Dear Gentleman

June 13, 1964

Could you please send me a copy of section 200-2 of the regulations.

Could you also send me a copy of the questionnaire you give to people who reportedly saw a 'flying saucer' or UFO.

I have heard that you in the U.S. AF are trying to keep the U.F.O. mystery secret. I have seen one UFO that I can't explain (maybe jet) and heard too much evidence to be able to not believe in 'flying saucers'. I, of course, don't believe half the stories, but am convinced they exist & would like to know why it is being kept so secret.

Thank you

Sincerely Yours,

ENCLOSURE

June 28, 1964

Dear Sir

I would like to take this opportunity to thank you for the current info. on Project Blue Book & would like to receive the "facts sheets" referred to in the info. you sent me. It is always nice to get both sides of a story. The USAF is not nearly as bad as some "saucer" people paint it.

I regret to say that I asked for & did not receive a copy of #FR 200 2 & would appreciate a copy.

Also I asked for a copy of your UFO questionnaire. I saw a UFO several years ago (not a flying saucer) & would like to know what I saw. In brief it was a "Saturn" ring & all & luminescence with red, green & white lights on ring which didn't turn. It was after sunset & the object was low in the east. A whole group of YMCA kids saw it & I would like to fill out a questionnaire & find out if I saw a UFO, heat inversion or high flying geese.

In the info sent me on Project Blue Book you say that only 7% are really U.F.O. & there is no evidence to prove they are interplanetary. over

Well I have heard UFO mention stories
etc. I've heard a real live Russian
was living in the Pentagon. I have
also heard of people living under the surface
of the moon. Many stories I don't believe
but I can't help thinking that other
planets (not in our 9 necessarily) have
intelligent life & that most authentic UFO
are known by those people. For example:
several years ago UFO were tracked by jets
of radar ~~over~~ over Washington from
12 PM to 4 PM. They were recorded as
going from 100 to 500 MPH in seconds. Our
jets took 2 hrs on a $\frac{1}{2}$ hr. flight & the
UFO disappeared when they got over
Washington only to reappear when the
jets left. That mission was impossible
that night no matter what Dr. Mungo
says. Those UFO's were tracked to some
fabulous things at various speeds over
Washington including 900 turn etc.
Also many other radar contacts have
been made & planes scrambled just to
have UFO fly circles around them.
Radar has picked up UFO during speeds
~~over~~ 7-11 can't or even faster
numbered 2900 MPH nuclear bomber.
One ship was recorded on radar as

doing 40,000 MPH. These speeds along with the maneuvers seem to point out a craft controlled by a highly intelligent people. If I am wrong maybe you can set me straight.

Could you clear up one other thing? Most of the UFO fanatics say Capt. Mantell's F51 got in a force field & blew up nobody was found. Col. Keyhoe is the only guy who says a body was found. Was Capt. Mantell's body found?

Personally I don't believe the public is getting a straight story on the UFO. It would be nice to get a straight story but I guess it would also be nice if so many fanatics didn't exist. My view point is simply that a certain % of UFO reports (especially radar & visual sighting from planes) are authentic & that these are controlled by an advanced race elsewhere in the universe.

Thank you for your assistance

Sincerely Yours

What I saw looked like a Saturn & was witnessed by a group of about 60 boys. The object was bigger than pea size if you were to hold your arm out. It was solid looking, going slow like a plane going over. The ring rotated slowly. I would like to know what I saw. It ~~did not~~ didn't look like heat inversion or a weather balloon.

I am not sure exactly when I saw it but I remember it clearly. I have not reported it before because I wasn't aware of this questionnaire.

The time was just after dusk. It was almost completely dark. No moon up yet that I noticed but wasn't completely dark. UFO held steady course across sky.

1. Reference the attached letter from Steff Millard requesting information on unidentified flying objects. The following information is provided to assist you in answering his letter.
2. There have been no reports of Venusian's living in the Pentagon nor people living under the surface of the moon. We do not deny the possibility that there may be life on other planets. We simply state that to date the Air Force has no evidence to substantiate this fact and we have no evidence of intelligent beings from other planets visiting our atmosphere in space ships.
3. The summary of the Washington D C sighting of 1952 and the summary of the Mantell case should answer the remainder of Mr Millard's questions.

Dear Mr. [REDACTED]

This is in reply to your recent letter in further reference to unidentified flying objects.

While the Air Force does not deny that there may be life existing on other planets, there has never been a shred of evidence that would lead anyone to seriously believe that these beings have visited the earth in spaceships. On the contrary, all the investigations made during the past 16 years have tended to strengthen the conviction that unidentified flying objects are merely natural phenomena such as meteors or ball lightning, or misinterpretation of some conventional object such as an aircraft, balloon or perhaps even bird.

In the case of Captain Mantell, at the time he was dispatched to investigate a UFO, it was not known that a weather balloon was in the area. When the report of his sighting was checked out, investigation revealed that the Navy had released such a balloon under a then classified project, and therefore its release was known only to those persons actually working on the project.

The Air Force conclusion of the Washington D.C. sightings were that they were due to mirage effects created by a double inversion.

Sincerely,
