1. DATE 8 Jan 54		2. LOCATION Berlin Germany		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☒ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other _____ ☐ Insufficient Data for Evaluation ☐ Unknown	
3. DATE-TIME GROUP Local 2027 GMT 08/1927Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE civilian			
7. LENGTH OF OBSERVATION 5 - 10 seconds		8. NUMBER OF OBJECTS one		9. COURSE SE	
10. BRIEF SUMMARY OF SIGHTING Object described as about the brightness of the full moon observed in flight from the NW to the SE. Straight flight. No features, no sound or trail. Speed twice that of jet a/c yet slower than meteor.				11. COMMENTS Meteor speeds consistent with the distance in degrees of arc through which the object traveled. Case evaluated as a meteor sighting.

The following information was extracted from the OSI, HQ USAF
Summary of Positive Intelligence Activities for the Month of January
1954, dated 18 February 1954:

"4. Unidentified Flying Object Reported over BERLIN:

"On 8 January 1954, a German resident of the American Sector of BERLIN noted an unidentified object, similar in appearance and size to a full moon, traveling in a straight path from northwest to southeast over the American Sector of BERLIN. Time of observation was 2027 hours (local time), and source observed the object for a period of approximately five (5) to seven (7) seconds, at which time it disappeared behind the surrounding buildings. Weather conditions at time of observation were clear sky, a new quarter moon, wind approximately five (5) to ten (10) miles per hour, and temperature 20° to 25°F. Source could give no identifying aerodynamic features but stated that there was no sign of exhaust trail nor could any sound be heard from the object. The object traveled in a straight line at a constant altitude and speed. Source was unable to estimate altitude of the object but stated that speed of the object appeared to be twice that of a jet fighter aircraft but much slower than the speed of a meteor."
