| 10. BRIEF SUMMARY OF SIGHTING<br>One bluish-white to dull orange tear shaped object -- size indeterminate. Object had a slight trail & appeared like a Roman Candle or flare. Object dropped vertically & disappeared by burning out. Object was seen visually for one to three seconds. |  |                                                                                                                                                                                                       |  | 11. COMMENTS<br>Duration, description, manner of disappearance, indicate that this sighting was caused by a meteor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |
