LATE SEP 55

In late September Dr. [REDACTED],
a San Paulo physician, photographed a round object, which
hovered above his fishing vessel, which gave off a whitish trail
of smoke off Santos, Brazil.

WATERTOWN DAILY TIMES.

THURSDAY AFTERNOON, NOV. 10, 1955.

LETTERS From the People

Thanks Voters

To The Times:

I wish to express my heartfelt thanks to the voters and the people of the eighth ward who worked and supported me in electing me as their representative on the board of supervisors.

My good wishes are also extended to my opponent, August D. Naccari, for the fine sportsmanship and gentle manner in which he conducted his campaign.

Steve D. Allert.

Watertown, N. Y., Nov. 10, 1955.

Makes Statement

To The Times:

The people of Watertown have honored me by this election and I am mindful of the trust they have placed in me and of the challenge that the office of mayor presents. I assure you with all the honesty and sincerity I possess that my entire actions will be based upon the question—"Is it

the best for Watertown?"

It is impossible for me to know everybody who has had a part in this success but I want to express to everyone my deepest appreciation for all your hard work and untiring efforts in my behalf. I will certainly always remember and cherish your loyalty.

To my many friends who have supported Bill, I want to say a special word of praise. You have supported with complete devotion a candidate and a cause that was just and proper and you have made me very happy by a good, clean, hard fought campaign and I would welcome your hand of friendship and your cooperation to make Watertown the best city in the entire country.

Any success I might have will be because of the cooperation of all of the people.

W. G. Lachenauer.

More Flying Saucers

To The Times:

The flying saucers are back! Thursday, Nov. 3, I received the prints of a photograph which I took Saturday, Sept. 17, in preparation for the 25th anniversary of the Black Lake Bridge,

which will be held next summer.

The picture was taken of the smaller bridge across the lake at Edwardsville from Booth's island, looking toward Heuvelton. Directly above the bridge is the flying saucer, which looks like a Pepsi-Cola bottle cap. Oddly enough, I did not notice anything when I took the picture, although there had been some jet airplanes in the locality that afternoon.

This picture, which was taken between 2 and 3 that afternoon, is now in the process of being enlarged.

Do any of your readers remember any mysterious objects in that area that afternoon?

If you wish this picture for publication, please so inform this office.
