Dear Sir:

My husband and I watched
the documentary film about
unidentifiable flying objects ~~the~~
other night - two nights ago I
believe, and decided to write you
about something we saw the
summer before the last one.

We were vacationing in
Deering, New Hampshire where
we have a summer place, and
as we were on our way to an
auction in Dunstable, N.H.
we saw a peculiar object.

Our place is high on the
side of a hill and we have to

Dear Sir:

I wonder if you would
be interested in a sight
my husband and six
children and I saw on
a day in August 1958

We were in our car high on
a dirt road on the side of a
hill overlooking a valley which
was heavily wooded.

We all saw it about the
same time. A flying object
elliptical in shape and it was
not a plane. It had no
windows or wings or rudders
of any sort. It was a

! luminous orange color. It was
from ~~from~~ the distance we
were, about the size of a plane
but it could have been bigger.

It disappeared into the tree
tops on the horizon which
was below us. It was going
at such a speed that if it
had been a plane it would
have crashed. There is no
airfield there where it descend-
ed, as we asked about that
later.

He watched it disappear and
then drove to our destination
which was an auction at
Dunstable New Hampshire.

He were in Deering N.H. when
we saw the object.

He never reported it fearing
we would be ridiculed.

Yours sincerely

My husband ~~was a~~
a Major of Infantry during ~~the war~~ and
attest that it was a flying saucer

1
Came down a steep dirt road
to the main hla to top road.
While coming down the dirt road
one of my children drew our
attention to a sight below us on
the horizon and we saw a sort of ^{common} glowing
reddish orange metallic plane
but it didn't have any wings
or rudders. It was elliptical
in shape as a plane would
look side view but we don't
think it was a plane. It saw
it on the horizon which was
below us and it went fast
down into the trees.

He later told neighbors about
it and as they are natives of the
district we asked if there were
any landing fields there. They
said there wasn't. There is
a lake in that vicinity so we
felt that if the machine had
landed it must have been on
water as it would have

crashed if it landed in the woods at its speed it was going. It continued on to Rock-stable and the auction but our minds were puzzled by the sight.

In the car with us was our six children and I asked my oldest girl (after seeing your film) if she remembered that day. She said she did but I didn't discuss it with her until tonight.

We felt there must have been a logical explanation of the whole thing so we didn't report what we saw, being timid I suppose. Anyway we wouldn't know who to tell.

My husband said we should report it even now, and as he is working tonight I am taking the liberty of doing it for him. You see in your picture

all the U. S. O. were up on the
sky but what we saw was
coming down for a landing ^{very}
It was certainly not a balloon.

It could have been an
enormous rocket but no nose
cone or tail.

He'll we may be crack pots
about this but these facts are
true. He will swear to it.

This past summer we spent
a couple of weeks at our ^{family} home but weren't looking for
or didn't see anything strange.

However your film brought
the episode back to our minds
and even if we are late with
this (it was about August 1958)
we feel we should report it.

Yours very truly

Dear Mrs. [REDACTED]

This is to acknowledge and thank you for your recent letter concerning an Unidentified Flying Object seen by your family in August 1958. Unfortunately, this sighting is so old that it would be impossible to effect a valid evaluation of just what you did see.

There is no U. S. Air Force or Department of Defense documentary film on the subject of Unidentified Flying Objects. Therefore, the film you saw must have been a commercial or Hollywood enterprise.

The Air Force must be objective in its analysis and evaluation of UFO sightings. For your information, I am inclosing the latest Department of press release on this subject which clearly states the Air Force position.

Thank you very much for your interest in this matter.

Sincerely,

Dear Mrs. [REDACTED]

Your recent letter addressed to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Dayton, Ohio concerning an unidentified flying object sighted by your family in August 1958 has been referred to this Office.

This is evidently the same sighting you referred to in your November letter to this office, which sighting was determined to be too old to effect a valid evaluation.

However, since you feel that this sighting was significant, I am inclosing two United States Air Force questionnaires which should be filled out in detail by you and your husband. When the questionnaires are completed, please send them directly to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

16. Tell in a few words the following things about the object.

a. Sound heard no sound

b. Color like a luminous red orange

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? just one.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
_____ feet.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar

- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball
- k. Other _____

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

It was gliding fast and disappeared behind the tree tops.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

From where I sat it was circular in shape without any windows or wing or any rudder - It had no nose cone or tail such as a rocket

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car ☒
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?

g. Other on road coming down steep hill to blacktop road

27. What were you doing at the time you saw the object, and how did you happen to notice it?

We were in the car on a dirt road coming down the side of the hill. Eileen who was in the middle seat of the sta. wagon saw it first. Then we all looked at it and it disappeared.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? just crawling miles per hour.

as hill is steep.

28.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

Just like a woman - Can't tell direction

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

11

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

31.2 When it disappeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky ☒
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind

- a. Cold
- b. Cool
- c. Warm ☒
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

____ Day ____ Month ____ Year

It was in the first part of Nov two years 1959

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes ☐ No

36.1 IF you answered YES, did they see the object too?

(Circle One) ☒ Yes ☐ No

36.2 Please list their names and addresses:

He were spending vacation at [redacted] Farm in [redacted] R.D. Halesboro, Vt.

37. Was this the first time that you had seen an object or objects like this?

(Circle One) ☒ Yes ☐ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

Well it was most unusual - it could have been a flying saucer - at least I am sure it was an unidentifiable flying object -

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

_____ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

WAS SIGHTED WE STOPPED - SAT + WATCHED IT.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- a. North
- c. East
- e. South
- g. West
- b. Northeast
- d. Southeast
- f. Southwest
- h. Northwest

28.2 How fast were you moving? 0 miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- a. North
- d. Southeast
- e. South
- g. West
- b. Northeast
- c. East
- f. Southwest
- h. Northwest

30. What direction were you looking when you last saw the object? (Circle One)

- a. North
- c. East
- e. South
- g. West
- b. Northeast
- d. Southeast
- f. Southwest
- h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North 160° degrees.
- b. From horizon -15° degrees.

31.2 When it disappeared:

- a. From true North 85° degrees.
- b. From horizon -15° + degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- ☒ b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- ☒ c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

____ Day ____ Month ____ Year

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes No

36.1 IF you answered YES, did they see the object too? /

(Circle One) ☒ Yes No

36.2 Please list their names and addresses:

DAUGHTER - [REDACTED] 17 YRS
 " " [REDACTED] 14 YRS
 [REDACTED] 10 YRS
 [REDACTED] 9 YRS
 [REDACTED] 8 YRS

SON - 7 YRS
 WIFE -

37. Was this the first time that you had seen an object or objects like this?

(Circle One) ☒ Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

IT IS MY STRONGEST CONVICTION, THAT IF IT WERE NOT A SECRET
 GOVERNMENTAL PROJECT, IT DEFINATELY CAME FROM FOREIGN AREAS,
 EITHER PLANETARY OR FOREIGN GOVT. EXPERIMENTATION, IT WAS A
 TRUE REPLICA OF WHAT HAS BEEN PORTRAYED IN COMICS AND SCIENTIFIC
 REPRESENTATIONS AS BEING FLYING SAUCERS

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

110-120 m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

1/3 mile To 1/2 mile
feet.

DATE

1 Jan. 60

On August 27, 1958 - while vacationing at our summer home located in East Derry N.H. - my family and I decided to go to an auction to be held in Dunbarton (see enclosed bulletin). Our home is located high amongst the rolling hills of this area - elevation estimated at 1100 ft.

After lunch we drove upgrade and along the ridge line of a large hill mass - then the road turns sharply to the left - here for about 200 yds the grade of descent is very steep - about 40° from horizontal. Off to our right the hill falls away to expose a beautiful view (Birds-eye) of $\frac{1}{2}$ to $\frac{3}{4}$ miles in width. Bordered with a heavy tree line on the far side - rolling hills and a view of a distant Lake. (Lake Umbagog)

It is customary for me to always look at this vista and comment about it. As a side note - One Sunday after Mass we returned

from Hillsboro N.H. along a road that runs through the defile, and I observed an Air Force plane flying overhead - I guess he was at 500 ft more or less - It appeared to me at the time, that as he was lower than the hilly country side, that it was strictly a pleasure hop (a Sunday driver pilot). Twenty minutes or so later, when we reached the spot of our ^{later} observation I was amazed to see that this plane was still in the confines of the valley area, and that we - in the car were higher than they in the plane. It was a thrill for me, as I've always considered myself a "frustrated" pilot. Incidentally, I have flown light planes (Piper + Aerobees).

Setting back to the date in question - as I turned the car to the left about to descend the steep hill (low gear after a stop - as the road is (curvy) and one has to give right of way to any car fighting to climb the upgrade, one of my youngsters said "look - look - what is that?" I stopped and we all instantly saw the same thing - "what is it Daddy" - Look Look - what is it? One would say "It looks like a flying saucer - then more scrutiny - remarks were fast coming - no wings - no tail - it's going to crash - I'm scared etc etc. After it had passed from view - right front to front, behind or through tree tops, I asked each one in turn - "What did you see" not offering any comments or suggestions. The conclusion ^{were} ~~was~~ unanimous - "like two saucers, one on top of the other but upside down - no wings - no tail - no smoke - no windows - color - reddish-orange. Remember we were looking down on this object and could see the entire outline, both in diameter and side view.

(CONT'D)

I was so amazed at the spectacle, that I sat there for several minutes - to assure myself that it could not have been an apparition - and that I wanted to ~~to~~ impress this vision on my mind in the event - that if and as I expect the object crashed in the wood land - that upon its discovery and revealing by its finders or other watchers, that I could tell of its movement, as I saw them. Then we proceeded to the auction -

On our return, I inquired of several farmer + country friends if they had heard any reports of strange craft or a crash - No one had - and when I told my version - they like all normal people, would look askance and say nothing - I believe to them, I am respected for my intelligence and personal dignity.

I made these same remarks to a few other close friends - but they (as you the reader of this note) what can be said? I decided to say no more - hoping that during the coming Bird + Deer hunting season, that hunters would come upon the wreckage (if any) in the woods - nothing has been reported to my knowledge, so I've said little more to anyone.

Let me state here emphatically that I certify that what I declare I saw, I really did see, and no one - I repeat, no one, can change my opinion - If it was not a secret weapon of our country - it was a ~~foreign~~ foreign

barrel object.

It appeared to me to be either control landing or a
skim glide of a metal object, that could have burnt up
coming through outer space and was gliding to a crash.

I request that if your office is interested - I would be
glad - especially when the foliage is out - to have an Air
Force representative meet me, and I will show the locale,
direction of flight - altitude - point of loss of vision - and if
it were necessary or thought desirable, we could by radio
have a light recon plane ^{or} copter fly over the course.

I realize now, the effect of the time loss, but one does
not enjoy sounding fantastic - and it wasn't until we saw the
movie of Unidentifiable Flying Objects, that our thoughts along this
line were brought back, and Mrs ~~XXXXXX~~ (my wife) thought we
should tell of this experience.
