- e. Don't remember

35. When did you report to some official that you had seen the object?

2 5 1966
Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) ☒ Yes No

36.2 Please list their names and addresses:

[REDACTED]

Bayonne, New Jersey

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes ☒ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

Several years ago I saw a falling star or comet at 34 St Bayonne with the same type of white light but it was smaller and much faster, also there was no red light prior to blackout. It does not seem to me that this red light could have been a refraction of the traffic light in my glasses while looking at the object as it passed.

38. In your opinion what do you think the object was and what might have caused it?

Since the object came from the direction of the ocean (S.E.) I believe it may have been ⁽¹⁾ a plane accidentally discharged a sea, ⁽²⁾ part of a satellite in orbit, or possibly a comet but the manner of descent and the reddish glow at the end prior to blackout seem to make this unlikely!

U. S. AIR FORCE TECHNICAL INFORMATION SHEET (SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

DATE 5/20/60

[REDACTED] and I were standing at the south east corner of 33rd, Baywood on May 2, 1960 talking at 8:40 P.M. when he noticed something unusual in the sky and said to me "Look at that". I saw a luminous object approximately 1/2 mile away and 4 ft high moving from the southeast towards the northwest. Watching it as it passed I caught the traffic light on the opposite corner. It seemed to black out and then a bright glow burst to appear and then another blackout - no explosion. If this report has been of help to you I have done my duty. If it has proven a nuisance I am sorry. Which reported as it appeared to me.
