flashed my light on it again. It disappeared  
 from my sight in an instance with out  
 moving any. We have a dog in the stable  
 just to the right of where I spotted this object  
 that was howling something terrible. Normally  
 this dog is well behaved and doesn't  
 even bark much. I might say after  
 the thing was as close to me as it was, I  
 was very frightened. I would like an explanation  
 of this if possible. I might add the object

 5 to 6 feet above the ground.

I first saw this queer object while making my last round, 4:30 a.m., as night watchman at the Dayton Country Club. It seemed to be hovering above the ground moving slowly towards the club house where I was standing. I flashed my 5 cell flashlight on the object when it was on the far end of the ground by nothing happened. Later I went out on the grounds to see what was happening. I heard or smelled nothing as the wind was blowing towards the object. It was moving towards the house in a very slow speed. I think I could have out walked it. It was about 15 to 30 feet wide and 8 to 10 feet thick and was a oval shape. Look as: . The object came to 150 feet or less of me when I

# Memo for Record

Subject: UFO Report for Mr. John H. Adams  
Dayton Country Club

1. Telephoned Mr. Campana, Dayton Weather Bureau. Was informed that a balloon was launched at about the same time of Mr. Adams observation.
2. Further and most significant, Mr. Campana stated that they had trouble with this particular balloon. It behaved erratic they tracked it only to a mere 11,000 feet, and the radio sonde did not function. They lost it completely, something which seldom happens right after release.
3. Mr. Campana added that it could have come down <sup>or passed over,</sup> anywhere in the Dayton vicinity.

Memo for Record:

Called Mr. [REDACTED] to  
resolve statement that object  
"was circling overhead",  
"remained in sight for 1 minute  
yet" was going 1500 to 2000 MPH  
(Inconsistent statements)

Inquiries show balloon

- except for speed.

In discussions, Mr. [REDACTED]  
stated that he may have been  
wrong on the speed and may  
have been much slower.

Underlined remarked that  
this sighting was in broad daylight  
and generally would have been observed  
by many people; therefore, could he  
give us any clue as to others who  
may have observed the object.

Mr. [REDACTED] stated that he believed  
his wife also observed it.

Dayton Ohio, Sept. 4th 1956.

Air Technical Intelligence Center,  
Area A Wright Patterson Field,  
Dayton Ohio.

Dear Sirs:

Following the instruction of Lt. Weber, with whom I talked on the telephone this morning, I am sending you sketches of the unknown object that appeared in the sky almost over our home in Dayton View at 5-05 this morning.

Since the Lt. has all the details I need not go into the whole description of the appearance of the object except to emphasize-

# 1

The beams of light which awakened me were not a white light (as I believe the Lt. thought I said) The light was bright and shimmering and to be thought of more as reddish than white.

The object appeared to be about the size of a soft ball (baseball) which has a circumference of about twelve inches. For by the time I reached the window and could view the object there was no longer light beaming from it and I could see the shape. Trusting that this description may be of some use in detecting the phenomena should it again appear, I remain

In the interest of Civil Defense.

" " " The diminishing sizes of object more irregular in outline than these sketches.

#2 View of object.

Immovable in sky for several minutes. Then veered sharply to north where it was lost to sight behind trees for several minutes.

Coming slowly back into almost the spot where it was first seen it then moved slowly upward and westward. No halo.

pale green (seemingly a light)

#3 Viewed high and westward it appeared to develop in this manner.

#4 Viewed while talking to Lt. Weber the object was far west and nearer the horizon seemingly.
