10. BRIEF SUMMARY OF SIGHTING A bright flaring light high in the southern sky was reportedly observed. Light flared up and disappeared quickly. No direction or speed was given. Object seemed stationary. Witness was in an a/c heading NE.				11. COMMENTS There was very little information reported concerning an alleged sighting. There is the possibility that the witness, if there was one, saw a very high meteor. Questionnaires were sent to EAL for completion by the pilot who was reported to have observed the object. Forms were returned, blank, with the statement that the pilots in the vicinity of Evansville on this night did not report sighting a UFO. Therefore, there is not sufficient information to conclude the nature of the object.

TO: AFCIN-4E2

Following is an extract from ATIC Duty Officer, 1/Lt H C Kimball
report dated 5 Mar to 6 Mar 60 for your information:

2245 Received telephone message from Capt B. F. Dula, ext 51107,
Military Flight Services, W-P AFB. He stated that he had
received a report from St Louis ARTC regarding an unidentified
sighting by an Eastern Airlines Pilot. Details obtained are
as follows: EAL Flt 6403 (or possibly aircraft tail number).
Time of occurrence: 0224Z 6 Mar 60. Location: Aircraft NE
bound just SSW of Evansville, Indiana. Pilot stated that he
saw a bright flaring light high in southern sky which flared
up quickly and disappeared quickly. No direction or speed
apparent. Appeared to be stationary. No further information
obtained, not even pilot's name. In as much as so little data
was obtained and report was third hand I elected not to use
Form 164. Captain Dula stated that he tried to get additional
information as to object size, etc. but was unsuccessful. No
further details available.

UFO Sighting

Eastern Airlines

Radio City

New York, New York

1. On 7 March 1960, a report of an unidentified flying object by an Eastern Airlines pilot was relayed to Aerospace Technical Intelligence Center from St Louis AETC. The only identification of the witnesses is that they were the crew of Eastern Airlines flight 6403 (or possibly aircraft tail number), and location of the aircraft as northeast bound SSW of Evansville, Ind.

2. It is requested that if the crew of the above flight can be identified from the information, the attached forms be completed by those witnesses and returned directly to Aerospace Technical Intelligence Center, United States Air Force (AFUIN-452), Wright-Patterson Air Force Base, Ohio.

Sincerely

PHILIP C. EVANS

Dear Colonel Evans:

We regret our delay in acknowledging your letter of March 15 but we have been checking every way possible to determine whether one of our pilots reported the unidentified flying object on March 7.

We do not have an airplane 6403 and we did not have a flight 6403 on the date in question. All pilots in the vicinity of Evansville on April 7 have been questioned and all deny having made such a report.

We are returning the questionnaire attached to your reference letter.

Yours sincerely,

Vice President - Operations
