ATTC Conclusions:

A very skimpy report, more "nones" (?)
than specific data - but everything
points to the dy. being a jet aircraft. Checks
show no UFO rpts from Rivier, 900, a/c, others
in the area.

U.S. Airo Chart No. 359 Shows
that the good Reverend was standing
right under Airway Route # 5 (Amber)
Approach to St. Louis.

Note Jet fighters
in the area.

* A test run by a/c in the
area at 8:00 PM.

A/C

ATC Conclusions: Similar to
a number of reports since the advent
of latent high speed a/c (F-100 series).
At first glance appears to be a
meteor. However, time-in-sight
if correct rules this out.
Note - jet aircraft in the area.
They do resemble meteors at night,
at dark - when at high altitudes.
