7. LENGTH OF OBSERVATION 10 mins		8. NUMBER OF OBJECTS one		9. COURSE Circling	
10. BRIEF SUMMARY OF SIGHTING 23) a rnd silver white obj was seen circling w/verticle movements in the SW. 24) a red, orange, & white obj, oval in shape, was seen circling in the WSW area.				11. COMMENTS The maneuvers rptd rule out a balloon. It is possible the obj could be an a/c circling for a landing; however, the obj disappeared in the same spot as it was first sighted. It could also be a searchlight shining on a cloud, The amount of cloud cover was omitted however. There is no size given. Cannot properly evaluate without the size & cloud cover.

1. Object was circling.
2. disappeared into the west.
3. the wind was from SW.

The above rules out a balloon.

However, it is possible an a/ct from one of the several airports circling for a landing.

(NOTE The elevation). Aero chart #404 indicates 3 major airports west of the source location.
