Memo for Case Files -

Dayton Ohio - 7 April 58

Incident over Lake Cayuga.

4

The following checks and investigation made by S/Sgt J.O. Bolan.

1. Check with radar units which scan area 24 hrs. a day shows, nothing unusual seen. Only one track which was a balloon - earlier.
2. Check with F4 Test Units. Report many routine flights in area.
3. Weather - broken, scudgy clouds. Wind from surface to 2000 6 knots - very slow.
4. U.S. Navy (Vandalia): Balloon released at approx. 1 hr. earlier. Believed to have come down in Columbus. However, because of the slow wind velocity (6 kts) - could have moved slowly in the right area.
5. Sun was just going down - proved repeatedly that scudgy - broken clouds reflecting sun's rays often (in fact many reports) fool professional pilots.

(next page)

6. Observer states that in his own opinion
(item #24) it did ~~resemble~~ a cloud.
7. Check in area — shows no other's
reported anything unusual. None from Civil
or military a/c. "
8. Anything ^{unusual} the size of a swimming pool would have
been seen by hundreds of people. I
ATTC Conclusions:

Mistaken identity of some conventional
object (perhaps a cloud, F-104, balloon, etc
in the area.
