INSUFF DATA

Comment: a. Its somewhat surprising that someone who claims to have observed a slow moving object for almost 10 minutes - can not give even a general statement as to the object's size, shape, other features, details, appearances, etc. particularly a source of such caliber as a vice-president of a well-known reporting program!

b. Nothing here except a white something was observed moving slowly from the SW, overhead, to the Northeast. Could fit the description of a plane, balloon, Concorde, goose, anything.

c. Surprising, that although the UFO passed over a small city the size of Elmont, no one else reported it.

d. Check records no reports of anything unusual from radar, military or Gov units, or military or civil threats in that area.
