SUBJECT: Report resulting from the interrogation of Mr. [REDACTED]

Between the hours of 1720 and 1730 Central Standard Time, Mr. [REDACTED] was traveling east on Highway #6 four miles west of the town of Green City, Missouri. The day was clear, there was little wind noticeable and the sun was bright and to the west of his automobile. As Mr. [REDACTED] approached a flat stretch of road lasting for approximately $\frac{1}{4}$ of a mile, he noticed through the driver's side window, a large, metallic disc hovering an estimated 500 feet above the ground at a distance of approximately one (1) mile from his position. He described the object as being about 100 feet in diameter and an estimated 12 feet in thickness with what appeared to him to be several windows. Mr. [REDACTED] did not stop to observe the object further and lost sight of it as the road dipped. He proceeded to the town of Green City and reported it to the editor of the local paper, who promptly called our installation. Mr. [REDACTED] was traveling at an estimated 55 miles per hour when he sighted the object and observed it for approximately 15 to 20 seconds.

An investigating team from our unit comprised of Capt. Laurence B. Watson, Operations Officer, Lt. Arthur T. Young, Senior Director and A/2c Robert E. Kerbs, Intelligence Specialist investigated the sighting on the morning of 15 February 1955. Mr. [REDACTED] was interrogated and asked to sketch the U.F.O. There were no other witnesses or observers known to have sighted the object. No further evidence was found when the sighting area was inspected.
