ATIC FORM 329 (REV 26 SEP 52)

Inves Br

May 18, 1960.

INTELLIGENCE

Pentagon

Washington D. C.

Dear Capitalistic Friends,

While waiting to go to church (Now 9.40AM Sunday morning Standard Mountain Time) I read "The Family Fallout Shelter MP-15. My fellow chemists and other professional bourgeoisie "poh hughed" my efforts to prepare for and defend ourselves for an all out Atomic War, ever since Hiroshima.

The Powers case is your "baby".

On May 12 at 8.40 PM Standard Mountain Time I was sitting on the north ledge of the East entrance of the main building at Mark Kepele High School in the Alhambra School District of California. From what I told [REDACTED] on military observation of plane movements I estimate I saw a flying saucer traveling toward me and somewhat east. If interested I can take one of your military men and show the approximate movement between a tree and a light pole about a block away. As I first saw it in my bifocals I thought it might be a light refraction. But I took them off and it looked like a morning star (reddish like mars) except it had somewhat of a cross extension something like a spine on an enchinodermata.

awaited
I awaited for it to pass by in my line of vision past the cross arm of the light pole. It disappeared. A Stat was visible in that same area that remained about the same, but no visible movement.

I have told now one about it. I was alone and I don't usually take a breather on the East side of the Night School only on the North. And I'm not making any carbon copy.

Yours for Truth.

[REDACTED] San Gabriel, Ca

P. S. You can see why now I'm not mailing "Lady's Chatterington Lover" to Pasadena U. S. Post Office Inspector at Room 202 Pasadena, California. for I don't know how many facists are "taking over" the government but I know where I stand in "The Faith of Our Fathers."

Aircraft Information
U. S. Air Force
Defense Department
Pentagon
Washington D. C.

Dear Friends,

I've misplaced my first letter to you about the light I saw floating over a year ago at Mark Keppel High School at night. And I was surprised that you even wanted any additional information from me. I've also misplaced or lost page 1 and 2 of your forms, but like Xerxes of old who couldn't sleep when he caused the Book of the Kings of Assyria to be read to him and found out about Mordecai saving his life, I as a master sergeant for God should, since a law abiding citizen, mail you back the forms I completed months ago, and at that time I had the first page too.

If you'll give me a copy of my letter relating to this and the first forms with the others I can mail them back with any information I have stored in the SECRET part of my brain. But I really doubt if that is really important as now-a-days we are getting away from Desk Sergeants.

I'll really believe in our form of Democracy when all rated R.O.T.C. sergeants are retired on a pension like Eisenhower and one stenographers instead of \$83.00 monthly Social Security check which they won't even pay unless we volunteer to be executed like the Two Veterans [REDACTED] killed years ago in a Gulfport hospital.

Without Military training I wouldn't have been in my own church, which church I now request to admit qualified Colored Persons on one Summer Sunday in 1953. I disturbed no one but a Mississippi Poll-Tax citizen who "so efficiently" deprived me of a lawyer. [REDACTED]

16. Tell in a few words the following things about the object.

a. Sound _____

b. Color Like an evening star or light from a Helicopter at twilight
but moving like an air born object. I'm 53 and it drifted or moved like
those old fashioned paper balloons that use to be turned loose at Fourth of July.

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Only one.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

refer also to 17
page 3

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
_____ feet.

Only light visible.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar

- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball
- k. Other _____

Size like Mars or Venus at evening stars
not like Jupiter
when evening star

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.)

- a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

Thinking it would pass and appear again in my line of vision behind telephone pole. But I wish I'd moved so I could still see it on other side of pole.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

Discussed in 17 and 22

July 15 I was in a parking lot and ~~since~~ since I've just got a new pair of lenses I looked and saw two images where a glass should be in the car I was. But I localized those images from sun refraction on crown plate of another parked car.

too I know when I see real things, images, or nothing at all.

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other East side of road

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other

*I think near
is 2 miles from
right.*

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Sitting on East Side of entrance just resting
at recess of my Spanish Adult School Class

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared: About 7.5

- a. From true North _____ degrees.
- b. From horizon 10 degrees.

31.2 When it disappeared:

- a. From true North 70 degrees.
- b. From horizon 15 degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

However I want looking down the street
but I've placed A as B in reference to me
at about correct perspective

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate?

at 10 miles speed could
be 150 miles per hour from
prop airplanes I've observed in
Los Angeles Area at night.

m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was?

10 to 15 miles

feet.

41. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

San Gabriel

City

(none)

Zone

Calif.

State

TELEPHONE NUMBER

What is your present job?

Maintenance man for Launderymat at 1256 S. Glendale Ave, Glendale, Calif.

Age

52

Sex

Male

Please indicate any special educational training that you have had.

a. Grade school

b. High school

c. College

d. Post graduate

e. e. Technical school

(Type)

f. Other special training Took home study courses in Electricity and Accountancy.

AB University of Missouri 1930

In 1934

Calculus

at Washington University at St. Louis, Mo

42. Date you completed this questionnaire:

July 10

Day

Month

1960

Year

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
 b. Hazy *Los Angeles twilight*
 c. Scattered clouds
 d. Thick or heavy clouds
 e. Don't remember

34.2 WIND (Circle One)

- a. No wind
 b. Slight breeze
 c. Strong wind
 d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
 b. Fog, mist, or light rain
 c. Moderate or heavy rain
 d. Snow
 e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
 b. Cool
 c. Warm
 d. Hot
 e. Don't remember

More like moderate.

35. When did you report to some official that you had seen the object?

Day Month Year *You have my letter.*
~~mentioned it to no one~~

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes ☒ No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes ☒ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

But what misinterpreted me was the light went out just like if someone had shot it off. Perhaps a cloud (although it was so big I couldn't see it) began to cover light while behind the light part of my vision.

38. In your opinion what do you think the object was and what might have caused it?

I think now it was a helicopter at Riverside about 10 to 15 miles distant.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

1 July 1960

Dear [REDACTED]:

This is to acknowledge your recent letter regarding the sighting of an unidentified flying object.

Your letter contains insufficient information for a valid conclusion. Therefore, request that you complete the attached Air Force Questionnaire in regard to the sighting and forward the completed paper to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

Inclosure
