DATE

August 6 1959

About 10 pm my neighbor called for me to come to my back door and I went into the back yard. She pointed to the sky and I saw there two shiny objects hovering high in a northwesterly direction. When they moved with great speed, one would move over then the other would move in the same pattern then they would move up. They would hover for a while then they would repeat the same pattern going north and higher all the time. Then we saw a third object of the same shape and size if not larger. It was hovering very high. It was flashing an iridescent red like a light from within. We almost decided while watching that it might not be a light at all but the sun reflecting on the red metal of object as it tilted in the sun. Since the sun was very high and to our backs. It waited till the other two objects followed their pattern across and up till they were directly under it. They no longer traveled in a horizontal pattern but went straight up till they were just specks then out of sight. My neighbor and her sister and small

children saw these some minutes before she called me.

I must say at this point. If I ever see anything like this again I shall keep it quietly to myself.

My sister, my children + I first saw the objects while eating lunch. At first I thought they were kites because they were so large and then we noticed they were being guided very slow so we watched for about 5 minutes from my kitchen window. The two ~~small~~ silver ones were doing all of the traveling. They appeared to have a moving motion as if they were spinning and what ever path #1 took #2 did the same. No I would move up and #2 would take the position #1 had before as if #1 was guiding #2. I called my neighbor and ask her what she thought it was and we all stood and observed it for about 10 minutes then we saw the larger one standing in one position very high up. It was glowing iridescent red in color and larger in size than the two silver ones. We watched the two silver ones travel across the sky to the red one, and when they

were in position Under the large red
 One they went up and out of sight. My
 neighbor called the ~~Evening~~ Evening Star Paper in
 Washington D.C. and ask if anyone else had
 reported seeing them. I called Airforce Weather
 Center and told them. Tuesday morning I called
 Major Jacker and told him what we had seen.

I would really like to know what we
 saw. ~~we saw a large object in the sky~~
~~that was not a plane or a rocket~~. I hope the
 Air Force will send us an explanation. I'm
 sure there must be one.
