10. BRIEF SUMMARY OF SIGHTING One large round object, the size of a bushel basket held at arms length, with three smaller objects, third the size of the large object, and composing the trail of the large obj. Seen for a period of three to five seconds. The larger obj was a brilliant emerald green in color in the center with a lighter shade of green on the outside. The smaller objects were white or silver in color. Daylight sighting.				11. COMMENTS Concur with the opinion of the reporting officer that this sighting was probably generated by a meteor even tho the sighting was in the daylight. The color, duration, trail and general circumstances of the sighting lead to the above conclusion.

/10/ ONE F-84F TYPE AIRCRAFT WITHIN TEN MILES TO THE RIGHT OF OBSERVERS AIRCRAFT ON A 360 DEG HEADING. THE OBSERVER PILOT HAD SUBJECT AIRCRAFT IN SIGHT AT TIME OF OBSERVATION. SEVERAL OTHER AIRCRAFT OF VARIOUS TYPES WERE REPORTED IN THE LOCAL AREA OF TINKER AFB ALL OF WHICH WERE AT DIFFERENT ALTITUDES. /11/ SUBJECT OBJECT WAS BELIEVED TO BE A TRANSIENT CELESTIAL OBJECT. OBSERVER PILOT HAS OBSERVED FALLING CELESTIAL BODIES ON PREVIOUS OCCASIONS CMM HOWEVER CMM NONE OF AS BRILLIANT COLOR. SUCH OBJECTS OBSERVED PREVIOUSLY WERE EITHER WHITE OR ORANGE COLOR. /12/ NONE.
