DATE: 10th December 1993

SUBJECT: REPORT OF UNIDENTIFIED LIGHT IN SKY

1. At about 18.10 hours, Friday, 10th December 1993, Section 40 Section 40 Stone, reported seeing a large flash in the sky and something coming down like a meteorite.

2. The following information was obtained and is set out in the format used by the Department of Trade and Industry, National Air Traffic Control Services.

3. (a) Date/Time/Duration of Sighting: 18.10 hrs. Friday 10/12/93 for about a second.

(b) Description of Object: One ball of light, white in colour, with a little tail that may have been more reddish in colour.

(c) Exact position observed: Observer indoors sitting facing westerly direction. Object seen moving downwards at about 60^{o} to horizontal, sloping to the south. Map Reference SJ 913332.

(d) How observed: By naked eye.

(e) Direction in which object was first seen: Seen up in sky travelling downwards with no landmarks to assist.

(f) Angle of sight: Seen through window looking upwards from about 40^{o} down to 30^{o} angle of sight of observer.

(g) Distance: Unable to offer any estimate.

(h) Movements: No change in downwards trajectory.

(j) Meteorological condition: Dark/night-time but clear skies, stars visible.

(k) Nearby objects: No particular objects in area of sight.

(l) Reported (statement attached) to Sgt. Section 40

(m) Section 40

(n) Any other information: No sound heard by informant having seen object from behind double glazing. Thought object to be too large for meteorite.

Date: 8 December 1993 **Ref:**

Duty Sergeant,

As per standing orders I submit report of U.F.O. reported to me by Section 40 Rochford on 7.12.93.

A) Monday 6th December, 1993, at 16.10 hrs. Duration of sighting between 5 and 10 seconds.

B) Described as a sphere, cut in half, flat side uppermost (like a bowl), solid, white in colour, almost fluorescent. Size, as large as a single storey house. No sound or smell, but had 2 vapour trails behind, one on top of the other. Vapour did not linger but dispersed in seconds.

C) Observed from rear garden of Section 40 by occupant.

D) Observed with naked eye only.

E) First noticed to east of observer, over King Edmunds School, Vaughan Close, Rochford.

F) Viewed from the ground approx 200 ft up.

G) When first sighted seemed to be approx 1/4 mile away, but passed within 200 ft of observer.

H) Moved in a perfectly straight line, from east to west. Disappeared over railway line at rear of Banyard Way, in Hawkwell.

J) Dry, very clear sky, but light failing as dusk approached. Fierce fire several miles away in Eastwood and thick black smoke blowing north eastwards, but not over location of sighting.

K) Housing area. Railway line close to location. Airport approx 1 mile away.

L) Reported by observer to Southend Airport and Ministry of Defence, Foulness 6.12.93, shortly after the sighting. Reported to Rochford Police Station 1530 hrs 7.12.93.

Subject UFO SIGHTINGS - 6 DEC

Ym will be aware that there was a wave of UFO Sightings between 1625Z - 1635Z on Monday 6 Dec. From discussions with the Royal Observatory at Greenwich, and the British Astronomical Association, it seems most likely that witnesses saw a fireball, breaking up as it descended.

Particulars of Complaint

Was given our number by the local police - he never thought to ask them whether they had received/heard/seen any unusual/strange phenomena! Sighting of some sort of aircraft near BLACKDOWN MAST area @ approx. 30 ft. above local church. Described as the shape of a single-decker bus but more flatter! Also stationary and white-ish! Very bright but not bright enough as to hurt your eyes. Said he felt a touch foolish telephoning - I explained who Section 40 was and that hopefully he may be

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1.	Date, time & duration of sighting	Wed 1 Dec ≈ 14.30 about 10 mins.
2.	Description of object (No of objects, size, shape, colour, brightness, noise)	Initially one red object then joined by 6/7 others - looked a bit like hang gliders but unmanned. no noise
3.	Exact position of observer (Indoors/outdoors, stationary/moving)	In office - City of London. (didn't seem to want to volunteer any more than that)
4.	How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye.
5.	Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	Not sure ("no good on directions") Came from behind a building + eventually disappeared behind another.
6.	Angle of sight (Estimated heights are unreliable)	Again Passed overhead at about 1000ft (although by his own admission he was not very good at judging height)
7.	Distance (By reference to a known landmark)	— " " —
8.	Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Haphazard, but all objects moving in unison.
9.	Met conditions during observations (Moving clouds, haze, mist etc)	Broken cloud.
10.	Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	—

11.	To whom reported (Police, military, press etc)	Spoke to CAA but they were not aware of any activity.
12.	Name & address of informant	Section 40 [redacted]
13.	Background of informant that may be volunteered	—
14.	Other witnesses	No.
15.	Date and time of receipt	1 Dec 93. 1545.
16.	Any unusual meteorological conditions	No.
17.	Remarks	He thought it might have been balloons but couldn't understand why they were many in unison. Not interested in speaking to UFO groups. Simply wondered what it was that he saw. Was keen that we should let him know if we had any other reports or found out what it was.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1.	Date, time & duration of sighting	Wednesday 10th November, c 4·45pm / 5pm. Several minutes
2.	Description of object (No of objects, size, shape, colour, brightness, noise)	One very large object. Semi-circle at front, body "like a Hurricane aircraft" and stubby wings. Humming noise heard.
3.	Exact position of observer (Indoors/outdoors, stationary/moving)	Outside house, although the 2 witnesses subsequently locked themselves in house.
4.	How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5.	Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	In distance, towards Beeston Castle, but object got closer and closer, until it was hovering over the house.
6.	Angle of sight (Estimated heights are unreliable)	Originally behind clouds, but ultimately approx 100 ft.
7.	Distance (By reference to a known landmark)	In distance when first seen. Later, directly overhead house
8.	Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Slow moving, then hovering
9.	Met conditions during observations (Moving clouds, haze, mist etc)	Had just got dark. Some cloud.
10.	Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	House, stables, fields

11.	To whom reported (Police, military, press etc)	Cheshire Police - PC Section 40 *
12.	Name & address of informant	Section 40 Nr Tarporley, Cheshire.
13.	Background of informant that may be volunteered	N/k
14.	Other witnesses	Section 40 did not witness event - his 2 sons (13 + 11) saw it.
15.	Date and time of receipt	Spoke to Section 40 at 10·15 on 12 Nov. Section 40
16.	Any unusual meteorological conditions	None
17.	Remarks	Originally seen as flashing lights behind clouds, but then seen close up. Boys were terrified, and locked themselves in house, and phoned their father. At one stage, object fired a searchlight at house, and it "became as bright as day".

Section 40

Sec (AS)

* - Section 40 is friendly with his local bobby, who told him that several Police in the area have seen strange things in the sky while out on patrol at nights.

From: FCF, HQ P&SS(UK)
RAF Rudloe Manor
Hawthorn
Wilts

To: MOD(Sec(AS)2)
Room Section 40
Main Building
Whitehall

A. Date, time and duration of sighting: 10 Nov 93. Between 1930-2005 and then again between 2100 - 2115.

B. Description of object: First incident - it had green, red and blue lights on it with lots of smaller white lights. Second incident - it had red lights on either side of it with at least 20 white lights at the front. This one also had some sort of stand coming out of it.

C. Exact position observer: First incident - In the car Second incident - On foot.

D. How observed: Naked eye.

E. Direction in which object was first seen: Not Known.

F. Angle of sight: Not known.

G. Distance: First incident - About 3 miles. Second incident - Close enough to see stands.

H. Movements: First incident - She saw 2 bright lights looking like they were going to land on the playing fields at Creswick Rd, Knowle, Bristol. The 2 objects then stopped and started going backwards, they then stopped again and one vanished. She continued to follow the other one in her car when that vanished too. It then reappeared right in front of an plane and then proceeded to follow the plane.

Second incident - Again saw 1 object at the same playing fields as above. It was going backwards and all the lights were flashing, it then moved towards her so she fled to her car.

I. Meteorological conditions during observations: Clear.

J. Nearby objects:

K. To whom reported: Flying Complaints Flight.

L. Name and address of informant: Section 40 [redacted]

M. Any background on the informant that may be volunteered:

N. Other witnesses: First incident - No one. Second incident - Her husband.

She has started up a Somerset branch of Bufora and is currently investigating some sightings between 3-14 August. She is trying to determine whether we are aware of any activity that might have been taking place at the time which might explain the sightings (lights in sky, about the size of a football at arms length', and shaped a bit like a daisy !!).

Family sees strangers in the night

LITTLE green men could be set to land in the area, after a number of "strange" sightings in the skies.

The Neal family from Scawby saw what they believe to be an unidentified flying object on Friday evening.

And a Crosby woman has also reported seeing a strange object in the skies — also spotted in the Glanford area by her relatives.

Checks to local RAF bases reveal no aircraft reported flying in the area on Friday night and so the strange sightings remain a mystery.

Council worker Stephen Neal and his wife Sallianne, of St Martin's Crescent, Scawby, said they were driving their two daughters Louise (12) and Victoria (nine), to the library in Brigg when Louise spotted the object.

By KATHRYN REANEY

"She said what's that stick in the sky, mum?" said Sallianne, who thought at first Louise had seen a plane or something similar.

Sallianne described the object as quite a big stick of light that looked like the edge of a saucer.

It was moving slowly, said Sallianne and the family headed towards Barton Lind-sey to get a better view.

But before they got there it seemed to turn and disappeared, she said.

"I can't explain what we saw," she said. "It wasn't a bird and it wasn't a plane. We just couldn't describe it."

Now the family are hoping Evening Telegraph readers may have seen something similar on Friday night or that experts may be able to explain what they saw.

"I'm always sceptical about these things," she added. "Whether it was the light playing tricks, I don't know."

"It would be interesting to find out what it was."

Local police said they had not had any reports of UFO sightings over the weekend.

Mystery object was cigar-shaped

A CROSBY woman who believes she saw an unidentified flying object in Scunthorpe on Friday night has learned she is one of a growing number of people who have had sightings in the area.

The woman, who does not wish to be named, was called outside by her partner when he got home from work at around 10pm.

He had seen the object as he came home from work.

She said the cigar-shaped craft had small wings on it but not at right angles like a plane.

There was no plane noise and there were lights underneath it, she said.

According to the woman, the object was stationary for a while before moving off very quickly.

She found that her stepson had seen a similar object as he drove from Barrow to Barton at about the same time on Friday.

"It was very strange," said the woman. "I wondered if anyone else had seen anything."

Now a national expert has added weight to the claim, saying that the number of UFO sightings across the country has risen significantly in the last few weeks.

Phillip Mantle of the British UFO Research Association, said that 95 per cent of sightings turn out to have a logical explanation such as weather phenomena or planes but that a small percentage seem to have no explanation at all.

The Bradford-based authority said he would contact Humberside

Close encounter scares UFO witnesses

A mother and her 20-year-old daughter this week claimed to have been frightened after a strange silent craft followed them down Green Road.

Their encounter lasted about an hour and a half. The two, who live in the Derby Road area of Ashbourne, became aware of an elongated H shape in the sky on their right as they passed the Little Chef travelling the A52 towards Ashbourne. It was about 9.10pm.

"It was not a plane or a helicopter and had lights at the bottom like strobe lights moving around very slowly," recalled the mother. "It was square shape and very large in the sky.

"I wanted to go home when we got to Ashbourne but my daughter said to go to Green Road, where I knew that we should see it.

"Against my better judgment we went although I was frightened because I knew it would be there.

"Just past the Grammar School my daughter shouted that it was there on the left above the houses.

"I had already locked the car doors and drove up Green Road to about ten houses before the end, and stopped.

"Now it seemed to have lost shape and was replaced by a bright flashing star which we felt compelled to focus on.

"We were quiet, and kept looking for about five minutes and then suddenly there it was above us.

"I leaned forward and looked through the windscreen and directly above us was this saucer shaped thing, as big as a house and as high as a house.

"It was round, and a silvery white colour with white flashing lights around it and other round shapes around it like glowing ball lights.

"There was no sound at all and I was petrified and my daughter screamed 'Oh my God.' I felt as though it could have beamed us up, so put the car in reverse and backed down Green Road at about 40 miles an hour.

"As I did so my daughter was shouting that it was following us, but by the time we got near to Town Head it had gone over the houses and trees and I felt a bit safer and stopped again."

They both got out of the car and stood looking up into the sky when they again saw the elongated H shape which, as they looked, changed into a cigar shape.

"As we looked it took off and shot across to the left, back to the right and back to the left. Then it disappeared."

The two now decided to go home but getting back in the car found it was icy cold, as though a frosty morning, although the heater had been on all the way from Derby.

Driving up Derby Road and looking across the valley they saw the H shape still over Green Road and arriving home the woman got her husband to go back with them.

They followed the strange craft up to Kniveton, and saw it flashing again before it shot over towards Hognaston.

"My husband works in the aerospace industry," said the woman, "and had never seen anything like it. It was like nothing I had ever seen either."

The woman admitted she had been very disturbed by the experience and said it would take a long time to get over it.

"Although I am pleased to have seen it and wonder why it came to us, I never thought I was going to make it home. I thought life was going to disappear and me with it."

In July when a woman on the Green Road area was also frightened by a strange huge disc shaped object, several *News Telegraph* readers suggested it was a Chinook helicopter.

But when the *News Telegraph* described the experience and description to RAF Strike Command at High Wycombe, spokesman Dale Donovan said it did not sound at all like a helicopter.

"The Chinook, while being 99 feet long including the rotar at each end, is a very loud aeroplane making a very distinctive vibrating noise.

"It also has a considerable down-draught.

"I think you are talking here of something more than a helicopter."

At the Ministry of Defence in Whitehall, UFO sightings are dealt with by Mr Nick Pope who has asked that the women in question should send him full details of the incident and a sketch of the craft.

"Ninety-five per cent of reports we receive can be explained in terms of known objects or phenomena," explained Mr Pope.

"Satellites, aircraft, weather balloons, meteorites and so on. But we accept five per cent of sightings do appear to defy explanation and on which we are open minded and have no better idea than the next person."

Last year Mr Pope received 147 reports from members of the public, usually via the local police.

So far he has received no reports for Tuesday evening last week.

UFO spotters chase mysterious flashing triangle

21/1/93

UFO sightings in the Ashbourne area have continued to be reported to the *News Telegraph* by mystified members of the public.

In the latest incident, a family from Ellastone spotted a mysterious craft in the sky above their home and even set off in their car to find it when it went out of sight.

"It was a massive triangular object with flashing lights all around it," said Mrs Jackie Chown of Churchfields Cottage, Ellastone.

"It was very big, made no noise, and seemed to be coming down over Back Lane travelling towards Uttoxeter.

Her son Dave then jumped into his car along with family friend Mr Jim Chapman who went in search of the strange craft.

"He went round the whole Ellastone and Wootton area but could not find a thing," said Mrs Wootton.

Mr Chapman, who has a good knowledge of planes, could offer no explanation as to what they had seen and became even more intrigued when his mother in Derby rang with a sighting of her own.

She independently described this triangular object with flashing lights that had flown over her house on Tuesday night as well.

And a couple in Wootton have spoken to Mrs Chown saying that they were woken later that night by a very strong light over nearby Darley Moor.

The *Ashbourne News Telegraph* has reported many UFO sightings over the years with the most recent just before Christmas.

Our special UFO file shows [illegible] mo[illegible] sightings occur in the winte[illegible] month November-February.

Some people suggest that what people a[illegible] actually witnessing are the Northern Light[illegible] quite often visible at this time of year, rath[illegible] than little green men from outer space.

But Mrs Chown refutes that: "It w[illegible] definitely nothing like that and it certainly w[illegible] not a helicopter or plane as it made no noise - but I can not explain what it was."

Strange craft was no 'copter — says woman

21/1/93

An Ashbourne woman was left frightened and shaken after a "close encounter" in the Green Road area of Ashbourne last Wednesday evening.

It was the latest in a number of UFO sightings reported locally this year.

The woman, who has asked not to be named and for the exact location not to be given, was returning home alone in her car soon after 11pm.

"Suddenly I became aware of this thing stationary above the houses, my attention drawn to it by its whirring and the lights which suddenly flashed on, lighting up the whole road.

"I couldn't believe what I was seeing.

"It was disc shaped with a dome on the top and red and yellow lights all round coming on and off, and with the black outline of a door.

"It was quite low down, about the height of two houses above the roofs and about three buses long.

"I was terrified. It was as though it was staring at me, the lights going on and off.

"I stopped and looked at it for a few moments, and as I got out of the car it started to move off quite slowly up towards Greenway and over towards Windmill Lane."

Various suggestions have been put to the woman as to what the object might have been, but she is adamant this was unlike anything she had seen before.

"I know what a helicopter looks like and what it sounds like, and this was no helicopter," she said.

Should anyone else have seen anything that night, the Ashbourne News Telegraph would like to hear.

Flying 'vacuum cleaner' sighted

An object said to resemble a "Goblin-shaped vacuum cleaner, with two legs and wheels," was seen in the sky over Ashbourne by a local resident on Friday afternoon.

Mr Tom Lees was looking out of the window of his home in Green Road at about 2.15pm when he first saw the object.

Looking towards the cloudy sky, Mr Lees said he then saw how: "A moving object came into view which, as it got nearer, I first took it to be a helicopter."

"However, as it became closer, its shape was something I had never seen before. I rushed out of the house to view it as it passed by."

Mr Lees said he expected to hear the noise of an engine but didn't, as it appeared to be silent.

Added Mr Lees: "It was moving beneath the cloud at quite a high speed on a direct easterly course."

Woman sees 'second UFO'

An Ashbourne woman who claims to have seen a UFO in the sky over Ednaston last December has reported seeing another in a 'carbon copy' incident.

The woman, who does not want to be named, claims she saw the strange craft on Monday night last week while travelling between Derby and Ashbourne at 9.45pm.

"It was in exactly the same place, at the same time and it looked the same," she said. "It was a complete carbon copy of the other sighting."

6/5/93

The UFO was strangely lit up and moved too fast to be either a helicopter or plane. It also made no noise.

The woman now thinks that little green men may be after her because she knows too much. "I have got visions of coming home and finding aliens there saying 'You have seen us twice so we have come to take you away'," she joked.

Call on Friday from a Section 40 (Bristol UFO Research). He has info on lots of sightings which he will be sending to you next month (when he has finished his report) and he would be grateful for your views in due course.

While he was on the 'phone he mentioned the following:

- 18 Sep - 2205 - Dew valley area - Orange glow travelling west being followed by a military helicopter.
- 2 Sep - 0100 - from both sides of the Bristol Channel - Bright white light being followed by a military jet
- 4 Sep - 0515 - Cigar shaped object being 'chased' by 6 RAF a/c
- 23 Sep - 1700 - 3 unusual a/c at high level over Bristol coming from Filton area.

I didn't ask for any particular details as he will be sending the reports in. I said, however, that if you had anything on your files which appeared to tie in, you would let him know. His phone number is Section 40

STANDING ORDER E4

REPORTING OF UNIDENTIFIED FLYING OBJECTS (E:1:1)

National Air Traffic Control Service

1. The Department of Trade and Industry, National Air Traffic Control Services, are required to advise the Military Aeronautical Information Service of all reports of unidentified flying objects and/or similar phenomena coming to their notice. To be of the greatest value, these reports are required in a standard form, giving as much information as possible. When a member of the general public reports such a sighting to the police, it may help them to give the required information if they can be prompted by the correct questions.

2. Set out below is the format to be used as the basis of any notification to the Department of Trade and Industry when any sighting is reported to the police:-

   (a) Date, time and duration of sighting.

   (b) Description of object (number of objects, size, shape, colours, brightness, sound, smell, etc.)

   (c) Exact position observed (geographical location); whether observer was indoors or outdoors; whether the object was stationary or moving.

   (d) How observed (naked eye, binoculars, other optical device, still or movie camera).

   (e) Direction in which object was first seen (a landmark may be more useful than a badly estimated bearing).

   (f) Angle of sight.

   (g) Distance (by reference to a known landmark wherever possible).

   (h) Movements (changes in (e), (f) and (g) may be of more use than estimates of course and speed).

   (j) Meteorological conditions during observations (moving clouds, haze, mist, etc.).

   (k) Nearby objects (telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, T.V. or radio masts, generating plant, factories, pits or other sites with floodlights or other night lighting).

   (l) Officer to whom reported.

   (m) Name and address of informant.

   (n) Any background on the informant that may be volunteered.

   (o) Other witnesses.

   (p) Date and time of receipt of report.

LIGHT SHOW IS OFF BEAM

POLICE took a dim view when the owners of a nightclub tried to light up Buckingham Palace yesterday.

As soon as the men from the trendy Ministry Of Sound tried to project their huge logo on to the royal residence the men from the Home Office turned on their blue lights and stepped in with: "You can't do that, It's against regulations."

Owners of the London nightspot had already parked their mobile halogen-lit projector near the Houses of Parliament and Battersea Power Station, *above*, and used them as backdrops for their spectacular light show.

They pulled the stunt to mark the club's second birthday and its own CD topping the dance chart.

Police step in to examine the projector

Witness says he noticed object whilst driving along the Heathfield westbound, he saw it clearly, it appeared to be at distance but was obviously large. It didn't appear to move at first, it was stationary and was inverted not horizontal at an approx angle of 60°. The witness travelled for approx 3miles whilst observing the object, it appeared to get larger whilst occasionaly moving through cloud (or cloud may have passed in front of object). Witness then became aware of an aircraft heading in general direction of object (aircraft was quite large but not large passenger jet, possibly a business jet) As it got nearer to object, the object made sudden quick movement it turned on its nose to the horizontal and moved in the same direction as the witness (west bound) then became lost in cloud. The witness also noticed a vapour trail associated with these movements.

Section 40 (Moray Firth Radio) Section 40 rang about a UFO sighting in Inverness area last night. He is running a piece on the 1pm news and asked for a comment. I told him that he should really go through the Press Office. However, he proceeded to describe the sighting - silent, slow-moving black banana-shaped object - and asked what I thought. I gave in & told him our general policy & that I could not think of an explanation for what had been seen. I said that you would give him a call back (he asked for eg how many sightings there had been this year)

THE REPORTER STRESSED THAT SHE HAD WATCHED THIS BRIGHT LIGHT ON TWO SUCCESSIVE MORNINGS, UNTIL IT SEEMED TO RECEDE INTO THE DISTANCE, "LIKE A TINY SILVER BALL". SHE HAD CALLED A REPORTER FROM THE WESTERN DAILY PRESS, AND THE PAPER HAS PRINTED A 'STILL' PHOTO FROM HER VIDEO FOOTAGE.

LOOKING FROM THE CONTROL TOWER AT BRISTOL AIRPORT, A BRIGHT LIGHT COULD BE SEEN TO THE E, HIGH IN THE SKY (APPROX 60° ELEV), BUT THIS APPEARED TO BE A BRIGHT PLANET OR STAR. A PHONE CALL TO Section 40 CONFIRMED THAT THIS WAS NOT THE OBJECT HE WAS VIEWING.

Q. Why are you always on leave when these Section 40 occ?
Anxious to be taken seriously

He also mentioned that he saw another UFO back in November at 2.00 am. The object had a bank of 3 flashing lights which changed from Red to Green to White. The object was very high (thousands of feet) and moved very fast in a jagged pattern — would travel very fast, stop, + then move off in a completely different direction. Object was seen from a car with three other witnesses.

I mentioned to him that the objects he saw last Saturday might have been airships — but he didn't seem to be too convinced. I said that we (that means you!) could check to see if any were in the area at that time + that we (you) would let him know. I also said that we could let him know if we had received any other reports. He asked if we could check radar tapes — I said possibly.

Could you get back to him next week — I promised you would!

PS. I forgot to give him the names of the Section 40 approved UFO groups — something else you can cheer him up with.

Note of action:

Spoke to Section 40 but although their airship has been in the Leeds area recently, it hasn't been over Parkinson. Referred Section 40 to the UFO groups.

Dear Section 40

I am writing to acknowledge receipt of your telephone message of 5 June 1993.

I have been unable to trace any likely source for what you saw so I have forwarded details of the incident to the Ministry of Defence (Air Secretariat) which monitors all such reports and decides whether any further action should be taken.

Thank you for your interest.

Yours sincerely

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	Monday 11th Jan, approx 9.50 pm, 3-5 seconds
B. Desciption of Object (No of objects, size, shape, colour, brightness)	One pale green light, which then split into three. He'd first thought it was a meteorite or flare.
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	Outdoors. Stationery.
D. How Observed (Naked eye, binoculars, other optical device, still or movie)	Naked eye
E. Direction in which Object first seen (A landmark may be more useful than a badly estimated bearing)	Witness looking ESE, saw object heading west. Ultimately disappeared into clouds, heading out to sea.
F. Angle of Sight (Estimated heights are unreliable)	15/20°. No idea of height.
G Distance (By reference to a known landmark)	N/k
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Speed seemed constant, but impossible to judge. After splitting, 3 lights twirled around - definitely 3 distinct objects.
I. Met Conditions during Observations (Moving clouds, haze, mist etc)	Some cloud, height N/k. Force 3 wind - objects heading into direction of wind.
J. Nearby Objects (Telephone lines, high Voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Not stated.
