1. DATE - TIME GROUP = 14 May 54 14/1540Z	2. LOCATION Norfolk, England
3. SOURCE military (3 pilots)	10. CONCLUSION WAS BALLOON Description indicates balloon. Flight and maneuvers, as well as radar pickup within upper air balloon capabilities.
4. NUMBER OF OBJECTS one	
5. LENGTH OF OBSERVATION vis 90 seconds	11. BRIEF SUMMARY AND ANALYSIS Round. Size of dinner plate at arms length. Silver or gray. Object at 50,000 to 60,00 ft. Made 180 deg radar turn. Indicated air speed on radar track 240 knots. RAF a/c with visual observers at 35,000 - 40,000 ft. Intercepted by 3 F-86's. Weather clear. Visibility good. Formation unable to close despite G.C.I. Radar maneuvers of object considered improbable for conventional a/c.

AIR INTELLIGENCE INFORMATION REPORT			
SUBJECT Unidentified Flying Object Report (UFOB)			
AREA REPORTED ON Great Yarmouth, Norfolk, England		FROM (Agency) 91st FBW ITP	
DATE OF REPORT 13 May 1954	DATE OF INFORMATION 14 May 1954	EVALUATION A3	
PREPARED BY (Officer) 2/Lt R.G. Kennedy AO 3005967		SOURCE Captain Kenneth J. Scott Jr. AO 621203	
REFERENCES (Control number, directive, previous report, etc., as applicable) AFM 200-2 dated 26 Aug 1947 and AFM 200-2A dated 2 May 1953			
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclusions at lower left. Begin text of report on AF Form 112—Part II.)			
SUMMARY: Formation led by Captain Scott vectored to unidentified object by G.C.I. (Bawsey). Estimate object round, diameter approximately size of dinner plate held at arms length, altitude 50,000 to 60,000 ft. Object made a 180 degree turn and disappeared. Rapidity of change of direction at that altitude and apparent speed led observer to consider the maneuver improbable for conventional aircraft. EVALUATION OF SOURCE: Captain Scott is an experienced pilot and flight commander with 3000 hours flying time of which over 1100 hours is jet time. Consider his observations very reliable. Lt's Eakes and Clardy, both wingmen, did not have the object in sight for more than 30 seconds and made no concrete identification excepting the fact that there was no resemblance to conventional aircraft. COMMENTS OF PREPARING OFFICER: Interview of radar operator revealed nothing conclusive excepting estimated airspeed of object (240 kts. Airspeed) and fact that it was climbing out of radar scope above 50,000 ft. Other aircraft in area at 35,000 to 40,000 ft were RAF Venom, Meteors and seven F-46's. None were in visual range of observers at 1540Z. Observation source considered reliable. No explanation of the possible cause of the sighting.
