DESCRIPTION OF SIGHTING INDICATES OBSERVATION OF STAR/PLANET. HOWEVER WITHOUT ORIGINAL CASE NO EVALUATION CAN BE MADE.		The fact that this object appeared to stand still for a long period of time and appeared close to the observer could indicate the possibility of a balloon. The reflection of the city lights could account for the color. The usual time for the launching of rawinsonde balloon is in the hour preceeding the sighting. In the opinion of this hqs, the observer probably saw a balloon.
