5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION one second		8. NUMBER OF OBJECTS one		9. COURSE in East	
10. BRIEF SUMMARY OF SIGHTING Two rpts of obj. 1st of green flare believed to be over Miami Beach by witness in the City of Miami. No estimate of alt or duration given. 2nd of falling star.				11. COMMENTS Control tower operator in Miami Airport observed a Meteor in the East at the time rptd by the Witness. This is considered to be the "flare" rptd by the witness in Miami.	

This has nothing to do with any of the

Detachment 8
4674TH GROUND OBSERVER SQUADRON
United States Air Force
3644 NW 25th Avenue
Miami 42, Florida

GOS

MAY 19 1958

SUBJECT: UFO Check

TO: Commander
Air Technical Intelligence Center
Wright Patterson Air Force Base
Dayton, Ohio

1. Reference your message AFCIN-4EH- 5-861-E, a negative report is submitted from this detachment for date and time mentioned.

2. For information, at 0215Z, 2 Apr 58, this detachment received a telephone call from a Mrs. [REDACTED] who reported she observed "a green flare [REDACTED] and that she believed it was over Miami Beach." She could not estimate the altitude or distance from her. The telephone connection was severed by her before additional information could be developed.

3. At 0230Z, 2 Apr 58, the above information was relayed to Control Tower, Miami International Airport, where Mr. [REDACTED] Tower Watch Supervisor, advised that he saw what appeared to be a falling star in the East, approximately 30 minutes earlier. It was in view for about one second only and was just above the horizon when he saw it. He could furnish no additional information, inasmuch as he did not rate it as a very unusual occurrence.

WILLIAM B. WALBURN
Captain, USAF
Commander

3. DATE-TIME GROUP Local 30/2240Z GMT 01/0340Z May 58		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar		☒ Was Astronomical Meteor ☐ Probably Astronomical ☐ Possibly Astronomical	
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Military		☐ Other ☐ Insufficient Data for Evaluation ☐ Unknown	
7. LENGTH OF OBSERVATION 20 seconds		8. NUMBER OF OBJECTS one		9. COURSE SW	
10. BRIEF SUMMARY OF SIGHTING Bright unidentified light in sky. Viewed for about 20 seconds. Obj moving SW in semi-circular arc. Did not appear to be a/c. Rpt fm coast guard. Light was bright white.				11. COMMENTS Request for additional info resulted in info on another case. Nothing added to the original rpt. Possibly searchlight, however, since the observer should be familiar with conditions in his base a more probable solution is a meteor sighting. It is not unusual for meteors to be without tails, and since the duration is rather long this meteor was probably at great alt.
