Time of sighting - approx - 0600 24 Jul 58

Place: Front yard

Description of object:

east to west

I saw the object moving from ~~XXXX~~ to ~~XXXX~~ overhead.
I first noticed it about over the crest of the palisades. It appeared about the size of the full moon at mid-sky, shining silver metallic color, no visible vapour trail. It was in sight about 8 to 10 seconds, disappearing from sight in the western sky. It's shape appeared slightly elliptical, the long axis in the direction of flight.
