

PROJECT 10073 RECORD CARD

1. DATE 21 March 1956		2. LOCATION Ventura, California		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical Men us ☐ Probably Astronomical ☒ Possibly Astronomical	
3. DATE-TIME GROUP Local _____ GMT 22/0338Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian & Military			
7. LENGTH OF OBSERVATION 1st observer: ten mins 2nd observer: 1 hr 30 min//		8. NUMBER OF OBJECTS two		9. COURSE seen in west unknown	
10. BRIEF SUMMARY OF SIGHTING Two round objects, red and white, the size of peas held at arms length, one very slow and one very fast seen by civilian and then later by a/c at Ox-nard AFB Tower. No radar contact with the objects.				11. COMMENTS The duration of the sighting, the lack of radar contact, the fact that the objects were reported in the west (the location of Venus) leads this hq th the above checked evaluation. It does not seem logical that one object was traveling very slow and the other "very fast" if they were seen for the periods indicated in 7 above.
