1. On 16 August 1958 the above individual telephoned this District Office and advised that he and his wife were attending a drive-in movie when his wife, at about 2300 on 4 August 1958, called his attention to an unidentified flying object (UFO). He thought it was a satellite but about fifteen minutes later an identical UFO came into view. [REDACTED] described both objects as being elliptical in shape and very brilliant, and when first noticed were in the west-northwest and disappeared at the horizon in the southwest. [REDACTED] advised that the drive-in movie is located at Troy Hill, New Jersey, and that at the time the objects were sighted the night was clear and visibility good.

2. [REDACTED] further advised that he had discussed this incident with two friends, Mr. [REDACTED], [REDACTED] Whippany, New Jersey and a Mr. [REDACTED] (phonetic) who is a purchasing agent for [REDACTED] Industries. Mr. [REDACTED] was in Lake George, New York, on the night of 4 August 1958 and [REDACTED] son was in a camp in Newton, New Jersey, and both these individuals saw a UFO on that night.

Very little info. only that it was brilliant, elliptical shaped object was observed.
