- e. None
- f. None reported by weather station
- 8. Two observers stated that a jeep or other type vehicle was sighted in area about the same time.
- 9. N/A
- 10. None
- 11. 2nd Lt. David R. Perdue, AO 3055962, Chief, Radar Intelligence. This officer was not able to question the observers due to the fact that they are stationed in the Seoul area. But description sounds similar to those describing a weather balloon, although we have no information that a balloon was in this area. Words used by observers such as "hovering, Settling" point to this possibility.
- 12. Existence of physical evidence
 - a. N/A
