Comment & Analysis:

(L) NONE

Concur:

There is supposedly reliable source who
(1) observes two (2) round white objects
for over one hour

(2) objects made no movement - i.e. fixed - then
moved N to south

yet - cannot give (or does not give) the specific
location of the objects, their direction, distance,
bearing, azimuths, etc. (FEL's M.S.N.G. - cannot
plot)
