. [REDACTED] mother of Mrs. [REDACTED], same address, estimate of reliability unknown. Mrs. [REDACTED] sister of Mrs. [REDACTED], same address, estimate of reliability unknown. Mrs. [REDACTED], age 49, [REDACTED] Lewisdale, Maryland, has been calling operations at Bolling for the last year and it may be concluded without confirmation from people in the community that Mrs. [REDACTED] may be over-estimating a very routine thing. Preparing Officer states that the reliability of Mrs. [REDACTED] can be somewhat doubted as to what she actually sees. The Preparing Officer states that he does not doubt that Mrs. [REDACTED] sees something but after quite extensive investigation has concluded that the light seen is nothing other than landing lights on a commercial aircraft. It has been learned that commercial a/c do fly nearby coming over nearby Riverdale on their way to Washington International Airport and do turn on their landing lights in this vicinity.

over ---

When there is traffic at the airport, they go into a Riverdale pattern which might account for the unknown obj to go fast or slow and even appear to hover.

"a flying saucers." We went back down to the camp site and changed clothes for a study meeting & the children could hardly settle down the rest of the day. I tried to explain what we saw to the other adults & they couldn't seem to understand such a thing or even imagine it - the hovering & disappearing part. Of course, all of us that saw it couldn't either [understand.]

I remember looking down & seeing the light so bright in a patch that covered about three of us. I noticed how bright it was on my legs.

The children thought they saw figures waving at us through the middle area of the craft. I think it was pure imagination. The hardest part to see, was the middle area. We argued whether it was windows, or metal or glass or a seam, etc.

There isn't anymore to this report.

It might be good to mention that I remember this all very clearly & even remember the conversation the young people & I were on before one of them said "Hey, Miss [redacted], look out there!" I turned around & we were all very impressed.

There was a small crater-like lake behind us & we were sitting on the edge in swimming suits & talking about Hawaiian dancing & Hawaiian people. No one went in the water because it was too scummy or dirty or some such.

The sun reflected on the craft at one point & the light almost blinded us for a while. It almost seemed focused over a 6x4' area.

The children argued it was a flying saucer & I never saw a picture of one & tried to convince them it was a government aircraft & it couldn't be a flying saucer because it doesn't look like one saucer, but two saucers & no one has ever said they saw

SEPT	1953	BALTIMORE, MARYLAND	(KEYHOE-1960 P 206) I WITNESS	00
DR.	[REDACTED]	JR., A BALTIMORE ASTRONOMER, OBSERVED FOUR LARGE		01
LIGHTS AS HE WAS WATCHING A TRANSIT OF THE STAR FOMALHAUT.				02
AT FIRST, I SAW THEM WITH THE NAKED EYE, HE REPORTED. *THEN I IMMEDIATELY				03
OBSERVED THEM THROUGH SEVEN-POWER BINOCULARS. THE LIGHTS MOVED SLOWLY. I SAW				04
THAT THEY CAME FROM THE NOSES OF TWO ENORMOUS OBJECTS WHICH MORE THAN FILLED				05
THE BINOCULARS. I OBSERVED A CABIN IN THE NOSE AND PORTS ON THE SIDES OF THE				06
HULLS IN EACH CRAFT.*				07
THE HUGE OBJECTS, DR. [REDACTED] STATED, WERE EITHER CIGAR-SHAPED OR				08
CYLINDRICAL.				09

Dear Sir:

I had read of a meteorite in Alabama so I have decided to write you about my rocks: They fell in our back yard last September 1953. The earth was scorching around them and a white powder covered the rocks which I thought indicated great heat. There is a terrible smell about them and they seem to eat through cloth or paper. Rather these things deteriorate. I have them in a can.

I have given many pieces away in an attempt to find out what they are and never succeeded. However, I decided they were meteorites and have kept them. I am a standing joke to everyone over them but I still keep them and show them to anyone interested.

I would dearly love to know if they really are meteorites and I think you would know.

Thanking you kindly,

Mrs. [REDACTED]
