

MULTIPLE SIGHTING

PROJECT 10073 RECORD CARD

1. DATE 25 March, 1960		2. LOCATION Biggs, AFB, Texas		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☒ Was Astronomical Meteor ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other _____ ☐ Insufficient Data for Evaluation ☐ Unknown	
3. DATE-TIME GROUP Local _____ GMT 1050Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Military			
7. LENGTH OF OBSERVATION 4 seconds		8. NUMBER OF OBJECTS one		9. COURSE WSW to ENE	
10. BRIEF SUMMARY OF SIGHTING Three observers, military, sentries on duty observed round object glowing bluish-white without tail or exhaust. Accompanied by sound like whirring childs top with holes in side. UFO seemed to fade in distance.				11. COMMENTS All available information points to identification of the object as a "bolide" class of meteor.

UFO Sighting, Biggs AFB, 25 March 1960

27 OCT 1960

SAFOL-3d (L/Col Tacker)

1. On 25 March 1960, at 1050Z (0350 local), three airmen standing guard duty on the ramp at Biggs Air Force Base sighted an unidentified flying object. The witnesses described the object as glowing blue-white, approximately the size of a half-dollar held at arm's length, and shaped round. The witnesses all agree that the object was moving at a very high speed and made a sound like a child's top with holes, but that the object did not appear to leave a trail. The object was reported as moving generally from WSW to ENE and was in sight approximately four seconds.

2. Analysis of all available information indicates that the object responsible for this sighting was probably a bolide. The early hour at which this sighting occurred is probably why there were no other witnesses to the incident.

3. The following personnel assigned to the 95th Combat Defense Squadron, Biggs AFB, Texas were the witnesses:

Stout, John G., A/3c
Elam, James, A/3c
Eichert, Kenneth L., A/3c

4. For your information this sighting was classified confidential by the reporting organization. However, none of the information contained in this correspondence is considered classified.

. CAPTAIN LAWRENCE A. SMITH, COMMANDER 95TH COMBAT DEFENSE SQUADRON.

THE INFORMATION RECEIVED FROM WITNESSES APPEARS TO BE REASONABLY RELIABLE AND THE EXPLAINED INCIDENTS APPARENTLY OCCURED SUBSTANTIALLY AS REPORTED, ALTHOUGH POSITIVE EVIDENCE IS LACKING AT THIS TIME.

WEATHER CONDITIONS COUPLED WITH THE APPARENT LACK OF AIRCRAFT, MISSILE OR BALLOON ACTIVITY, TENDS TO SUBSTANTIATE THE STATEMENTS OF THE OBSERVERS. THE INVESTIGATING OFFICER WAS PRESENT AT THE SCENE OF THE SIGHTING WITHIN A MATTER OF A FEW MINUTES OF THE INCIDENT AND PERSONALLY OBSERVED THE CONDITIONS. NONE OF THE UFO'S WERE OBSERVED BY THE INVESTIGATING OFFICER. REFERENCE PARA 15I OF CITED REGULATION . NONE. ADDITIO

AL INFORMATION: LT CTLODEL BYRON KING, PROVOST MARSHAL AT WHITE SANDS MISSILE RANGE WAS CONTACTED AND REPORTED THAT NOTHING HAD BEEN OBSERVED IN THE AREA AND FURNISHED THE FOLLOWING INFORMATION: ARMY INTELLIGENCE IN THE AREA HAD NO REPORT OF ANY UNUSUAL INCIDENTS. HOLLOWMAN AFB NEW MEXICO REPORTED THAT THEY DID NOT HAVE ANY AIRCRAFT IN THE AIR AT THE TIME. THE ARMY REPORTED THAT THEY DID NOT HAVE ANY AIRCRAFT OR MISSILES

PAGE FIVE RJWBBG 36C

IN THE AIR AT THE TIME. RADAR DIVISION OF THE SIGNAL MISSILE SUPPORT AGENCY AT WHITE SANDS DID NOT HAVE THEIR RADAR WTRKING PRIOR TO 0530 HOURS. CAPTAIN W.J. GESSNER, 1900TH AACS SQUADRON, BIGGS AFB TEXAS WAS CONTACTED AND REPORTED THAT THEIR TOWER PERSONNEL HAD NOT OBSERVED ANYTHING UNUSUAL. MR. [REDACTED], SENIOR CONTROLLER FOR RALCON DURING THIS SHIFT, WAS CONTACTED AND REPORTED THAT NO UNUSUAL SIGHTINGS HAD BEEN OBSERVED. ADDITIONAL SIGHTINGS: TWO (2) ADDITIONAL SIGHTINGS WERE REPORTED BY TWO (2) INDIVIDUALS IN THE SAME IMMEDIATE AREA WITHIN NONE KOLQ HOUR SUBSEQUENT TO THE ORIGINAL SIGHTINGS. HOWEVER, INTENSIVE INTERROGATION OF THE INDIVIDUALS INDICATED THAT THE INFORMATION WAS VAGUE AND PROBABLY THE RESULT OF NERVOUS TENSION. AT 1225Z 25 MARCH 1960 SEVEN (7) INDIVIDUALS, TWO (2) OF WHICH WERE THE ORIGINAL OBSERVERS STATED THEY HEARD A SOUND VERY SIMILAR TO THAT HEARD AT THE TIME OF THE ORIGINAL SIGHTINGS BUT NO UFO WAS OBSERVED. HOWEVER NO ADDITIONAL INFORMATION COULD BE DEVELOPED TO IDENTIFY THE SOURCE OF THIS SOUND.

REPLY TO
ATTN OF: BDCLCDO

SUBJECT: Reference to message AFCLM-4E2 4-1049-E, 1 April 1960 14 April 1960

TO: ATIC
Wright-Patterson Air Force Base, Ohio

Reference your message, (Unclassified), AFCLM-4E2 4-1049-E, 1 April 1960. The following information was obtained by 2/Lt. Alberto T. Fernandez, AO-3074259, 95th Combat Defense Squadron, 95th Combat Support Group, SAC, Biggs Air Force Base, Texas.

Estimated brightness of light, compared to blue Taxiway Marker Lights, 6.6 Amp, 150 Watts: Observer I stated that it was approximately 25 percent brighter; Observer II stated that it was approximately 15 percent brighter; Observer III stated that it was 75-85 percent as bright as the runway-taxiway marker lights. The tail section and the upper part of the fuselage of the B-52 can be seen from the tower. Observers I and II saw the object simultaneously at 1050Z. As near as can be determined observer III saw the object within approximately five (5) seconds of the sighting made by Observers I and II.

Mr. [REDACTED], Research Associate from the University of Chicago, at the McDonald Observatory, Fort Davis, Texas, was contacted. Mr. [REDACTED] stated that they had not observed any unusual phenomena at the time of the sighting. In addition, Mr. [REDACTED] stated that Mrs. [REDACTED] was present in the Main Dome at the time of the sighting. Mrs. [REDACTED] could not be contacted as she is now at Yerkes Observatory, Williams Bay, Lake Geneva, Wisconsin. PH [REDACTED] 5.

Lawrence A. Smith

2. Blowup of alert area parking apron.

AFCIN-4E2

Activity of Aerial Phenomena Research Organization

SAFOI-3d (Maj Tacker)

1. Reference attached copy of a letter from Mrs [REDACTED] of the Aerial Phenomena Research Organization to Major Lawrence J. Tacker, dated 18 April 1960.
2. The Aerial Phenomena Research Organization has not forwarded any material or data to AFIC, nor has there been any attempt to establish liaison.
3. It should be noted that APRO is contorting the meaning of AFR 200-2, dated 14 September 1959, particularly Paragraphs 5d and 6a. Paragraphs 5d and 6a contain information to be used as guidance by the investigators. To our knowledge the information claimed by APRO has never been under formal Air Force investigation.
4. On 25 March 1960, at 1050Z (0350 local), three airmen standing guard duty on the ramp at Biggs Air Force Base sighted an unidentified flying object. The witnesses described the object as glowing blue-white, approximately the size of a half-dollar held at arm's length, round, and moving at very high speed. The witnesses all agree that the object left no tail or trail, but did make a sound like a child's top with holes. The object was reported as moving generally from WSW to ENE and was in sight approximately four seconds. The authorities at Biggs conducted an investigation in accordance with AFR 200-2, but were unable to determine the cause. Analysis of all the available information points toward this object being a bolide. The early hour which the sighting took place is probably why there were no other witnesses to the incident.
5. For your information this sighting was classified confidential by the reporting organization. However, none of the information contained in this correspondence is considered classified.
