

PROJECT 10073 RECORD CARD

1. DATE 14 October 1956		2. LOCATION Covington, Kentucky		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon	
3. DATE-TIME GROUP Local 1600 GMT 14/1900Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar		☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other _____	
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian		☐ Insufficient Data for Evaluation ☐ Unknown	
7. LENGTH OF OBSERVATION brief		8. NUMBER OF OBJECTS one		9. COURSE stationary	
10. BRIEF SUMMARY OF SIGHTING Brilliant object observed from car while traveling in town in traffic. Described as bright light about 1/4 size of moon. One block later object was gone. Stationary. Unusually brilliant and large.				11. COMMENTS Insufficient data for evaluation.	

Mr. and Mrs. [REDACTED], Rt. 1, Box [REDACTED], Batavia, Ohio. Having first learned of the sighting from Mrs. [REDACTED], an employee in the advertising department of the [REDACTED] Co., of which I am manager, I asked for more detailed information. Mrs. [REDACTED] husband responded by writing up the following details:

"On Sunday, Oct. 14, 1956 at about 6:30 pm, while traveling east on U.S. highway 52, between [REDACTED] and New Richman, Ohio, I saw a reddish orange object in the sky. At first I thought it was a jet making a vapor trail, but the trail didn't seem to get any larger, in fact it all seemed to be traveling at the same speed, and, in a northerly direction for at least a minute then it turned straight up and disappeared out of sight.

When the object turned it did not make an arc but made a sharp turn like this

The whole thing seemed to turn at one time. A jet would have had a curve to its turn but this did not. My wife and son were with me at the time. She was driving so I did not take my eyes off it until it was out of sight. They all saw it."

Mr. [REDACTED] (and wife) [REDACTED] Pike, Ft. Thomas, Ky. Object sighted in Northeast from Highland Hts, Ky at about 1:30 pm. Mr. [REDACTED] described the object as large, about the size of a nickel held at arm's length. It was gun metal gray and without apparent wings or tail or other appendages. He said the object appeared to be stationary for about a minute, and was quite low.

Thus, in brief, are the descriptions of the UFO's seen by three separate groups on October 14, plus the photographs. I hope they may prove to be of value to you and your command.

In light of the international crisis, I hope that I may be able to serve your command more thoroughly and expeditiously. I have not yet phoned Lt. Colonel U. F. Greene in Washington in regard to the matter discussed by phone on November 6, 1956. I believe a phone call would only add to the confusion already existing as to my status. I might try by letter, however, hoping that clarification might be obtainable.

Sincerely

[REDACTED]

PS: Please return the enclosed photographs and negatives to the writer after analysis as [REDACTED] left them in my responsibility.

Civilian Research, Interplanetary Flying Objects

Cincinnati 27, Ohio

THE CHAIRMAN

Mr. ██████ told the writer that he photographed the "object" while taking a series of shots of the moon. He has many times spoken to the writer of his interest in the moon, and I feel certain that the photograph in question was not faked to delude the writer or others. He seeks no publicity. Mr. ██████ also gave me permission to contact your command regarding the photographs. You may contact Mr. ██████ for additional information regarding these photographs or, if you prefer, I will send whatever additional information you may desire.

The photographs taken by Mrs. [REDACTED] were taken on Sunday, October 14, 1956. On this same date, CRIFO received three daytime sightings of UFO's from three separate groups of witnesses in the greater Cincinnati area. Names are as follows:

Mr. [redacted] ve., Bromley, Ky. Brilliant object seen from Covington, Kentucky about 4 pm. - Mr. [redacted] said the sky was deep blue, no wind. While driving in traffic, he saw large bright light about quarter the size of full moon. He said the object was stationary. By the time he had reached the next block, which afforded a visual clearing of the sky, the object had disappeared. Mr. [redacted] stressed the fact that the object was unusually brilliant and large. He ruled out reflection on aircraft as an explanation. Mr. [redacted] has a pilot's license.
