10. BRIEF SUMMARY OF SIGHTING Observer reported small jet like object shaped like a jet plane, moving straight out of sight then back again. In sight first time 3-4 mins; 2nd time 4-5 mins.				11. COMMENTS Obviously a/c. Preparing officer reports low flying a/c observed in area. Also F-84's fm Dobbin AFB known to be in area at time of sighting. Interview w/observer disclosed she was inconsistent. In view of above information and fact that observer practically describes a "jet aircraft" in her description of the object, conclude as a/c.
