UFOB REPORT # 35

DATE OF INCIDENT:

21 March 1958

LOCATION OF INCIDENT:

Dayton, Ohio

TIME:

0820

SUMMARY OF INCIDENT:

① Case from Mr. Hackett. PRO repr. for ATIC.
Three youths on way to school observed small spherical
object for ten minutes in the sky, moving
slowly away.

INVESTIGATIVE EFFORTS:

① U.S. Weather Bureau, Mr. Williams. Troy
Pike: Balloon released from Sulzer Grove at 0840. Winds
approx 25 MPH. Wind directions (from N-NW) were just
right to bring balloon over that area - but obviously not
this balloon (would have been about 50 miles away)
② 58th (ACW Radar/Division: No UFOs
in scope between 0730-0830 while that area scanned.

PHYSICAL EVIDENCE:

③ Capt. H.R. Sheppard, Jr. Radar Surveillance
WO-4FB: Negative: no UFOs in that
area

④ F-11 Test, WO-4FB in event some odd or
unusual design a/c being tested: negative

FINAL ATIC EVALUATION:

1. Object, without doubt, was a balloon.
2. Probably from some WX unit North or
Northwest of Dayton.
3. Radar units (2) which scan the area 24
hours a day - report nothing seen at that
time.
4. No other report from any other person in Dayton.
5. Since F-11 test had no unusual design
a/c in area - must conclude: Prob. Balloon
