Dear Sir:

Please put this letter in the persons' hands there in the Pentagon, whom is entrusted in data on UFO's.

I saw 5 UFO's on the evening of Nov. 1-1959 at 5:45 p.m. in a clear sky here in Phoenix. My husband a local school teacher also saw them plus my three small children ages 5½ - 4 - 16 months. I could easily be a member of the Ground Observer Corps because all I do is study the sky & look for different airplanes and other phenomena that may appear. I have to be with my children outside so to keep from getting bored I have seen probably everything that has ever flown over the Gobi for the past years since we moved here. I've been just praying to see a flying saucer since I first heard of them in 1947.

✓

I'm not convinced out of the
telling stars (Poor souls dying and going to heaven)
I'd seen in Texas earlier were really flying Junes.
Back to my report on the night mentioned
earlier, we (hus. & children) were looking across
the front yard and up at the sky. It was
twilight - I saw 4 black objects, round
but tilted to show the underside more to us.
We never seen such black things. I thought
they were ducks and I had reason to think so.
We lived in Texas all my life before I married
and moved to Oliver, and Red River, which is in
Texas is directly in line with the migratory
lanes of geese & ducks that fly south for the
winter. I saw the same manners &
flight patterns of the birds practically
every winter when they flew over. I thought

flight patterns of the birds practically

the flocks were ducks in formation. They
were in line like this  They were about
about 400 feet. They came from the north.
They weren't pushing as airplanes do. They
were just moving so smoothly. I said to
my husband "Look at those - "What are
they?" - He said "Why ~~that's~~ - They're flying

3. Saucers. I saw them go behind a palm tree which obscured my view for a minute but I said to myself "I wish they would do something to prove these saucers - it's hard to believe even if you are looking at them - Some of the lower ones went up & down like hobby horses a couple of times. They they all squared off in a turn, the center 2 that labbed turned last - I saw a swath of air cut where they went through - there were 2 trails for the 4 objects. Then again I wished to myself that they would shine for us as they were pitch black. The first 2 turned out an exploding flash of hot orange, white light & stayed that way for the T. & +

us a closer look and my husband said
I wish they would come back and
some enough here comes one right back

- since the others disappeared. It
was the size of a pin head (black).
It stayed that size - made a square
turn. (I knew it was square because
it was coming right at us then it
went squarely on the straight line).
These things didn't make a sound either.
The last one disappeared north after
going pretty slow since we blinked
and saw it coming from the West. I
wouldn't mind investigating one of the
saucers if we could be sure they were
friendly - maybe we could even accept
them and not panic but I think

I believe the occupants of the saucers must have been psychic because I said to my husband - I wish they would do something to prove they are other than airplanes, and the ones fire drawn around to bobbed up and down like hobby horses and tilted also.

Now I said I wish they would get light as something and they did at that very moment - they lit up with a hot orange white color - they must have been far apart then because I saw each distinct circle of light from the 4 of them. One that remained white, orange and the top that flicked red. They all seemed to us and faded off.

None of us were afraid or much
impressed - we believe they are extra-
terrestrial and the only thing that concerns
us are if they are friendly or not and
what their purposes are. My husband was
in the Counter Intelligence Corps in
Germany and he had a very high I.Q. and
he believes the saucers operate on magnetic
principles. The saucers made just a
square turn off to the west. They really
seemed low to us, also seemed to be
going pretty slow for them.

I hope this report can be of some
use in Research.

Thanking you I remain

Yours Sincerely

Dear Sir:

Last November 29 - 1959, I sent in
a Report on 4 'Flying Saucers' seen here
in Phoenix, Arizona. I also enclosed a
drawing of the UFO's. Could you please
let me know if my letter was received.
If it is at all possible could you send
me the colored sketch of the saucers
back? I want to prove to my
sister-in-law, my letter was received.
My address is Mrs ~~Ann~~ ~~Ann~~

I've read quite a lot about the
Flying Saucers and I've seen 6 altogether
now. My children's reaction to them is
the same as seeing a new airplane —
If we could just determine what their
visits mean to this country it would
make them much more friendly
appearing to me — I'm sure they
mean well. I believe some are good
and some are bad business. I
know I contacted them by telepathy,
because when I wished that they
would wave or light up — they
would do so. I know the sounds
coming but after we saw them —
(my husband, children) 2 men in
tuxedos came to the door asking about

3. a non-existent address here in

Phoenix. They smiled and laughed the whole time they were at the door. Their complexions were very rosy colored. They looked like healthy men more than I can say about any other men I've seen in a good 3 years including my husband. These men had complexions like children - that's all I noticed strange about them. What do you think could have been the explanation? This may sound crazy too but I heard radio call letters ended a woman's "hair dryer" in the Beauty Shop one day also music. If I hear anything interesting about the mysterious ones I'll contact the right people. I think if they should be

4. Hostile that the Government should attempt to reflect the sun's light on these with mirrors and get them that way or else - use a radio frequency on them.

Will you please have more in-
teresting things to attend to so I'll
sign off for now. Please try to

locate my old letter and let me know if my report was valid.
