10. BRIEF SUMMARY OF SIGHTING One (1) conical, white light with tail exhaust coming smoothly to point and blue-white in color was seen to appear at a 10° elevation at 130° and to disappear at 10° elevation at 310°. Witness reliable.				11. COMMENTS The observer of this sighting was originally reported to be an observer of the sighting reported at Orlando, Fla at 15/0200Z July 1955. If the times are correct this observer must have seen a different object. If this object crossed a major portion of the sky in a period of 10-15 seconds it probably was astronomical in nature. In the opinion of this hqs the observer possibly saw a meteorite. <u>PROBABLY</u>
