Comment & Conclusion

① Astro. Computer plot
H.O. 249
Show bright star (1st
magnitude) SPURUS
in almost the exact
location obj. observed
for the 30 or so
minutes.

② Rept above indicates
30% cloud covered
sky - fast moving
clouds (note 50 mph
winds) - shown
repeatedly

③ Repeatedly shown
that Bright stars
after your vision
of wind gets when
fast-moving clouds
break through
each as there
exists in the
case.

Prob. Astro / SPURUS
observed through
fast moving clouds,
producing illusion
of various colored
shades.
